Nepal, Coping with Maoist Insurgency Chuda Bahadur Shreshtha, 2004 Insurgency in Nepal Thomas A.

Marks, 2003-12-31 A decade has passed since the end of the Cold War and insurgency remains a major factor on the world scene Whether driven by separatism religious alienation or ideological desire to restructure the state insurgents are as active now as in the earlier Cold War era of state support Indeed forced to rely more upon their own devices insurgencies have posed increasingly complex problems for the globe s numerous weak states which find themselves challenged by a growing array of development and population issues This reality has driven continuous and extensive U S military involvement thus a renewed need to focus upon the realities of internal war Upheavals in once obscure spots such as Nepal have come routinely to demand our attention The study of such cases will prepare military practitioners for effective engagement in strategies operational art and tactics Insurgency in Nepal has existed for perhaps 5 decades but burst into the open only with the declaration of people s war on February 13 1996 by the Communist Party Maoist or CPN M the most radical offshoot of the leftwing spectrum in Nepali politics Desultory action ended when the Maoists as they are universally termed unilaterally abrogated talks with the government and launched a nationwide general offensive in November 2001 Since that time a steadily increasing level of violence has left as many as 8 000 Nepalis dead a majority of them in little more than a year Terror has been integral to the Maoist campaign US involvement has played an important role in assisting this minor but strategically located democratic state to meet the challenges posed by ruthless radical actors A Kingdom Under Siege

Deepak Thapa, Bandita Sijapati, 2003 Political instability in Nepal caused by the movement and insurgency led by Nep la Kamyunish a P r i M ov di since 1996 **The Maoist Insurgency in Nepal and the Political Economy of Violence** Avidit Raj Acharya, 2010 This paper studies the incidence of political violence associated with the Maoist insurgency in Nepal I take a cross sectional approach where the unit of analysis is the district and dependent variable is total killings by state and Maoists normalized by district population I find no evidence that political and economic grievances are linked to the incidence of political violence There is also very little evidence that district prosperity or political ideology are associated

with the incidence of violence On the other hand I find that the intensity of violence was greatest in the Midwestern districts and in districts with low road density Historical evidence suggests that the dummy variable for Midwestern districts that appears robust and significant reflects the political entrepreneurship of leftist leaders more than half a century ago The results support a theory of conflict that treats an insurgency as analogous to a profit maximizing firm *Himalayan 'People's War'* Michael J. Hutt,2021 Nepal s People s War was launched in 1996 by the Communist Party of Nepal Maoist to overthrow the political establishment including the monarchy and establish a Maoist regime In 1999 the Maoists announced the Fourth Stage of their war The army was deployed against the Maoists for the first time in late 2001 By the time the first edition of this book was completed the war had begun to encroach on the capital Kathmandu and in 2003 moves towards peace talks between the government and the Maoists had taken place Page 4 of cover **Unconventional Warfare in South Asia**
