*Mapping the Catholic Cultural Landscape* Paula Jean Miller, Richard Fossey, 2004 Mapping the Catholic Cultural Landscape explores the intersection of Catholicism with cultural expressions of literature and art holiness and personal devotion faith and secular society With essays selected from the world s first International Conference of Catholic Studies this volume is a primary resource for Catholic Studies directors in curriculum development and for students in the classroom This text emerges as an objective way of studying the relationship between religion history and culture Faithful Passages James Emmett Ryan, 2013-03-15 Roman Catholic writers in colonial America played only a minority role in debates about religion politics morality national identity and literary culture However the commercial print revolution of the nineteenth century combined with the arrival of many European Catholic immigrants provided a vibrant evangelical nexus in which Roman Catholic print discourse would thrive among a tightly knit circle of American writers and readers James Emmett Ryan s pathbreaking study follows the careers of important nineteenth century religionists including Orestes Brownson Isaac Hecker Anna Hanson Dorsey and Cardinal James Gibbons tracing the distinctive literature that they created during the years that non Catholic writers like Herman Melville and Emily Dickinson were producing iconic works of American literature Faithful Passages also reveals new dimensions in American religious literary culture by moving beyond the antebellum period to consider how the first important cohort of Catholic writers shaped their message for subsequent generations of readers in the late nineteenth and early twentieth centuries Perhaps most strikingly Ryan shows that by the early twentieth century Roman Catholic themes and traditions in American literature would be advanced in complex ways by mainstream non Catholic modernist writers like Kate Chopin and Willa Cather Catholic literary culture in the United States took shape in a myriad of ways and at the hands of diverse participants The process by which Roman Catholic ideas themes and moralities were shared and adapted by writers with highly differentiated beliefs Ryan contends illuminates a surprising fluidity of religious commitment and expression in early U S literary culture **A Guide to Cultural Landscape Reports** Robert R. **Coping with Defeat** Jonathan Laurence, 2021-06-22 How do centralized institutional religions make peace with the modern state's displacement of their traditional prestige and power What are the factors that can promote the mutual acceptance of religious communities and the secular rule of law These are the questions posed in Jonathan Laurence's new book which argues that Roman Catholicism and Sunni Islam have trod surprisingly similar paths in their respective histories Contemporary Roman Catholicism and Sunni Islam both descend from religious states and empires the Papacy in the case of Catholicism and the Caliphate in the case of Islam As religious political orders the Western Church and the Islamic Caliphate ruled vast territories and populations Each set of religious political institutions made law controlled land and governed people for roughly four centuries Yet both suffered three similar upheavals and challenges the end of empires the rise of the modern national state and significant outward migrations from the home base of the religious tradition Laurence suggests that the historical experience of Catholicism offers a useful model for those concerned about the contemporary Sunni Muslim leadership's attitude toward the modern state Just as Catholicism worldwide benefited from the survival of the Vatican micro state and its ability to exert guidance over the religious belief and practice of Catholics worldwide so argues Laurence Muslim majority states should continue exert control over mosques imam training and religious education to reconcile Islam with the rule of law and thus with the authority of the secular state This book is based on prodigious archival research in Vatican and Ottoman Archives and on interviews conducted with senior officials responsible for Islamic affairs or public religious education in Algiers Ankara Casablanca Istanbul Oran Rabat Tunis and with senior interior ministry and foreign ministry officials in various European capitals responsible for relations with North African Turkish Qatari and Saudi ministries of Islamic and religious affairs

**Mapping Wonderlands** Dori Griffin, 2013-05-02 Though tourism now plays a recognized role in historical research and regional studies the study of popular touristic images remains sidelined by chronological histories and objective statistics Further Arizona remains underexplored as an early twentieth century tourism destination when compared with nearby California and New Mexico With the notable exception of the Grand Canyon little has been written about tourism in the early days of Arizona's statehood Mapping Wonderlands fills part of this gap in existing regional studies by looking at early popular pictorial maps of Arizona These cartographic

representations of the state utilize formal mapmaking conventions to create a place based state history They introduce illustrations unique naming conventions and written narratives to create carefully visualized landscapes that emphasize the touristic aspects of Arizona Analyzing the visual culture of tourism in illuminating detail this book documents how Arizona came to be identified as an appealing tourism destination Providing a historically situated analysis Dori Griffin draws on samples from a comprehensive collection of materials generated to promote tourism during Arizona s first half century of statehood She investigates the relationship between natural and constructed landscapes visual culture and narratives of place Featuring sixty six examples of these aesthetically appealing maps the book details how such maps offered tourists and other users a cohesive and storied image of the state Using historical documentation and rhetorical analysis this book combines visual design and historical narrative to reveal how early twentieth century mapmakers and map users collaborated to imagine Arizona as a tourist s paradise
