Conservation of Cultural Heritage Hanna M. Szczepanowska, 2013-02-15 *Conservation of Cultural Heritage* covers the methods and practices needed for future museum professionals who will be working in various capacities with museum collections and artifacts. It also assists current professionals in understanding the complex decision making processes that face conservators on a daily basis. The uniqueness of this book lies in correlating the aspects of material science and the behaviour of artifacts in a museum environment. It will be of special benefit to museum professionals not trained in conservation. Covering a broad range of topics that are key to sound conservation in the museum, *Conservation of Cultural Heritage* is an important tool for students and professionals alike in ensuring that best practice is followed in the preservation of important collections.

Cultural and Heritage Tourism in Asia and the Pacific Bruce Prideaux, Dallen Timothy, Kaye Chon, 2013-09-13 The Asia Pacific region's enormous diversity of living cultures and preserved heritage sites has significant appeal to many tourists. However, tourism has grown so rapidly that many issues associated with the incorporation of cultural and heritage experiences in tourist itineraries, such as authenticity versus commodification, exploitation of national cultures, impacts on local communities and the management of heritage resources, have not been adequately addressed and must be debated. This revealing book reviews recent developments in cultural and heritage tourism in the Asia Pacific region and provides a discussion on how communities have faced and overcome significant challenges to develop and market their culture and heritage resources. A range of models and case studies are used to deepen the reader's understanding of heritage and cultural issues, to illustrate many of the more controversial issues and to examine new evaluative and planning tools. This book is a special issue of the *Asia Pacific Journal of Tourism Research*.
