The Matter of Difference Valerie Wayne,1991 This lively volume investigates Shakespeare s plays in terms of the relations between material conditions of Renaissance culture and differences of gender class race and erotic practice

Materialist Feminism and the Politics of Discourse (RLE Feminist Theory) Rosemary Hennessy,2012-11-27 Materialist Feminism and the Politics of Discourse confronts the impasses in materialist feminist work on rethinking woman as a discursively constructed subject The book looks at the problem of examining critically the social dimensions on which theories of discourse are premised how such theories understand materiality the relation between women s experience and feminist politics and that between history and discourse Rosemary Hennessy considers the work of Kristeva Foucault Laclau and Mouffe and argues for a materialist feminist re articulation of discourse as ideology Concerns over identity and difference are incorporated into a rewriting of materialist feminism s analysis of women s oppression across capitalist and patriarchal structures In adapting postmodernist theories in this way Hennessy develops a project of social change where feminism while maintaining its specificity is necessarily aligned with other emancipatory movements **Performing Widowhood on the Early Modern English Stage** Asuka Kimura,2023-01-30 The deaths of husbands radically changed women s lives in the early modern period While losing male protection widows acquired rare opportunities for social and economic independence Placed between death and life female submissiveness and male audacity chastity and sexual awareness or tragedy and comedy widows were highly problematic in early modern patriarchal society They were also popular figures in the theatre arousing both male desire and anxiety Now how did Shakespeare and his contemporaries represent them on the stage What kind of costume props and gestures were employed What influence did actors spectators and play space have This book offers a fresh and incisive examination of the theatrical representation of widows by discussing the material conditions of the early modern stage It is also the only comprehensive study of this topic covering all three phases of Elizabethan Jacobean and Caroline drama **Material Feminisms** Stacy Alaimo,Susan Hekman,2008-01-02 Harnessing the energy of provocative theories generated by recent understandings of the human body the natural world and the material world Material Feminisms presents an entirely new way for feminists to conceive of the question of materiality In lively and timely essays an international group of feminist thinkers challenges the assumptions and norms that have previously defined studies about the body These wide ranging essays grapple with topics such as the material reality of race the significance of sexual difference the impact of disability experience and the complex interaction between nature and culture in traumatic events such as Hurricane Katrina By insisting on the importance of materiality this volume breaks new ground in philosophy feminist theory cultural studies science studies and other fields where the body and nature collide **Rethinking Feminism in Early Modern Studies** Ania Loomba,Melissa E Sanchez,2016-07-12 Winner of the Society for the Study of Early Modern Women s Collaborative Book Prize 2017 Rethinking Feminism in Early Modern Studies is a volume of essays by

leading scholars in the field of early modern studies on the history present state and future possibilities of feminist criticism and theory It responds to current anxieties that feminist criticism is in a state of decline by attending to debates and differences that have emerged in light of ongoing scholarly discussions of race affect sexuality and transnationalism work that compels us continually to reassess our definitions of women and gender Rethinking Feminism demonstrates how studies of early modern literature history and culture can contribute to a reimagination of feminist aims methods and objects of study at this historical juncture While the scholars contributing to Rethinking Feminism have very different interests and methods they are united in their conviction that early modern studies must be in dialogue with and indeed contribute to larger theoretical and political debates about gender race and sexuality and to the relationship between these areas To this end the essays not only analyze literary texts and cultural practices to shed light on early modern ideology and politics but also address metacritical questions of methodology and theory Taken together they show how a consciousness of the complexity of the past allows us to rethink the genealogies and historical stakes of current scholarly norms and debates

The Feminine Subject Susan J. Hekman, 2014-11-11 In 1949 Simone de Beauvoir asked What does it mean to be a woman Her answer to that question inaugurated a radical transformation of the meaning of woman that defined the direction of subsequent feminist theory What Beauvoir discovered is that it is impossible to define woman as an equal human being in our philosophical and political tradition Her effort to redefine woman outside these parameters set feminist theory on a path of radical transformation The feminist theorists who wrote in the wake of Beauvoir's work followed that path Susan Hekman's original and highly engaging new book traces the evolution of woman from Beauvoir to the present In a comprehensive synthesis of a number of feminist theorists she covers French feminist thinkers Luce Irigaray and Helene Cixous as well as theorists such as Carol Gilligan Carole Pateman and Judith Butler The book examines the relational self feminist liberalism and Marxism as well as feminist theories of race and ethnicity radical feminism postmodern feminism and material feminism Hekman argues that the effort to redefine woman in the course of feminist theory is a cumulative process in which each approach builds on that which has gone before Although they have approached woman from different perspectives feminist theorists has moved beyond the negative definition of our tradition to a new concept that continues to evolve The Feminine Subject is a remarkably succinct yet wide ranging analysis which will appeal to all feminist scholars and students as well as anyone interested in the changing nature of feminism since the 1950s

