Tung,2012-12-06 This book is prepared primarily for students who are interested in studying the constitutional development and government structure of twentieth century China Since the emergence of the Chinese constitutional movement at the end of the nineteenth century political institutions in China have undergone constant changes The first four chapters treat of constitutional development and government systems from the latter part of the Ch'ing dynasty to the reunification of China by the Nationalist Party in 1928 The other eight chapters deal with the policies programs and institutions of the Nationalist and Communist governments up to 1962 While treatises on various subjects have been consulted the sources of this book are chiefly based on the official documents from the collections as indicated in the bibliography Materials in the first few chapters are partly drawn from my previous works on government and politics in China Because of the immense scope of the subject and the intricacy of the problems involved this work is not intended to be exhaustive but is rather a brief description and discussion of each topic under consideration As there are many valuable works on China in general as well as on her history and international relations I have tried not to cover what has already been dealt with by others In my presentation of facts and views I have endeavored to be as objective as possible personal political convictions notwithstanding Mao Zedong Maurice Meisner,2006-12-22 Revolutionary and ruler Marxist and nationalist liberator and despot Mao Zedong takes a place among the iconic leaders of the twentieth century In this book Maurice Meisner offers a balanced portrait of the man who defined modern China From his role as leader of a communist revolution in a war torn and largely rural country to the disasters of the Great Leap Forward and the Cultural Revolution the relationship between Mao's ideas and his political action is highly disputed With unparalleled authority Meisner shows how Mao's unique sinification of Marxism provides the key to looking at this extraordinary political career The first part of the book is devoted to Mao's revolutionary leadership before 1949 in particular the influence of the liberal and anarchist ideas of the May Fourth era his discovery of Marxism Leninism and his conviction that peasants held the potential for revolution In the second part Meisner
