Genuine Multiculturalism Cecil Foster, 2013-12-01 While many modern societies are noted for their diversity the resulting challenge is to determine how citizens from different backgrounds and cultures can see themselves and each other as equals and be treated equally In Genuine Multiculturalism Cecil Foster shows that a society's failure to bridge these differences is the tragedy of modern living and that pretending it is possible to mechanically develop fraternity and solidarity among diverse groups is akin to seeking out comedy Arguing that genuine multiculturalism is the search for social justice by individuals who have been trapped by ascribed identities or newcomers who have been shut out of perceived ethnic homelands Foster details how this process in essence is the story of the Americas Reconceptionalizing the terms of multiculturalism he offers an intervention into Canada's claim that its definition and practice are based on recognizing equality of citizenship Identifying genuine multiculturalism as an ongoing work in progress rather than a tightly defined policy position Foster challenges readers to imagine a greater and more harmonious ideal A necessary theoretical reconsideration of diversity within society Genuine Multiculturalism refocuses the debate about ideals and practices in modern societies

from now Our science will be up there with our technology and they will work with each other to revolutionize the entire way of life of humanity Lastly there are three questions that humanity has been asking for thousands of years and those are Who are we Where do we come from and Where are we going from here It is up to you to find that answer in the purpose in your life
