Sanctuaries of Spanish New Mexico Marc Treib, 2023-12-22 Among the oldest buildings in the United States the churches of Spanish New Mexico made of earth of stone of wood are the surprisingly fragile reminders of a unique amalgam of Spanish architectural ideas and native American Pueblo culture This book surveys the land and rivers the people and ideas that led to this compelling religious architecture it is also a guide to visiting these churches today In the ninth century the Anasazi progenitors of the Pueblo peoples constructed refined architectural complexes at Mesa Verde and Chaco Canyon

Contact with the Spanish in the late 1500s transformed the world of these indigenous peoples changing their agricultural and living patterns as well as religious practices. These changes were manifest architecturally in the sanctuaries the Spanish constructed as missions for the Indians or as parish churches for themselves. First built roughly between 1600 and 1829 but continuing to be rebuilt into this century they were made of the very materials composing the land itself. In Part I Marc Treib addresses the geographical, anthropological, and architectural aspects of church building in New Mexico and provides background on the church as both an institution and a building type. Part II presents thirty churches in depth and discusses such topics as sitting construction in adobe and stone, the use of light ornamentation, and the issues surrounding restoration. Sanctuaries of Spanish New Mexico is the only book in print to include all the major church sites still extant. Richly illustrated with specially prepared plans of the churches, it will be welcomed by architectural historians and anyone with an interest in the American Southwest. Among the oldest buildings in the United States, the churches of Spanish New Mexico, made of earth, of stone, of wood, are the surprisingly fragile reminders of a unique amalgam of Spanish architectural ideas and native American Pueblo culture. The Civil War in 1861 found Southerners a minority throughout the West. Early efforts to create military forces were quickly suppressed. Many returned to the South to fight, while others remained where they were, forming a potentially disloyal population. Underground movements existed throughout the war in Colorado, California, Nevada, New Mexico, Arizona, and even Idaho. Repeatedly betrayed and overwhelmed by Union forces and without communications with the South, these groups were ineffective. In southern New Mexico, Southerners who were the majority aligned themselves with the Confederacy. Four small companies of irregulars, one Hispanic, fought effectively as part of the abortive Confederate invasion force of 1861.

2. The most famous of these, the Brigands, were close in function to a modern special forces unit. In 1862, the Brigands were sent into Colorado to join up with a secret army of 600-1,000 men massing there but were betrayed. Returning to Texas, the Brigands and the other irregulars were used for special operations in the West throughout the War. They also fought in the Louisiana and Arkansas campaigns of 1863.
