Writers and Their Background Kenneth Allott,1976-01-01      **Matthew Arnold** Kenneth Allott,1975      The Oxford History of Classical Reception in English Literature David Hopkins,Charles Martindale,Norman Vance,Rita Copeland,Patrick Cheney,Jennifer Wallace,Philip R. Hardie,2012 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This fourth volume and second to appear in the series covers the years 1790 1880 and explores romantic and Victorian receptions of the classics Noting the changing fortunes of particular classical authors and the influence of developments in archaeology aesthetics and education it traces the interplay between classical and nineteenth century perceptions of gender class religion and the politics of republic and empire in chapters engaging with many of the major writers of this period      Matthew Arnold and Goethe James Simpson,1979      *The Concise Cambridge History of English Literature* George Sampson,1943      **A Longing Like Despair** Alan Grob,2002 A major aim of Grob s study is to show Arnold as poet to be possessed of far greater philosophic depth and subtlety than his critics have usually credited him with by identifying the deep affinities and shared weltanschauung of his poetic vision with the metaphysical pessimism of Schopenhauer the major European philosopher whose insistence on the cosmic opposition between the world as will and the world as idea provided the most important philosophic alternative in the nineteenth century to the age s otherwise dominant progressive historicism Jacket      The Arnoldian ,1988      Social Values and Poetic Acts Jerome J. McGann,1988

Nineteenth Century Prose ,1988      *Victorian Perspectives* John Clubbe,Jerome Meckier,1989 Contributing greatly to the ongoing revaluation of the Victorians these six essays capture fresh perspectives in presenting among the subjects a fuller grounding for Browning s poetry a clearer awareness of the role of comedy in Arnold s prose and a look at Trollope as a crucial addition to his era s exhaustive studies of symbolic parent child relationships      **Routledge Encyclopaedia of Educational Thinkers** Joy Palmer Cooper,2016-05-20 The Routledge Encyclopaedia of Educational Thinkers comprises 128 essays by leading scholars analysing the most important influential innovative and interesting thinkers on education of all time Each of the chronologically arranged entries explores why a particular thinker is significant for those who study

education and explores the social historical and political contexts in which the thinker worked Ranging from Confucius and Montessori to Dewey and Edward de Bono the entries form concise accessible summaries of the greatest or most influential educational thinkers of past and present times Each essay includes the following features concise biographical information on the individual an outline of the individual s key achievements and activities an assessment of their impact and influence a list of their major writings suggested further reading Carefully brought together to present a balance of gender and geographical contexts as well as areas of thought and work in the broad field of education this substantial volume provides a unique history and overview of figures who have shaped education and educational thinking throughout the world Combining and building upon two internationally renowned volumes this collection is deliberately broad in scope crossing centuries boundaries and disciplines The Encyclopaedia therefore provides a perfect introduction to the huge range and diversity of educational thought Offering an accessible means of understanding the emergence and development of what is currently seen in the classroom this Encyclopaedia is an invaluable reference guide for all students of education including undergraduates and post graduates in education or teacher training and students of related disciplines
