The Shadow of the Second Mother explores why has there been such little interest in psychology social history and biography in the important contribution that second mothers such as wet nurses and nannies have had upon the emotional life of the children they have nursed For the last three thousand years and throughout most civilisations they have nurtured the children of the privileged and kept alive the abandoned and unwanted child and yet there has been a profound silence surrounding the influence they may have had The author explores the lives of several well known people who have been wet nursed such as Michelangelo Rousseau Jack London Nabokov and Klein She speculates that they all were affected emotionally by their second mother and concludes that a universal feature of such delegated mothering seems to be that the bond between mother and child is broken and the child may be left with a life long distrust of close relationships In The Shadow of the Second Mother Coles combines an exploration of attachment theory with neurology making it possible to give an explanation as to why these important figures have lain unnamed and ignored in our social and psychological consciousness This intriguing new approach to an ancient practice will be fascinating reading for psychotherapists psychoanalysts sociologist and students of social history

In the Shadow of the Greatest Generation Melinda L. Pash, 2014-05-22 Largely overshadowed by World War II s greatest generation and the more vocal veterans of the Vietnam era Korean War veterans remain relatively invisible in the narratives of both war and its aftermath Yet just as the beaches of Normandy and the jungles of Vietnam worked profound changes on conflict participants the Korean Peninsula chipped away at the beliefs physical and mental well being and fortitude of Americans completing wartime tours of duty there Upon returning home Korean War veterans struggled with home front attitudes toward the war faced employment and family dilemmas and wrestled with readjustment Not unlike other wars Korea proved a formative and defining influence on the men and women stationed in theater on their loved ones and in some measure on American culture In the Shadow of the Greatest Generation not only gives voice to those Americans who served in the forgotten war but chronicles the larger personal and collective consequences of waging war the American way

Medea's Long Shadow in Postcolonial Contexts Ana Filipa Prata, Rodrigo Verano, 2024-06-10 This interdisciplinary volume explores the ancient Greek myth of Medea and its global analogues found in other mythic and folk tales of deadly exiled women such as those of La Malinche and La Llorona examining the connections between these figures and their depictions from antiquity to modernity The book considers the figure of the foreign woman her exile fratricide and infanticide in its ancient Greek form and in global postcolonial receptions in a range of media including drama film novels and the visual arts The chapters illuminate the contradictions of considering the classical Medea as a central reference point for analysis of other female figures from peripheral territories while simultaneously acknowledging the insights that such comparisons can yield Emphasizing the ways in which Medea s seditious nature enables the establishment of an extensive and heterogeneous intertextual network with other mythic characters who represent a similarly disruptive role in their specific local historical and cultural contexts the book argues for

a comparative analysis that is equally attentive to myths and folk tales from all regions These essays by scholars of classics comparative and world literatures and postcolonial studies represent a plurality of perspectives from different academic contexts in Africa Latin America North America and Europe and examine how different cultures have depicted women foreigners crime and abjection The foundations of Greek myth and subsequently of the classical tradition itself are interrogated from a postcolonial perspective In tracing the portrayals of Medea and other mythic women through the overlapping features of different female characters and plots and intertwining local cultural and literary materials with broader debates this volume challenges Eurocentric narratives of power and cultural domination and works to decentralize the discussion of Medea from the exclusive domain of classical studies Medea s Long Shadow in Postcolonial Contexts will be of interest to students and scholars working on Greek tragedy and its reception as well as to those studying postcolonial and global approaches to literature culture and gender studies

The Shadow of the Empress Larry Wolff,2023-05-02 A beguiling exploration of the last Habsburg monarchs grip on Europe s historical and cultural imagination In 1919 the last Habsburg rulers Emperor Karl and Empress Zita left Austria going into exile That same year the fairy tale opera Die Frau ohne Schatten The Woman Without a Shadow featuring a mythological emperor and empress premiered at the Vienna Opera Viennese poet Hugo von

Hofmannsthal and German composer Richard Strauss created *Die Frau ohne Schatten* through the bitter years of World War I imagining it would triumphantly appear after the victory of the German and Habsburg empires. Instead the premiere came in the aftermath of catastrophic defeat. The Shadow of the Empress Fairy Tale Opera and the End of the Habsburg Monarchy explores how the changing circumstances of politics and society transformed their opera and its cultural meanings before, during, and after the First World War. Strauss and Hofmannsthal turned emperors and empresses into fantastic fairy tale characters, meanwhile following the collapse of the Habsburg monarchy after the war their real life counterparts removed from political life in Europe began to be regarded as anachronistic, semi-mythological figures. Reflecting on the seismic cultural shifts that rocked post-imperial Europe, Larry Wolff follows the story of Karl and Zita after the loss of their thrones. Karl died in 1922 but Zita lived through the rise of Nazism, World War II, and the Cold War. By her death in 1989 she had herself become a fairy tale figure, a totem of imperial nostalgia. Wolff weaves together the story of the opera's composition and performance, the end of the Habsburg monarchy, and his own family's life in and exile from Central Europe, providing a rich new understanding of Europe's cataclysmic twentieth century and our contemporary relationship to it.

Shadows of an Iron Kingdom C. Litka, 2021-07-15 I'd like to believe that I can take the rough with the smooth. I didn't complain about the hundred petty inconveniences of the Iron Kingdom. Not too much. It was the werewolves, super humans, and mad scientists who haunted its black forests and ruined castles that got to me. Still, what did I expect in the company of Vaun Di Ai Rafe d Mere from *Shadows of an Iron Kingdom*? Rafe d Mere and Vaun Di Ai return in this sequel to *The Secrets of Valsummer House*. Rafe d Mere, after turning the Fix it all Shop back over to its owner, follows his heart instead of his head. Concerned after not receiving a radio packet from Lieutenant JG Vaun Di Ai for months, he sets out for the planet of VanTre to assure himself that she's fine. There he finds that she has resigned from the Patrol, an unthinkable act on her part. So with some help, he follows her to the small airless planet of Ironlode. Merely he tells himself to find out what she's gotten herself into this time. It was danger, of course. Danger in a Gothic inspired throw back society, a primitive almost feudal society where mythical werewolves the size of large bears were said to roam its dark forests. As d Mere discovered, they were more than imaginary. And even so, they weren't the most dangerous creatures that inhabited those forests. Di Ai, d Mere, and Di Ai's new

colleague the all too handsome and charming in d Mere s opinion Tarvis Byn set out to find the secret of these monsters
