Manufacturing Confucianism Chinese Traditions Universal Civilization:

Manufacturing Confucianism Lionel M. Jensen,1997 Is it possible that the familiar and beloved figure of Confucius was invented by Jesuit priests Based on specific documentary evidence historian Lionel Jensen reveals how 16th and 17th century Western missionaries used translations of the ancient RU tradition to invent the presumably historical figure who has been globally celebrated as philosopher prophet statesman wise man and saint 13 illustrations

The Oxford Handbook of Confucianism Jennifer Oldstone-Moore,2023 Comprised of thirty eight original essays by experts from a wide range of disciplines the Oxford Handbook of Confucianism covers the Confucian tradition chronologically geographically and topically through textured and innovative examinations of foundational subjects and emerging topics in Confucian studies

Boundaries and Justice Sohail H. Hashmi, David Miller, 2021-05-11 Despite the supreme political and economic significance of boundaries and ongoing challenges to existing national boundaries scant attention has been paid to their ethics This volume explores how diverse ethical traditions understand the political and property rights reflected in territorial and jurisdictional boundaries It is the first book to bring together thinkers from a range of traditions both religious and secular to discuss the ethics of boundaries Each contributor represents a tradition s views on questions surrounding the use of boundaries to delimit property and political rights What does it mean to own something What resources should not be privately owned What justifies the erection of political boundaries between one people and another How hard should such boundaries be What rights extend to minorities within a state Should territorial boundaries coincide with social ones Does national autonomy have an ethical basis or is it an aspect of modern power politics Should we aim for a more inclusive community than that afforded by modern nation states Cross chapter dialogue and a substantive conclusion draw out similarities and differences among the traditions represented traditions that include Christianity classical liberalism Confucianism international law Islam Judaism liberal egalitarianism and natural law In addition to the editors the contributors are Nigel Biggar Joseph Boyle Joseph Chan Russell Hardin Will Kymlicka Loren Lomasky Robert McCorquodale Richard B Miller David Novak Sulayman Nyang Michael Nylan Raul C Pangalangan Daniel Philpott Jeremy Rabkin Hillel Steiner M Raquibuz Zaman and Noam J Zohar The Confucian Philosophy of Harmony Chenyang Li,2013-10-30 Harmony is a concept essential to Confucianism and to the way of life of past and present people in East Asia Integrating methods of textual exegesis historical investigation comparative analysis and philosophical argumentation this book presents a comprehensive treatment of the Confucian philosophy of harmony The book traces the roots of the concept to antiquity examines its subsequent development and explicates its theoretical and practical significance for the contemporary world It argues that contrary to a common view in the West Confucian harmony is not mere agreement but has to be achieved and maintained with creative tension Under the influence of a Weberian reading of Confucianism as adjustment to a world with an underlying fixed cosmic order Confucian harmony has been systematically misinterpreted in the West as presupposing an

invariable grand scheme of things that pre exists in the world to which humanity has to conform The book shows that Confucian harmony is a dynamic generative process which seeks to balance and reconcile differences and conflicts through creativity Illuminating one of the most important concepts in Chinese philosophy and intellectual history this book is of interest to students of Chinese studies history and philosophy in general and eastern philosophy in particular the Confucian Religion of Kang Youwei (1858-1927) Zhaoyuan WAN, 2021-11-15 WAN Zhaoyuan analyses how Chinese intellectuals conceived of the relationship between science and religion through in depth examination of the writings of Kang Youwei a prominent political reformer and radical Confucian thinker often referred to by his disciples as the Martin Luther of Confucianism Confronted with the rise of scientism and challenged by the Conflict Thesis during his life among adversarial Chinese New Culture intellectuals Kang maintains a holistic yet evolving conception of a compatible and complementary relationship between scientific knowledge and true religion exemplified by his Confucian religion kongjiao This close analysis of Kang's ideas contributes to a richer understanding of the history of science and religion in China and in a more global Confucianism Paul R. Goldin, 2014-12-05 Confucianism presents the history and salient tenets of Confucian context thought and discusses its viability from both a social and a philosophical point of view in the modern world Despite most of the major Confucian texts having been translated into English there remains a surprising lack of straightforward textbooks on Confucian philosophy in any Western language Those that do exist are often oriented from the point of view of Western philosophy or worse a peculiar school of thought within Western philosophy and advance correspondingly skewed interpretations of Confucianism This book seeks to rectify this situation It guides readers through the philosophies of the three major classical Confucians Confucius 551 479 BCE Mencius 372 289 BCE and Xunzi fl 3rd cent BCE and concludes with an overview of later Confucian revivals and the standing of Confucianism today Christian Mission Among the China's Thought Management Anne-Marie Brady, 2012-02-06 China s Peoples of Asia Jonathan Y. Tan ,2014-08-21 Thought Management argues that by re emphasizing and modernizing propaganda and thought work since 1989 the CCP has managed to overcome a succession of local and national level crises the Tiananmen Square protests of 1989 the impact of the collapse Socialism in the Eastern bloc SARS ethnic clashes in Tibet and Xinjiang to name but a few emerging re strengthened and as dominant in Chinese society as ever The contributors to this book address such crucial issues as the new emphasis on economic propaganda the continued importance of the PLA propaganda system in China's overall propaganda work and political stability how the CCP uses Confu talk in its foreign and domestic propaganda and new approaches to mass persuasion such as campaigns of mass distraction Each chapter is a case study of the multiple ways in which the CCP has modified and adjusted its propaganda to reflect China's changed economic and political environment Challenging readers to reconceptualise mainstream understandings of the CCP s hold on power and the means the CCP government adopts to maintain its authority to rule this book will be invaluable reading for anyone interested in the Chinese media and Chinese

