Men Sex And Relationships Writings From Achilles Heel:

Men, Sex and Relationships Victor J. Seidler, 2003-09-02 *Men Sex and Relationships* follows on the success of *The Achilles Heel Reader* also edited by Vic Seidler in being a judicious mix between the academic and the personal. Drawn from contributors to *Achilles Heel* it provides the reader with helpful and insightful material on the men's relationships with others.

Recreating Men Bob Pease, 2000-02-02 One of the most central issues for women's prospects for equality is whether man can and will change. Changing the social relations of gender will involve changing men's subjectivities as well as their daily practices. This book asks whether this is possible. Bob Pease examines how men who are supportive of feminism are responding to the feminist challenge through an exploration of their experiences and dilemmas in trying to live out their feminist commitment and resist hegemonic forms of masculinity. The book is driven by practical as well as theoretical concerns and aims to develop strategies that will promote the process of change towards equality in gender relations. Drawing on a critical postmodern theoretical framework, Pease argues that it is possible for men to reposition themselves in patriarchal discourses and to reformulate their interests in challenging gender domination. *Recreating Men* is an invaluable reading for academics and students of gender studies and of interest to students of sociology, psychology and political sociology.

Gender Harriet Bradley, 2013-04-03 Gender issues continue to be a prominent concern of academics and policy makers and increasingly arise in various forms to be debated in the public sphere and popular media. But what exactly do we mean by gender? How can we best understand gender differences? How are current gender relations changing? What new paths are femininity and masculinity taking? What would it be like to live in a society in which differences of gender were transcended? In this new edition of her popular and highly lauded book, Harriet Bradley provides an introduction to the concept of gender and the different theoretical approaches which have developed within gender studies. Utilizing life narratives, she investigates processes of gendering in three important spheres of contemporary social life: production, reproduction and consumption. The book highlights the centrality of gender in everyday life and shows how thinking about gender is influenced by changing political contexts. As well as updating the discussion with the latest scholarship, political concerns and economic data, the new edition pays closer attention to intersectionality and hybrid identities as well as exploring the complexities of contemporary relations of masculinity and femininity in the light of new feminist activities. This lively and accessible book will be of interest to students across the social sciences as well as anyone interested in contemporary relations between women and men.

Man Enough Victor J. Jeleniewski Seidler, 1997-09-15 In this book, one of the leading contributors to the growing debate about men, masculinities and sexual politics, Victor J. Seidler criticizes the Enlightenment coupling of white heterosexual masculinity with reason. He argues that in modern society, masculinity can never be taken for granted. Men must always prove that they are man enough to cope in the correct way with the problems and challenges of everyday life. Seidler believes that men have to break this chain of obligations to the Enlightenment notion

of masculinity Through engaging with men s diverse relationships with their bodies sexualities emotional lives feelings and desires Seidler explores ways of affirming masculinities while critically engaging with the power that men have in the wider society The book is also a contribution to antisexist politics Seidler is interested in taking on those forms of men s politics which find it difficult to engage with men s power and society and also those who take it for granted that male power is normal and natural He seeks to recognize both the power that white heterosexual masculinities have in shaping forms of philosophy and social theory while at the same time recognizing that masculinity cannot be simply defined as a relationship of power

Undoing Privilege Professor Bob Pease,2021-11-18 For every group that is oppressed another group is privileged Here Bob Pease argues that privilege as the other side of oppression has received insufficient attention in both critical theories and in the practices of social change As a result dominant groups have been allowed to reinforce their dominance The second edition of Undoing Privilege extensively revises the six sites of privilege from the first edition Western dominance class elitism white and patriarchal privilege and heterosexual and able bodied privilege to reflect policy shifts and new social movement initiatives as well as the latest research and resources This edition also includes four new chapters on anthropocentrism cisgender privilege adultism and Christian privilege Pease points out that while the vast majority of people may be oppressed on one level many are also privileged on another He demonstrates how members of privileged groups can engage critically with their own dominant position and explores the potential and limitations of them forming relations of solidarity against oppression and their unearned privilege The second edition includes new theoretical developments in privilege theory collective responsibility complicity in systemic injustice and allyship It is an essential book for all who are concerned about developing theories and practices for a socially just world

Queering Tribal Folktales from East and Northeast India Kaustav Chakraborty,2020-12-08 This book explores queer potentialities in the tribal folktales of India It elucidates the queer elements in the oral narratives of four indigenous communities from East and Northeast India which are found to be significant repositories of gender fluidity and non normative desires Departing from the popular understanding that Otherness results largely from undue exposure to Western permissiveness the author reveals how minority sexualities actually have their roots in aboriginal indigenous cultures and do not necessarily constitute a mimicry of the West The volume endeavours to demystify the politics behind such vindictive propagation to sensitize the queerphobic mainstream

Everyday Masculinities in 21st-Century China Magdalena Wong, 2020-05-04 Everyday Masculinities in 21st Century China The Making of Able Responsible Men argues that a moral dimension in Chinese masculinity is of growing significance in fast-changing China Able responsible men those who can create wealth and shoulder responsibilities have replaced the moneyed elite of the earlier reform and opening up era as the dominant male ideal With vivid and highly readable case studies Wong presents a compelling account of the forces that coerce men to live up to the able responsible standard She demonstrates the impact this pressure has on the lives of not only boys and men but also on women and shows how it invites both complicit and resistant reactions The book lays bare the socio-political context that nurtures the cultural expressions of hegemonic masculinity under the rule of Xi Jinping The president himself has emerged in public consciousness as the embodiment of the ideal able responsible man Based on anthropological

fieldwork in Nanchong Sichuan the book provides new perspectives on many topical issues that China faces These include urbanization labour migration the one child policy love and marriage gender and intergenerational dynamics hierarchical male relationships and the rise of mass displays of nationalism In this richly informative book Dr Wong gives us an intimate picture of masculinities in a contemporary Chinese city She explores the role of wealth in definitions of masculinity the moral dimension in gender imagery the changing desires of women and the role of the state including a striking account of the gender strategies of President Xi More than a local study this book provides valuable ideas for understanding gender men and masculinities in the contemporary world Raewyn Connell University of Sydney Magdalena Wong asks wonderful original questions Her study might be one of the most pioneering investigations into Chinese family relations I have read The strength of her book lies in its insight into kinship and cultural continuities and changes The rich nuanced case studies can make her book become an important addition to our ongoing studies on Chinese family William Jankowiak University of Nevada Las Vegas

Mapping the Subject Steve Pile, Nigel Thrift, 2005-11-22 Rejecting static and reductionist understandings of subjectivity this book asks how people find their place in the world Mapping the Subject is an inter disciplinary exploration of subjectivity which focuses on the importance of space in the constitution of acting thinking feeling individuals The authors develop their arguments through detailed case studies and clear theoretical expositions

Themes discussed are organised into four parts constructing the subject sexuality and subjectivity the limits of identity and the politics of the subject There is here a commitment to mapping the subject a subject which is in some ways fluid in other ways fixed which is located in constantly unfolding power knowledge and social relationships This book is moreover about new maps for the subject

Unreasonable Men Victor J. Seidler, 2013-07-23 This much needed book is the first to show how dominant forms of masculinity are implicated in the traditions of social theory that have emerged since the Enlightenment The author shows how an unreasonable form of reason has emerged from the separation of reason from emotion mind from body nature from culture public from private matter from spirit the dualities that have shaped our vision of modernity The book argues that men need to explore critically their power and experience which has been rendered invisible by the dominant traditions of social theory Instead of legislating for others they have to learn to speak more personally for themselves
