Brief description of the book

The 16-chapter book with over 300 illustrations is unique in its attempt to address the three important aspects of manufacturing under one title, namely, design, production processes, and automation. *Design* is discussed from concept development to the engineering analysis of the final product, while referring to the many different facets of fabrication processes (i.e., cross-referencing/discussion). Numerous common fabrication processes (traditional and modern) are subsequently detailed and also discussed in the context of product design (for the specific process at hand) as well as potential automation aspects. In the third part of the book, manufacturing control is discussed at the machine level as well as at the system level (namely, material flow control in flexible manufacturing systems).

Potential Use of the book and the presentations included on this site

The book can be configured to be suitable for two consecutive (1-term) courses: One at an introductory undergraduate level (*Fundamentals of Manufacturing Engineering*, NOT solely on processes) and one at an advanced level (with a special emphasis on *Manufacturing Automation*). In a single-manuscript format the book offers the following benefits: (i) Provides some flexibility to the undergrad instructor to include one or two advanced topics in a manufacturing-fundamentals course; and, (ii) provides grad students with background material on manufacturing fundamentals that they may not have fully studied at their own undergrad school.

Here is an example of organizing the two courses:

Fundamentals of Manufacturing Engineering

- Chapter 2: Conceptual Design
- Chapter 3: Design Methodologies
- Optional - Chapter 4: Computer-Aided Design
- Chapter 6: Metal Casting, Powder Processing and Plastics Molding
- Chapter 7: Metal Forming
- Chapter 8: Machining
- Chapter 10: Assembly
- Optional - Chapter 11: Workholding: Fixtures and Jigs
- Optional - Chapter 12: Materials Handling
- Optional - Chapter 16: Control of Manufacturing Quality