politics Making the New World Their Own Qiong Zhang, 2015-05-26 In Making the New World Their Own Qiong Zhang offers a systematic study of how Chinese scholars in the late Ming and early Qing came to understand that the earth is shaped as a globe This notion arose from their encounters with Matteo Ricci Giulio Aleni and other Jesuits These encounters formed a fascinating chapter in the early modern global integration of space It unfolded as a series of mutually constitutive and competing scholarly discourses that reverberated in fields from cosmology cartography and world geography to classical studies Zhang demonstrates how scholars such as Xiong Mingyu Fang Yizhi Jie Xuan Gu Yanwu and Hu Wei appropriated Jesuit ideas to rediscover China's place in the world and reconstitute their classical tradition Winner of the Chinese Historians in the United States CHUS 2015 Academic Excellence Award Rooted in Hope: China - Religion -Christianity Vol 1 Barbara Hoster, Dirk Kuhlmann, Zbigniew Wesolowski, 2017-04-07 This Festschrift is dedicated to the former Director and Editor in chief of the Monumenta Serica Institute in Sankt Augustin Germany Roman Malek S V D in recognition of his scholarly commitment to China The two volume work contains 40 articles by his academic colleagues companions in faith confreres as well as by the staff of the Monumenta Serica Institute and the China Zentrum e V China Center The contributions in English German and Chinese pay homage to the jubilarian's diverse research interests covering the fields of Chinese Intellectual History History of Christianity in China Christianity in China Today Other Religions in China Chinese Language and Literature as well as the Encounter of Cultures **Women and Confucian Cultures in Premodern** China, Korea, and Japan Dorothy Ko, JaHyun Kim Haboush, Joan Piggott, 2003-08-28 Representing an unprecedented collaboration among international scholars from Asia Europe and the United States this volume rewrites the history of East Asia by rethinking the contentious relationship between Confucianism and women The authors discuss the absence of women in the Confucian canonical tradition and examine the presence of women in politics family education and art in premodern China Korea and Japan What emerges is a concept of Confucianism that is dynamic instead of monolithic in shaping the cultures of East Asian societies As teachers mothers writers and rulers women were active agents in this process Neither rebels nor victims these women embraced aspects of official norms while resisting others. The essays present a powerful image of what it meant to be female and to live a woman's life in a variety of social settings and historical circumstances Challenging the conventional notion of Confucianism as an oppressive tradition that victimized women this provocative book reveals it as a modern construct that does not reflect the social and cultural histories of East Asia before the nineteenth The Politics of Chinese Medicine Under Mongol Rule Reiko Shinno, 2016-02-22 Under the rule of the descendants century of Chinggis Khan 1167 1227 China saw the development of a new culture in which medical practice came to be considered a highly respected occupation for elite men During this period further major steps were also taken towards the codification of medical knowledge and promotion of physicians social status This book traces the history of the politics institutions and culture of medicine of China under Mongol rule through the eyes of a successful South Chinese official Yuan Jue 1266 1327

