equalities for which many people advocate and provision of other extrinsic conditions are insufficient for wellbeing This work asks what is sufficient What is it that people do and can do to change their experience from suffering to wellbeing when handling challenges of migration and other mobilities What helps people when they are migrating What have migrants experienced and learned that could be useful to others facing challenges of mobility and change How can this learning be applied to promote greater social wellbeing and care of environments in an increasingly mobile world Mobilities of Self and Place documents rich conversations with regular migrants and refugees to critically consider migration history human rights place self and mobilities studies The work explores ontological and epistemological questions of sense of self sense of place identity and agency Mahni Dugan helps us understand how the relationship between sense of place and sense of self affects the ability of migrants to relocate with wellbeing The movement from global to local social to personal intellectual to experiential offers a broad societal understanding of the phenomena and challenges of contemporary mobilities

Handbook of Cultural Politics and Education ,2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The Handbook of Cultural Politics and Education is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education s place within society The contributions in the collection support this endeavor

White before whiteness in the late Middle Ages Wan-Chuan Kao,2024-01-09 This groundbreaking book analyses premodern whiteness as operations of fragility precarity and racialicity across bodily and nonsomatic figurations It argues that while whiteness participates in the history of racialisation in the late medieval West it does not denote skin tone alone The before of whiteness presupposing essence and teleology is less a retro futuristic temporisation one that simultaneously looks backward and faces forward than a discursive figuration of how white becomes whiteness Fragility delineates the limits of ruling ideologies in performances of mourning as self defence against perceived threats to subjectivity and desire precarity registers the ruptures within normative values by foregrounding the unmarked vulnerability of the body politic and the violence of cultural aestheticisation and racialicity attends to the politics of recognition and the technologies of enfleshment at the systemic edge of life and nonlife
