*Texas Outlook* ,1925 *Alabama School Journal* ,1928 Visible Learning John Hattie,2008-11-19 This unique and ground  
breaking book is the result of 15 years research and synthesises over 800 meta analyses on the influences on achievement in  
school aged students It builds a story about the power of teachers feedback and a model of learning and understanding The  
research involves many millions of students and represents the largest ever evidence based research into what actually  
works in schools to improve learning Areas covered include the influence of the student home school curricula teacher and  
teaching strategies A model of teaching and learning is developed based on the notion of visible teaching and visible learning  
A major message is that what works best for students is similar to what works best for teachers an attention to setting  
challenging learning intentions being clear about what success means and an attention to learning strategies for developing  
conceptual understanding about what teachers and students know and understand Although the current evidence based fad  
has turned into a debate about test scores this book is about using evidence to build and defend a model of teaching and  
learning A major contribution is a fascinating benchmark dashboard for comparing many innovations in teaching and schools