As the first comprehensive monograph on history of medicine in China under the Mongols it argues that this period was a separate moment in Chinese history when a configuration of power different from that of previous and succeeding periods created its own medical culture The Politics of Chinese Medicine under Mongol Rule emphasizes the impact of the political and institutional changes caused by the Mongols and their collaborators on the social and cultural history of medicine which culminated in the medical theory of Zhu Zhenheng 1282 1358 still influential in East Asian medicine Using a variety of Chinese language sources including gazetteers legal texts biographies poems and medical texts it analyses the roles of the Mongols and West and Central Asians as cultural brokers and also as unifiers of China Further it views North and South Chinese elites as agents of historical change rather than as victims of Mongol oppression Underlining the complexity of the history of China under the Mongols and the significance of time and geography for the study of this history this book will be of great interest to students and scholars of Chinese medical history Chinese social and cultural history and medieval global Confucianism's Prospects Shaun O'Dwyer, 2019-08-01 In Confucianism's Prospects Shaun O Dwyer offers a rare critical engagement with English language scholarship on Confucianism Against the background of historical and sociological research into the rapid modernization of East Asian societies O Dwyer reviews several key Confucian ethical ideas and proposals for East Asian alternatives to liberal democracy that have emerged from this scholarship He also puts the following question to Confucian scholars what prospects do those ideas and proposals have in East Asian societies in which liberal democracy and pluralism are well established and individualization and declining fertility are impacting deeply upon family life In making his case O Dwyer draws upon the neglected work of Japanese philosophers and intellectuals who were witnesses to Japan's pioneering East Asian modernization and protagonists in the rise and disastrous wartime fall of its own modernized Confucianism He contests a sometimes Sinocentric and ahistorical conception of East Asian societies as Confucian societies while also recognizing that Confucian traditions can contribute importantly to global philosophical The Dysfunction of Ritual in Early Confucianism Michael David Kaulana dialogue and to civic and religious life Ing, 2012-11-01 In The Dysfunction of Ritual in Early Confucianism Michael Ing describes how early Confucians coped with situations where their rituals failed to achieve their intended aims In contrast to most contemporary interpreters of Confucianism Ing demonstrates that early Confucian texts can be read as arguments for ambiguity in ritual failure If as discussed in one text Confucius builds a tomb for his parents unlike the tombs of antiquity and rains fall causing the tomb to collapse it is not immediately clear whether this failure was the result of random misfortune or the result of Confucius straying from the ritual script by building a tomb incongruent with those of antiquity The Liji Record of Ritual one of the most significant yet least studied texts of Confucianism poses many of these situations and suggests that the line between preventable and unpreventable failures of ritual is not always clear Ritual performance in this view is a performance of risk It entails rendering oneself vulnerable to the agency of others and resigning oneself to the need to vary from the successful

rituals of past thereby moving into untested and uncertain territory Ing s book is the first monograph in English about the Liji a text that purports to be the writings of Confucius s immediate disciples and included in the earliest canon of Confucian texts called The Five Classics several centuries before the Analects It challenges some common assumptions of contemporary interpreters of Confucian ethics in particular the idea that a cultivated ritual agent is able to recognize which failures are within his sphere of control to prevent and thereby render his happiness invulnerable to ritual failure Handbook of Chinese Architecture Jianfei Zhu, Chen Wei, Li Hua, 2022-11-30 This handbook representing the collaboration of 40 scholars provides a multi faceted exploration of roughly 6 000 years of Chinese architecture from ancient times to the present This volume combines a broad spectrum approach with a thematic framework for investigating Chinese architecture integrating previously fragmented topics and combining the scholarship of all major periods of Chinese history By organizing its approach into five parts this handbook Traces the practices and traditions of ancient China from imperial authority to folk culture Unveils a rich picture of early modern and republican China revealing that modernization was already beginning to emerge Describes the social intellectual ideological and formal enterprises of socialist architecture Frames a window on a complex and changing contemporary China by focusing on autonomy state practices and geopolitics of design ultimately identifying its still evolving position on the world stage Examines the existing cultural and political theories to highlight potential avenues for future transformations in Chinese architecture that also retain Chinese identity Providing a pioneering combination of ancient and modern Chinese architecture in one coherent study this book is a must read for scholars students and educators of Chinese architecture architectural history and theory and the architecture of Asia of Classical Chinese Literature Wiebke Denecke, Wai-Yee Li, Xiaofei Tian, 2017-03-21 This volume introduces readers to classical Chinese literature from its beginnings ca 10th century BCE to the tenth century CE It asks basic questions such as How did reading and writing practices change over these two millennia How did concepts of literature evolve What were the factors that shaped literary production and textual transmission How do traditional bibliographic categories modern conceptions of genre and literary theories shape our understanding of classical Chinese literature What are the recurrent and evolving concerns of writings within the period under purview What are the dimensions of human experience they address Why is classical Chinese literature important for our understanding of pre modern East Asia How does the transmission of this literature in Japan Korea and Vietnam define cultural boundaries And what in turn can we learn from the Chinese style literatures of Japan Korea and Vietnam about Chinese literature In addressing these questions the Oxford Handbook of Classical Chinese Literature departs from standard literary histories and sourcebooks It does not simply categorize literary works according to periods authors or texts Its goal is to offer a new conceptual framework for thinking about classical Chinese literature by defining a four part structure The first section discusses the basics of literacy and includes topics such as writing systems manuscript culture education and loss and preservation in textual transmission It is

