Historical Dictionary of the Inuit Pamela R. Stern,2013-09-26 The Inuit do not represent a very large population only 160 000 or so spread over a very large portion of the Arctic region and located in four different countries Although they are a people there are many variations from one group to the next and any study of them must consider both similarities and differences The Historical Dictionary of the Inuit introduces us to the Inuit as they actually are and not as they have been traditionally pictured and some would still like to see them looking after their traditional chores and engaged in time honored practices but rather as a modern people trying to shape their worlds in their own interest This second edition includes an updated chronology as well as an introduction to provide a broader view of who the Inuit are where they live and what they do But it is the dictionary section that is most interesting with many new informative entries on persons places events and institutions shedding light not only on the culture but also on the society economy and politics For those seeking further information there is a considerably expanded bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the Inuit

Babylon Michael Seymour,2014-08-29 For two thousand years the real physical metropolis lay buried while another ghostly city lived on through ideas as varied as the legendary Hanging Gardens the career of the biblical Daniel and even the Apocalypse More recently the site of Babylon has been the centre of major excavation yet the spectacular results of this work have done little to displace the many other fascinating ways in which the city has endured and reinvented itself in culture Saddam Hussein for one notoriously exploited the Babylonian myth to associate himself and his regime with its glorious past Why has Babylon so creatively fired the human imagination with results both good and ill Why has it been enthralling to so many and for so long In exploring answers Michael Seymour ranges extensively over space and time and embraces art archaeology history and literature From Hammurabi and Nebuchadnezzar via Strabo and Diodorus to the Book of Revelation Bruegel Rembrandt Voltaire William Blake and modern interpreters like Umberto Eco Italo Calvino and Gore Vidal the author brings to light a carnival of disparate sources dominated by powerful and intoxicating ideas such as the Tower of Babel and the city of sin

Babylon Legend History and the Ancient City weighs idea against reality fiction against fact conjuring the fascinating story of this ancient metropolis and its legacy to brilliant life as never before

Diplomatic Cultures and International Politics

Jason Dittmer, Fiona McConnell, 2015-11-06 This volume offers an interdisciplinary and critical analysis of the role of culture in diplomatic practice If diplomacy is understood as the practice of conducting negotiations between representatives of distinct communities or causes then questions of culture and the spaces of cultural exchange are at its core But what of the culture of diplomacy itself When and how did this culture emerge and what alternative cultures of diplomacy run parallel to it both historically and today How do particular spaces and places inform and shape the articulation of diplomatic culture s This volume addresses these questions by bringing together a collection of theoretically rich and empirically detailed contributions from leading scholars in history international relations geography and literary theory Chapters attend to cross cutting issues of the translation of diplomatic cultures the role of space in diplomatic exchange and the diversity of diplomatic cultures beyond the formal state system Drawing on a range of methodological approaches the contributors discuss empirical cases ranging from indigenous diplomacies of the Inuit Circumpolar Council to the European External Action Service the 1955 Bandung Conference the spatial imaginaries of mid twentieth century Balkan writer diplomats celebrity and missionary diplomacy and paradiplomatic narratives of The Hague The volume demonstrates that when approached from multiple disciplinary perspectives and understood as expansive and plural diplomatic cultures offer an important lens onto issues as diverse as global governance sovereignty regimes and geographical imaginations This book will be of much interest to students of public diplomacy foreign policy international organisations media and communications studies and IR in general

Stories in a New Skin Keavy Martin, 2012-12-15 In an age where southern power holders look north and see only vacant polar landscapes isolated communities and exploitable resources it is important to note that the Inuit homeland encompasses extensive philosophical political and literary traditions *Stories in a New Skin* is a seminal text that explores these Arctic literary traditions and in the process reveals a pathway into Inuit literary criticism Author Keavy Martin considers writing storytelling and performance from a range of genres and historical periods the classic stories and songs of Inuit oral traditions life writing oral histories and contemporary fiction poetry and film and discusses the ways in which these texts constitute an autonomous literary tradition She draws attention to the interconnection between language form and context and illustrates the capacity of Inuit writers singers and storytellers to instruct diverse audiences in the appreciation of Inuit texts Although Eurowestern academic contexts and literary terminology are a relatively foreign presence in Inuit territory Martin builds on the inherent adaptability and resilience of Inuit genres in order to foster greater southern awareness of a tradition whose audience has remained primarily northern

Indigenous Peoples Svein Jentoft, Henry Minde, Ragnar Nilsen, 2003 Since the Rio Earth Summit in 1992 a legal process within the auspices of the UN has been underway that may help indigenous peoples to sustain their natural environment industries and cultures This book addresses some of the legal political and institutional implications of those processes Back cover

Challenging Politics Kathrin Wessendorf (ed), International Work Group for Indigenous Affairs, 2001 Indigenous peoples all over the world find themselves

part of political systems that are not their own but created and defined by governments with alien rules and led by politicians Over the last centuries indigenous peoples have gained experience in dealing with these imposed systems of politics and with hitherto unknown social structures The experiences are very diverse and the reactions to political systems vary This book gives an impression of and some ideas and inspiration on the issue of involvement of indigenous peoples in national politics It may be seen as the beginning of a process that will hopefully lead to further discussion and co operation within the regions but also at an interregional level The book is a compilation of articles initially written for a number of workshops on Indigenous Peoples Experiences with Political Parties and Elections The workshops took place between 1999 2000 in different regions of the world
