**Mafia and Clientelism**, 1984 Italian Politics Martin J. Bull, James L. Newell, 2005 This wide ranging book seeks to unravel the complexities of post 1992 Italian democracy It takes as its point of departure the dramatic political tensions of the early 1990s and evaluates these against the background of an analysis of the First Republic that predates these changes Martin Bull and James Newell renowned scholars of Italian Politics argue that the early 1990s revolution in Italian party politics should be seen both as a major cause of subsequent changes in the political system and as a consequence of longer term still on going changes in the Italian polity The books explains how we can understand in this light the mixed success of the parties in attempting to act as autonomous vehicles of reform and therefore why if we are witnessing a transformation to a Second Republic many of its key features still remain to be shaped Each of the thematic chapters clearly juxtaposes Italy as it was before the 1990s with Italy today thereby evaluating the degree to which the early 1990s can be seen as a watershed In this way the book offers a novel account of both contemporary political developments and their historical significance in teh context of the Italian political model that took shape in the period after 1945 This will be essential reading for all students of Italian and Comparative Politics who will find the clarity and breadth of the book invaluable Equally scholars will be fascinated by this new and compelling argument

Scott,2011-10-02 Two systems of governance capitalism and democracy prevail in the world today Operating simultaneously in partially distinct domains these systems rely on indirect governance through regulated competition to coordinate actors inevitably these systems influence and transform each other This book rejects the simple equation of capitalism with markets in favor of a three level system a model which recognizes that markets are administered by regulators through institutions and governed by a political authority with the power to regulate behavior punish transgressors and redesign institutions This system s emergence required the sovereign to relinquish some power in order to release the energies of economic actors Rather than spreading through an unguided natural process like trade capitalism

emerged where competitive pressures forced political authorities to take risks in order to achieve increased revenues by permitting markets for land labor and capital      *Organised Crime and the Challenge to Democracy* Felia Allum, Renate Siebert, 2004-06 This innovative book investigates the paradoxical situation whereby organized crime groups authoritarian in nature and anti democratic in practice perform at their best in democratic countries It uses examples from the United States Japan Russia South America France Italy and the European Union      **Ethical Consumption** James G. Carrier, Peter G. Luetchford, 2012-03-01 Increasingly consumers in North America and Europe see their purchasing as a way to express to the commercial world their concerns about trade justice the environment and similar issues This ethical consumption has attracted growing attention in the press and among academics Extending beyond the growing body of scholarly work on the topic in several ways this volume focuses primarily on consumers rather than producers and commodity chains It presents cases from a variety of European countries and is concerned with a wide range of objects and types of ethical consumption not simply the usual tropical foodstuffs trade justice and the system of fair trade Contributors situate ethical consumption within different contexts from common Western assumptions about economy and society to the operation of ethical consumption commerce to the ways that people's ethical consumption can affect and be affected by their social situation By locating consumers and their practices in the social and economic contexts in which they exist and that their ethical consumption affects this volume presents a compelling interrogation of the rhetoric and assumptions of ethical consumption