Material Feminisms: New Directions for Education Carol Taylor, Gabrielle Ivinson, 2018-02-02 Material Feminisms New Directions for Education provides a range of powerful theoretical and innovative methodological examples to illuminate how new material feminism can be put to work in education to open up new avenues of research design and practice It poses challenging questions about the nature of knowledge production the role of the researcher and the critical endeavour arising from inter and post disciplinarity Working with diffractive methodologies and new materialist ecological epistemologies the book offers resources for hope which widen the

scope for how educational problems are interrogated and provides a political counter movement to neo positivist outcomes based approaches within education Inspired by writers such as Barad Bennett and Deleuze and Guattari the book makes a radical break with cognitive dualist and universal conceptions of human subjectivity and intelligence in education By taking its starting point as the co constitutiveness of discourse materiality corporeality and place the book foregrounds educational practices as material enactments of multiple non linear entangled affective and relational forces It offers new insights into how gender class and ethnicity are constituted in and by material assemblages that are often submerged or unseen This book is an essential starting place for those intrigued by what new theoretical accounts of materiality posthumanism and affect can offer educational research Diffractive methodologies challenge readers to take a fuller range of actors into account than in objective humanist methodologies and in so doing to pay closer attention to what data is It invites researchers to engage with long standing feminist concerns about power and knowledge production in research processes This book was originally published as a special issue of Gender and Education

Italian Studies in Shakespeare and His Contemporaries

Michele Marrapodi, Giorgio Melchiori, 1999 The papers collected in this volume set out to present some significant Italian contributions to Shakespeare studies that scattered through a number of publications not available outside Italy might have escaped the attention they deserve They are representative though by no means exhaustively of approaches to Shakespeare and his contemporaries in Italy and may convey a sense of the vitality and extreme variety of critical and scholarly attitudes in this field

The Oxford Handbook of Shakespeare and Early Modern Authorship, 2025-09-09 The Oxford Handbook of Shakespeare and Early Modern Authorship draws together leading and emerging scholars of Shakespeare and early modern literature to consider anew how authorship worked in the time in which Shakespeare wrote and to interrogate the construction of the Shakespeare as author figure Composed of four main sections it offers fresh analysis of the literary and cultural influences and forces that formed authors in the period the mechanics of early modern authorship the mediation of Shakespeare and others works in performance manuscript and print and the critical and popular reimagining across times of Shakespeare as an author figure Diving into modern debates about early modern authorship authority and identity politics contributors supply rich new accounts of the wider scene of professional authorship in early modern England of how Shakespeare's writings contributed to it and of what made him distinctive within it Looking beyond Shakespeare the Handbook seeks to provide a vital testing ground for new research into early modern literature and culture more broadly

Simone de Beauvoir and Luce Irigaray famously insisted on their philosophical differences and this mutual insistence has largely guided the reception of their thought What does it mean to return to Simone de Beauvoir and Luce Irigaray in light of questions and problems of contemporary feminism including intersectional and queer criticisms of their projects How should we now take up amplify and surpass the horizons opened by their projects Seeking answers to these questions the essays in this volume return to Beauvoir and Irigaray to find what the two philosophers share And as the authors make clear the richness of Beauvoir and Irigaray s thought far exceeds the reductive parameters of the Eurocentric bourgeois second wave debates that have constrained interpretation of their work The first section of this volume places Beauvoir and Irigaray in critical dialogue exploring the place of the material and the corporeal in Beauvoir s thought and in doing so reading Beauvoir in a framework that goes beyond a theory of gender and the humanism of phenomenology The essays in the second section of the volume take up the challenge of articulating points of dialogue between the two focal philosophers in logic ethics and politics Combined these essays resituate Beauvoir and Irigaray s work both historically and in light of contemporary demands breaking new ground in feminist philosophy *Shakespeare's Tragedies and Modern Critical Theory* James Cunningham,1997 Individual chapters deal with cultural materialism new historicism poststructuralism and feminist criticism The theoretical basis of each critical mode is examined and some representative critiques analyzed Most importantly in each chapter the various interpretations are tested against Shakespeare s texts and the strengths and weaknesses of the different readings are assessed **Feminist Studies** Hemangini Gupta,Kelly Sharron,Carly Thomsen,Abraham Weil,2025-06-02

