Matters Of Faith And Matters Of Principle Religious Truth Claims And Their Logic:

Matters of Faith and Matters of Principle John H. Whittaker, 1981 Religious Truth Robert Cummings Neville, 2001-01-01 Explores religious truth in a range of world religions and discusses the issue and philosophical implications of comparison itself *Philosophy and the Grammar of Religious Belief* Mario von der Ruhr, Timothy Tessin, 2016-07-27 The papers in this collection are concerned with the epistemology of religious belief The contributors disagree on such issues as whether philosophers have a role to play in determining the reasonableness or intelligibility of religious beliefs or whether philosophy properly understood is a descriptive task But all the papers are informed by the belief that philosophical discussion should proceed by giving attention to the character of the religious beliefs and practices under consideration **Kant and Kierkegaard on Religion** D. Phillips, 2016-04-30 The contributions of leading Kantian and Kierkegaardian scholars to this collection break down to the simplistic contrast in which Kant is seen as the advocate of a rational moral theology and Kierkegaard as the advocate of an irrationalist faith This collection is an ideal text for discussion of central issues **Is God Real?** Joseph Runzo, 1993-04-27 **Always Reforming** A. T. B. McGowan, 2007-03-02 The church has to subject its beliefs and practices to the renewed scrutiny of Holy Scripture and restate the truth of Scripture in ways that faithfully communicate the gospel advance the mission of the church and empower the people of God These essays edited by A T B McGowan explore the whole terrain of systematic theology in order to refresh the church **Sense and Reality** John Edelman, 2013-05-02 This book is a collection of essays each of which discusses the work of one of eight individuals Rush Rhees Peter Winch R F Holland J R Jones H O Mounce D Z Phillips Ilham Dilman and R W Beardsmore who taught philosophy at the University of Wales Swansea for some time from the 1950s through to the 1990s and so contributed to what in some circles came to be known as the Swansea School These eight essays are in turn followed by a ninth that drawing on the previous eight offers something of a critical overview of philosophy at Swansea during that same period The essays are not primarily historical in character Instead they aim at both the critical assessment and the continuation of the sort of philosophical work that during those years came to be especially associated with philosophy at Swansea work that is deeply indebted to the philosophy of Ludwig Wittgenstein but also distinctively sensitive to the relevance of literary works to philosophical reflection The Concept of Faith William Lad Sessions, 1994 Faith lies at the heart of human life and not just in religious contexts But just what is faith In this book William Lad Sessions ventures a new approach to this age old problem Viewing it in global terms he provides an effective and insightful set of analytical tools for deepening our understanding of the ideas of belief **Ethics of Belief: Essays in Tribute to D.Z. Phillips** Eugene Thomas Long, Patrick Horn, 2008-02-28 Eugene Thomas Long Originally published in the International Journal for Philosophy of Religion Volume 63 Nos 1 3 DOI 10 1007 s11153 007 9155 4 Springer Science Business Media B V 2007 This volume is presented as a tribute to the life and work of D Z Phillips Six of the articles were originally presented at the annual conference on the philosophy of religion

organized by Phillips and held at Claremont Graduate University February 9 10 2007 Unfortunately Phillips did not live to participate in the conference itself He died unexpectedly July 25 2006 in the library of his beloved University of Wales Swansea Previously published volumes of essays based on conferences organized by Phillips in Claremont included a chapter entitled *Voices in Discussion* in which Phillips provided his own reactions to the discussions written almost immediately after the conference Sadly this volume appears without the addition of his voice Born in Morriston near Swansea Phillips was a Welsh speaker a strong supporter of Welsh speaking schools and the author of many works in philosophy and literature in Welsh and English Known widely as the leading representative of the movement in the philosophy of religion called Wittgensteinianism Phillips spent much of his effort challenging the tendency of philosophers to elevate one kind of discourse to the point where it becomes the norm by which other forms of discourse are to be judged

Pantheism Michael P. Levine, 2002-09-11 Many people who do not believe in God believe that everything is God that everything is part of an all inclusive divine unity In Pantheism this concept is presented as a legitimate position and its philosophical basis is examined Michael Levine compares it to theism and discusses the scope for resolving the problems inherent in theism through pantheism He also considers the implications of pantheism in terms of practice This book will appeal to those who study philosophy or theology It will also be of interest to anyone who does not believe in a personal God but does have faith in a higher unifying force and is interested in the justification of this as a legitimate system of thought

