Hubrecht, James Kirkwood, 2010-01-19 The seminal reference on the care of laboratory and captive animals The UFAW Handbook on the Care and Management of Laboratory and Other Research Animals is a must have for anyone working in this field The UFAW Handbook has been the definitive text since 1947 Written for an international audience it contains contributions from experts from around the world The book focuses on best practice principles throughout providing comprehensive coverage with all chapters being peer reviewed by anonymous referees As well as addressing the husbandry of laboratory animals the content is also of great value to zoos and aquaria Changes for the eighth edition Revised and updated to reflect developments since publication of the previous edition New chapters on areas of growing concern including the 3Rs phenotyping statistics and experimental design welfare assessment legislation training of people caring for lab animals and euthanasia All material combined into one volume for ease of reference This book is published on behalf of UFAW The Universities Federation for Animal Welfare with whom we also publish the UFAW Wiley Blackwell Animal Welfare Book Series This major series of books provides an authoritative source of information on worldwide developments current thinking and best practice in the field of animal welfare science and technology For details of all of the titles in the series see <http://www.wiley.com/go/uFAW> *Manual of Community Nursing and Communicable Diseases* Marie E. Vlok, 1996-01-28 This edition written as South Africa moves from expensive curative health care to a more people focused primary health care system highlights transitional structures and bridges the gap between past and present Part One focuses on the Government of National Unity and population development programmes emphasising the role of community nurses in the primary health care system Subsequent sections cover factors playing an important role in community nursing including housing urbanisation and malnutrition In accordance with the National Health care Plan for South Africa prominence is given to issues such as health education and maternal and child health care The section on communicable diseases has been updated and takes into account changes in legislation and the latest statistical information Primary health care problems at

community level are covered in depth. Students and practitioners will benefit from the wealth of information in this new edition.

**Laboratory Animal Management** National Research Council, Institute of Laboratory Animal Resources, Institute for Laboratory Animal Research, Commission on Life Sciences, Committee on Dogs, 1994-02-01. This newly revised edition incorporates the regulatory requirements and improved practices for laboratory animal care that have developed over the past two decades. The volume covers Selection of dogs as research models, Design, construction and maintenance of facilities, Temperature, humidity, food, water, bedding, sanitation, animal identification, record keeping and transportation, General veterinary care as well as special care of breeding animals and random source animals. **Laboratory Animal Management Dogs** examines controversies over proper cage sizes and interpretation of federal requirements for exercise and offers recommendations for researchers. Guidelines are provided on how to recognize and alleviate pain and distress in research dogs and on the sensitive topic of euthanasia. **Laboratory Animal Management Dogs** discusses how to assemble a proper research protocol and how to handle conflicts. Outlined are procedures for institutional animal care and use and committee review. The volume also presents guidelines for handling aging dogs, use of radiation in experiments and a wide range of other special circumstances. Thoroughly referenced, this guide will be indispensable to researchers, research administrators, review committees and others concerned about laboratory dogs.

**Manual of Skin Diseases of the Dog and Cat** Sue Paterson, 2009-03-16. **Manual of Skin Diseases of the Dog and Cat** Second Edition provides a valuable asset to the practice library for quick and easy reference on a busy day. Dealing with all common skin diseases in both the dog and the cat, particular attention is paid to the differences between the two species. Each chapter looks at a different type of skin disease with descriptions of clinical presentations and a guide for diagnostic tests for each. This book is a combined update of two of Sue Paterson's books, *Skin Diseases of the Dog* and *Skin Diseases of the Cat*, into one volume for ease of reference. Particular emphasis is placed on those diagnostic techniques available to the veterinarian within a general practice environment. Provides a practical approach to diagnosis and management. Contains almost 500 color photographs of common and rare skin conditions.

**Notes on Feline Internal Medicine** Kit Sturgess, 2013-09-23. **feline internal medicine** Helping you get started with a problem solving approach to a sick cat. **feline internal medicine kit sturgess** *Notes on Feline Internal Medicine* second edition is part of a popular series specifically designed through an accessible note based style to ensure veterinarians and students have quick and easy access to comprehensive and practical clinical and diagnostic information. Distinct differences exist between cats and dogs not only in their physiology and metabolism but also in the way disease tends to present. This book is a short pocket guide to feline internal medicine helping you to formulate a diagnostic plan and therapeutic strategy. The focus is on evidence based medicine where available otherwise current best practice is presented. The book is divided into five sections. Section 1 gives an overview of some key areas of feline medicine including paediatric and geriatric medicine. Section 2 focuses on the approach to common presenting signs. Section 3 covers the differential

diagnosis of commonly used haematologic and biochemical parameters Section 4 presents an organ system based approach Section 5 covers feline infectious diseases **CHANGES FOR THIS EDITION** Stronger focus is placed on initial testing for a disease and what changes might be expected Additional sections have been added on sedation and anaesthesia health screening oncology and emergency and critical care More diagrams have been added to aid understanding Care has been taken to avoid repetition and focus on common conditions