Material Practice and Materiality: Too Long Ignored in Science Education Catherine Milne, Kathryn

Scantlebury, 2019-04-11 In this book various scholars explore the material in science and science education and its role in scientific practice such as those practices that are key to the curriculum focuses of science education programs in a number of countries As a construct culture can be understood as material and social practice This definition is useful for informing researchers nuanced explorations of the nature of science and inclusive decisions about the practice of science education Sewell 1999 As fields of material social practice and worlds of meaning cultures are contradictory contested and weakly bounded The notion of culture as material social practices leads researchers to accept that material practice is as important as conceptual development social practice However in education and science education there is a tendency to ignore material practice and to focus on social practice with language as the arbiter of such social practice Often material practice such as those associated with scientific instruments and other apparatus is ignored with instruments understood as inscription devices conduits for language rather than sources of material culture in which scientists share material other than words Baird 2004 p 7 when they communicate new knowledge and realities While we do not ignore the role of language in science we agree with Barad 2003 that perhaps language has too much power and with that power there seems a concomitant loss of interest in exploring how matter and machines instruments contribute to both ontology and epistemology in science and science education

Identity, Otherness and Empire in Shakespeare's Rome Maria Del Sapio Garbero, 2016-12-14 Contributors to this collection delve into the relationship between Rome and Shakespeare They view the presence of Rome in Shakespeare's plays not simply as an unquestioned model of imperial culture or a routine chapter in the history of literary influence but rather as the problematic link with a distant and foreign ancestry which is both revered and ravaged in its translation into the terms of the Bard's own cultural moment During a time when England was engaged in constructing a rhetoric of imperial nationhood the contributors demonstrate that Englishmen used Roman history and the classical heritage to mediate a complex range of issues from notions of cultural identity and gender to the representation of systems of exchange with Otherness in the expanding ethnic space of the nation This volume addresses matters of concern not only for Shakespeare scholars but also for students interested in issues connected with gender postcolonialism and globalization Drawing implicitly or explicitly on recent criticism intertextual studies postcolonial theory Derrida's conceptualization of hospitality gender studies global studies the essayists explore how the Roman Shakespeare of an

emerging early modern empire asks questions of our present as well as of our past

Howard, 2014-03-27 This volume looks at Marx and Freud who though not Shakespeareans in the usual academic or theatrical sense were both deeply informed by Shakespeare's writings and have both had enormous influence on the understanding and reception of Shakespeare The first section of this volume consists of a discussion of Marx's use of Shakespeare by Crystal Bartolovich followed by an essay on Shakespeareans' recent uses of Marx by Jean E. Howard The volume's second half written by David Hillman juxtaposes a discussion of Freud's use of Shakespeare with a meditation on Shakespeare's use of Freud Each part can be read fruitfully independently of the others but the sum is greater than the parts offering an engagement with two of the most influential thinkers in Western modernity and their interchanges with arguably the most influential figure of early modernity Shakespeare **Materialist Feminism** Rosemary Hennessy, Chrys Ingraham, 1997 During the 1980s capitalism triumphantly secured its global reach anti-communist ideologies hammered home socialism's inherent failure the New Left increasingly moved into the professional middle class and many of feminism's earlier priorities were marginalized Identity politics often formulated in terms of social reconstructionism or multiculturalism has increasingly suppressed materialist feminism's systematic perspective replacing it with discourse analysis or cultural politics Materialist Feminism A Reader argues against the retreat to multiculturalism for keeping invisible the material links among the explosion of meaning-making practices in highly industrialized social sectors the exploitation of women's labor and the appropriation of women's bodies that continues to undergird the scramble for profits and state power in multinational capitalism
