A Map History of Our Own Times Brian Catchpole,1987 *The Palgrave Handbook of Religion, Peacebuilding, and Development in Africa* Susan M. Kilonzo,Ezra Chitando,Joram Tarusarira,2023-10-17 This Handbook explores the ways in which religion among the African people has been applied in situations of conflict and violence to contribute to sustainable peace and development It analyzes how peacebuilding inspired and enabled by religion serves as the foundation for sustainable development in Africa while also acknowledging that religion can also be a tool of destruction and can be used to fuel violence and underdevelopment Contributors to this volume offer theoretical discussions from existing literature as well as experiences of practitioners to deepen the readers understanding on the role of religion and religious institutions in peacebuilding and development in Africa The Handbook provides reflections on possible future developments as well thereby aligning with the goals of SDG 16 **Teaching History** ,1984 Historically Black Mieka Brand Polanco,2014-07-04

Questions the way we understand the idea of community through an investigation of the term historically black In *Historically Black* Mieka Brand Polanco examines the concept of community in the United States how communities are experienced and understood the complex relationship between human beings and their social and physical landscapes and how the term community is sometimes conjured to feign a cohesiveness that may not actually exist Drawing on ethnographic and historical materials from Union Virginia *Historically Black* offers a nuanced and sensitive portrait of a federally recognized Historic District under the category Ethnic Heritage Black Since Union has been home to a racially mixed population since at least the late 19th century calling it historically black poses some curious existential questions to the black residents who currently live there Union s identity as a historically black community encourages a perception of the town as a monochromatic and monohistoric landscape effectively erasing both old timer white residents and newcomer black residents while allowing newer white residents to take on a proud role as preservers of history Gestures to community gloss an oversimplified perspective of race history and space that conceals much of the richness and contention of lived reality in Union as well as in the larger United States They allow Americans to avoid important conversations about the complex and unfolding nature by which groups of people and social physical landscapes are conceptualized as a single unified whole This multi layered multi textured ethnography explores a key concept inviting public conversation about the dynamic ways in which race space and history inform our experiences and understanding of community **Infinite City** Rebecca

The Global Age Ian Kershaw,2019-04-30 The final chapter in the Penguin History of Europe series from the acclaimed scholar and author of To Hell and Back After the overwhelming horrors of the first half of the twentieth century described by Ian Kershaw in his previous book as being to Hell and back the years from 1950 to 2017 brought peace and relative prosperity to most of Europe Enormous economic improvements transformed the continent The catastrophic era of the world wars receded into an ever more distant past though its long shadow continued to shape mentalities Yet Europe was now a divided continent living under the nuclear threat in a period intermittently fraught with anxiety There were by most definitions striking successes the Soviet bloc melted away dictatorships vanished and Germany was successfully reunited But accelerating globalization brought new fragilities The interlocking crises after 2008 were the clearest warnings to Europeans that there was no guarantee of peace and stability and even today the continent threatens further fracturing In this remarkable book Ian Kershaw has created a grand panorama of the world we live in and where it came from Drawing on examples from all across Europe The Global Age is an endlessly fascinating portrait of the recent past and present and a cautious look into our future