Salighed As Happiness? Abraham H. Khan, 2006-01-01 This work is an exposition of *Salighed* a concept at the heart of Kierkegaard's thought and the dialectical starting point for his reflections on what it means to live a genuinely human life Kierkegaard's studies to date appear to have underestimated the importance of the word and the concepts that lie behind it perhaps because the word appears easily translated into the English forms of eternal happiness or blessedness This suggests Khan does little justice to the concepts behind the word and does even less justice to the relationships of the concept of *Salighed* to other concepts crucial to Kierkegaard's thought Khan's approach to this word concept study has been greatly augmented by his use of the computer in analyzing word relatedness context and frequency of occurrence both within individual works and in comparing one work with a context of the Kierkegaard corpus The volume will of course be of interest to students of Kierkegaard It will also be of interest to those scholars intrigued by the possibilities of using computers in linguistic research and in literary studies

Enigmatic If Not Ineffable Robert Samuel Thorpe, 2019-05-23 Philosophy lends itself to thinking Certainly thought should pop into the philosopher's mind frequently and precipitate a mystical investigation of possibilities stimulating the imagination and provoking the cognitive machinery Not only are there thoughts in this book but they are somewhat scattered among several subjects a tendency of philosophers With these words Samuel Thorpe challenges every reader and prospective scholar to exercise the mind and wonder about reality knowledge and values Learn from the masters and engage their ideas with fresh creative arguments Readers will be pleasantly surprised how quickly they will be addicted

to the study of wisdom This book is ideal for students of all ages and people who wish to engage their thinking in new ways Each selection will hopefully provoke readers to consider some other ways to contemplate timeless issues of life that will be conducive to discussion and further reading of classical pieces of philosophy **Theological Studies** William James McGarry, John Courtney Murray, 1982 **Pauline Theology: 1 & 2 Corinthians** Jouette M. Bassler, 1991 Religious Issues and Interreligious Dialogues Charles Wei-hsun Fu, Gerhard E. Spiegler, 1989-06-26 A monumental collection essential for academic and seminary libraries and highly recommended for public libraries as well Library Journal An important new voice in contemporary philosophical theological discourse this book highlights a number of issues that have been of particular concern to scholars religious leaders politicians and the general public since the end of World War II The contributors purpose is to force a reexamination of basic concerns in religion religious beliefs and religious studies and to encourage both a reshaping of entrenched attitudes and a continuation of meaningful dialogue among different religious groups To this end they address a wide range of topics from the perplexing problem of relativism and the issue of feminism in the church to questions of Muslim identity and Hindu Christian dialogue Divided into two principal parts the book begins by exploring a broad spectrum of religious issues Norbert Samuelson analyzes theism and atheism in Western religious philosophy Ernest Stoeffler focuses on the parallel trends of conservatism and liberalism in American Protestantism Gustavo Benavides examines religion and modernization in Latin America Additional papers address a universal theology Christianity and sociopolitical thought postwar neo Confucian philosophy among other topics In the second section the contributors turn to interreligious dialogues examining the ways in which various religions have attempted to forge deeper mutual understanding often in the face of rising sociopolitical tensions Taken together these essays offer an eloquent testimonial to the critical importance of interreligious dialogue in contemporary society Religious Issues and Interreligious Dialogues will be an important addition to the reading list for studies in world religions contemporary religious issues and comparative religion

Introduction to Philosophy of Religion James Kellenberger, 2017-09-29 Using various and competing religious sensibilities Introduction to the Philosophy of Religion helps students work through the traditional material and their own religious questions **A Phenomenological Transformation of the Social Scientific Study of Religion** Anthony J. Blasi, 1985 This book develops a theoretical methodology for the social scientific study of religion from the principle of meaning adequacy Religion is to be understood adequately when the character of its presence in the mind of the religious person is described This methodology is used to address some major issues in the study of religion in new ways defining religion understanding ritual the connection between religion and morality religious social morality in the third world pietism the value problem in scientific accounts of religion and types of religious mentalities These discussions comprise a substantive phenomenology of religion and a distinctive sociology of religion **The Thomist** , 1983 A speculative quarterly review *The Review of Metaphysics* , 1984 **Pauline Theology** Jouette M.
