Unconventions Michael Martone, 2010-02-25 Unconventions is a quirky and provocative miscellany that reveals Michael Martone s protean interests as a writer and a writing teacher Martone has shall we say a problem with authority His chief pleasure in knowing the rules of his vocation comes from trying out new ways to bend blend or otherwise defy them The pieces gathered in Unconventions are drawn from a long career spent loosening the creative strictures on writing Including articles public addresses essays interviews and even a eulogy these writings vary greatly in form but are unified in addressing the many technical and artistic issues that face all writers particularly those interested in experimental and nontraditional modes and forms Martone s approach has always been to synthesize to understand and use any technique formula or style available I find myself then he writes self identifying as a

formalist both and neither an experimenter and or a traditionalist In I Love a Parade An Afterword Martone writes about not fitting in and loving it as he recalls the time he marched alone in a local Labor Day parade as a one person delegation from the National Writers Union Elsewhere in writings formally stylistically purposely at odds with themselves Martone s expansive curiosity is on full display We learn about camouflage techniques how a baby acquires language how to read a WPA era post office mural and why Martone sold his stock in the New Yorker and reinvested his money in the company that makes Etch A Sketch Unconventions then is Martone s Frankensteinian monster a kind of unruly hybrid spawn of the mainstream writing enterprise Writing seems to me an intrinsic pleasure an end in itself first says Martone The question for me is not whether my writing or any piece of writing is good or bad but what the writing is and what it is doing and how finally it is used or can be used by others **Army** ,1959 Military Classics Robert Harry Berlin,1988 Many of the books listed in this work are military classics that is books of recognized value that set a standard of historical or literary excellence Others evaluate or expand on the military classics Focused mainly on the history of land warfare this bibliography begins with a general section The books listed cover more than one chronological period or topical area or are broad surveys of military history or concentrate on a unique subject The next sections are arranged chronologically beginning with Ancient History and concluding with The Nuclear Age Covered here are significant historical eras military writers and conflicts The Modern Warfare section encompasses lowintensity conflict The remaining sections in the bibliography are topical and include The Moral Effect of Combat men in battle Russian and Soviet Military History East Asian Military History Sea Power Air Power and The Press The novels cited in this work provide an approach to the human elements of war are often enjoyable to read and are thought provoking The books listed in this bibliography should be read for professional development historical perspective information and pleasure They offer officers and students of military history an opportunity to understand better the nature of war
