**Manual of Cardiac Surgery** Bradley J. Harlan, Albert Starr, Fredric M. Harwin, 1980      **Manual of Cardiac Surgery** Bradley J. Harlan, Albert Starr, Fredric M. Harwin, 2011-10-03 Originally published in 1980 1981 as a two volume set the Manual of Cardiac Surgery has been completely revised and now includes new full color illustrations in a single convenient volume This new edition maintains the high standards established in the first edition insightful descriptions of various cardiac surgical procedures illuminated by clear brilliant illustrations      *Psychopathological and Neurological Dysfunctions Following Open-Heart Surgery* R. Becker, J. Katz, M.-J. Polonius, H. Speidel, 2012-12-06 The Surgeon as a Humanist Medicine is the most humane of the sciences and the most scientific of the humanities Cardiac surgery today provides a most natural confluence for the high technology of medicine and the humanistic values traditional in the practice of medicine The cardiac surgeon must of necessity be knowledgeable in physiology and cardio logy and must also possess consummate surgical technical skill The attainment of these skills over long years of training leads many of these surgeons to believe or per ceive this long struggle as an apotheosis of their position in life rather than as an education in bringing the latest scientific advances to the care of patients The problem lies not only with the cardiac surgeon it is also contributed to by the patients perception of heart surgery heart disease and the mystery of the science and physiology involved The patient with heart disease expecting surgery may for the first time be facing the finiteness of his existence The low risk of cardiac surgery to day notwithstanding the coronary surgery patients most likely a type A personality is faced with a perceived threat to his invulnerability his self image his family his independence his control of situations and his very existence      *Catecholamines and the Heart* W. Delius, E. Gerlach, H. Grobecker, W. Kübler, 2012-12-06 An International Symposium Catecholamines and the Heart was held in Munich in May 1981 which was organized in cooperation with the Council on Cardiac Metabolism of the International Society and Federation of Cardiology and with the Microcirculation Working Group of the European Society of Cardiology It was the aim of the organizers to evaluate in this Symposium the recent advances made in the field of sympathetic control of heart function Particular attention was given to neural sympathetic pathways to mechanisms and consequences of adrenoceptor stimulation and blockade as well as to clinically relevant implications mainly regarding the significance of catecholamines and of adrenoceptors in various heart diseases The broad scope was covered in 34 papers presented by physiologists pharmacologists and cardiologists during a two day meeting which was attended by an international audience This book includes all papers as well as the discussions following each presentation To accomplish rapid publication the manuscripts are published as submitted by the authors The discussions were edited making use of the written questions and answers of the discussants The Symposium was generously sponsored by Astra Chemicals GmbH Wedell Holstein Germany which thus made possible a very fruitful exchange of information ideas and concepts between specialists in various disciplines The organizers gratefully acknowledge this support once again and would like to thank Dr T

Kreuzer the representative of Astra Chemicals for his personal engagement