followed by a second section devoted to conceptions of genre textual organization and literary signification throughout Chinese history A third section surveys literary tropes and themes The final section takes us beyond China to the surrounding cultures that adopted Chinese culture and produced Chinese style writing adapted to their own historical circumstances The volume is sustained by a dual foci the recuperation of historical perspectives for the period it surveys and the attempt to draw connections between past and present demonstrating how the viewpoints and information in this volume yield insights into modern China and east Asia The Confucian Political Imagination Eske J. Møllgaard, 2018-05-07 This book critically examines the Confucian political imagination and its influence on the contemporary Chinese dream of a powerful China It views Confucianism as the ideological supplement to a powerful state that is challenging Western hegemony and not as a political philosophy that need not concern us Eske M llgaard shows that Confucians despite their traditionalist ways have the will to transform the existing socio ethical order The volume discusses the central features of the Confucian political imaginary the nature of Confucian discourse Confucian revivals Confucian humanism and civility and the political ideal of the Great Unity It concludes by considering if Confucianism can be universalized as an ideology in competition with liberal Confucius Michael Schuman, 2015-03-03 Confucius is perhaps the most important philosopher in history democracy Today his teachings shape the daily lives of more than 1 6 billion people Throughout East Asia Confucius s influence can be seen in everything from business practices and family relationships to educational standards and government policies Even as western ideas from Christianity to Communism have bombarded the region Confucius s doctrine has endured as the foundation of East Asian culture It is impossible to understand East Asia journalist Michael Schuman demonstrates without first engaging with Confucius and his vast legacy Confucius created a worldview that is in many respects distinct from and in conflict with Western culture As Schuman shows the way that East Asian companies are managed how family members interact with each other and how governments see their role in society all differ from the norm in the West due to Confucius s lasting impact Confucius has been credited with giving East Asia an advantage in today s world by instilling its people with a devotion to learning and propelling the region s economic progress Still the sage has also been highly controversial For the past 100 years East Asians have questioned if the region can become truly modern while Confucius remains so entrenched in society He has been criticized for causing the inequality of women promoting authoritarian regimes and suppressing human rights Despite these debates East Asians today are turning to Confucius to help them solve the ills of modern life more than they have in a century As a wealthy and increasingly powerful Asia rises on the world stage Confucius too will command a more prominent place in global culture Touching on philosophy history and current affairs Confucius tells the vivid dramatic story of the enigmatic philosopher whose ideas remain at the heart of East Asian civilization The Thought of Mou Zongsan N. Serina Chan, 2011-11-11 The first thorough study in English of the multi faceted system of Mou Zongsan this book examines key influences on the New Confucian thinker and introduces his Kantian and Mah y na Fo inflected moral

metaphysical reading of the Lu Wang Learning of the Mind
Foucault and Law Ben Golder, 2017-07-05 Few thinkers can have had a more diverse or a more contested impact on theorizing law than Michel Foucault This diversity is reflected in the wide range of Foucault's work and of the intellectual fields it has so conspicuously influenced Such diversity informs the present collection and is signalled in the headings of its four sections Epistemologies archaeology discourse Orientalism Political philosophy discipline governmentality and the genealogy of law Embodiment difference sexuality and the law The subject of rights and ethics Whilst the published work selected for this collection amply accommodates this diversity it also draws together strands in Foucault's work that coalesce in seemingly conflicting theories of law Yet the editors are also committed to showing how that very conflict goes to constitute for Foucault an integral and radical theory of law This theory ranges not just beyond the restrained and diminished conceptions of law usually derived from Foucault but also beyond the characteristic concern in Jurisprudence and Legal Philosophy to constitute law in its difference and separation from other socio political forms
