Cartography Matthew H. Edney, 2019-04-12 In his most ambitious work to date Edney questions the very concept of cartography to argue that this flawed ideal has hobbled the study of maps Susan Schulten author of *A History of America in 100 Maps* Over the past four decades the volumes published in the landmark *History of Cartography* series have both chronicled and encouraged scholarship about maps and mapping practices across time and space As the current director of the project that has produced these volumes Matthew H Edney has a unique vantage point for understanding what cartography has come to mean and include In this book Edney disavows the term cartography rejecting the notion that maps represent an undifferentiated category of objects for study Rather than treating maps as a single unified group he argues scholars need to take a processual approach that examines specific types of maps sea charts versus thematic maps for example in the context of the unique circumstances of their production circulation and consumption To illuminate this bold argument Edney chronicles precisely how the ideal of cartography that has developed in the West since 1800 has gone astray By exposing the flaws in this ideal his book challenges everyone who studies maps and mapping practices to reexamine their approach to the topic The study of cartography will never be the same An intellectually bracing and marvellously provocative account of how the mythical ideal of cartography developed over time and in the process distorted our understanding of maps *Times Higher Education* *Cartography The Ideal and Its History* offers both a sharp critique of current practice and a call to reorient the field of map studies A landmark contribution Karen Wigen coeditor of *Time in Maps* *Report of the Librarian of Congress for the Fiscal Year Ending June 30 ...* Library of Congress, 1926 **Bulletin - SLA Geography and Map Division** Special Libraries Association. Geography and Map Division, 1991 *Proceedings of the ... Annual Federal Depository Library Conference*, 1999
