Torgerson, 2007-01-22 Torgerson begins by discussing God s transcendence and immanence and showing how church architecture has traditionally interpreted these key concepts He then traces the theological roots of immanence s priority from liberal theology and liturgical innovation to modern architecture Next Torgerson illustrates this new architecture of immanence through particular practitioners focusing especially on the work of theologically savvy architect Edward Anders S vik Finally he addresses the future of church architecture as congregations are buffeted by the twin forces of liturgical change and postmodernism **Manual of Ecclesiastical Architecture.
