Rethinking the Nature of War Jan Angstrom, Isabelle Duyvesteyn, 2005-07-08 Have globalization virulent ethnic differences and globally operating insurgents fundamentally changed the nature of war in the last decade Interpretations of war as driven by politics and state rationale formulated most importantly by the 19th century practitioner Carl von Clausewitz have received strong criticism Political explanations have been said to fall short in explaining conflicts in the Balkans Africa Asia and the attacks of 11 September 2001 in the United States This book re-evaluates these criticisms not only by scrutinising Clausewitz's arguments and their applicability but also by a careful reading of the criticism itself In doing so it presents empirical evidence on the basis of several case studies addressing various aspects of modern war such as the actors conduct and purposes of war

Chemically Speaking C.C. Gaither, Alma E Cavazos-Gaither, 2016-04-19 In these days of ever increasing specialization it is important to gain a broad appreciation of scientific disciplines such as chemistry With this in mind *Chemically Speaking* A Dictionary of Quotations contains the words and wisdom of several hundred scientists writers philosophers poets and academics Some quotations are illustrated by art

Folk Art Henry Glassie, Pravina Shukla, 2023-06-13 Listen to the artists of the Brazilian Northeast Their work they say comes of continuity and creativity Continuity runs along lines of learning toward social coherence Creativity brings challenges and deep personal satisfaction What they say and do in Brazil aligns with ethnographic evidence from New Mexico and North Carolina from Ireland Portugal and Italy from Nigeria Turkey India and Bangladesh from China and Japan This book is about that about folk art as a sign of human unity

New Forms of Governance in Research Organizations Dorothea Jansen, 2007-03-14 Higher education and research institutions are confronted with changing and sometimes contradictory claims from state industry and society today They have to face growing volatility and an acceleration and internationalization of the knowledge process This book undertakes to develop a sector specific theory of governance of the public research sector and applies it to the German research system The book is the outcome of a large interdisciplinary project It analyzes the reforms in the German research system from an integrated perspective of law economics and social sciences The case of Germany is compared to reforms in other European countries such as Austria the Netherlands and the United Kingdom The study emphasizes an

integrated approach considering the research function of universities as well as the non university research sector The focus is on the integration of external and internal governance First we pose the question how external competition and control mechanisms do influence internal governance of research institutions and universities and vice versa Second we discuss the consequences of these impacts on research The SAGE Handbook of Power Mark Haugaard,2009-03-12 Power is arguably one of the key concepts within the social sciences The SAGE Handbook of Power is the first touchstone for any student or researcher wishing to initiate themselves in the state of the art Internationally acclaimed Stewart R Clegg and Mark Haugaard have joined forces to select a collection of papers written by scholars with global reputations for excellence These papers bridge different conceptual and theoretical positions and draw on many disciplines including politics sociology and cultural studies The sweep and richness of the resulting handbook will help readers contextualise and grow their understanding of this dynamic and important subject area Religious Studies in Ontario Harold Remus,Daniel Fraikin,William Closson James,2006-01-01 Most Ontario universities were established by Christian denominations a Christian ethos was assumed and pervasive and students were required to take courses designed to teach and inculcate religion This insightful and comprehensive study demonstrates how as Ontario society became secularized and pluralistic so too did universities Today religion is again studies in university classrooms but as religious studies a relatively new field that reflects the religiously pluralistic nature of Ontario and the world wide explosion of knowledge This authoritative volume will be of interest to students of religion in and outside academic circles to adminstratots of academic institutions and granting agencies and to persons wanting to know more about the social and cultural changes that have transformed Ontario and Canadian society *The Science of Evaluation* Ray Pawson,2013-02-01 Evaluation researchers are tasked with providing the evidence to guide programme building and to assess its outcomes As such they labour under the highest expectations bringing independence and objectivity to policy making They face huge challenges given the complexity of modern interventions and the politicised backdrop to all of their investigations They have responded with a huge portfolio of research techniques and through their professional associations have set up schemes to establish standards for evaluative inquiry and to accredit evaluation practitioners A big question remains Has this monumental effort produced a progressive cumulative and authoritative body of knowledge that we might think of as evaluation science This is the question addressed by Ray Pawson in this sequel to Realistic Evaluation and Evidence based Policy In answer he provides a detailed blueprint for an evaluation science based on realist principles Sociological Perspectives on Modern Accountancy Robin Roslender,2002-11-01 First Published in 2004 The subject of this text is modern accountancy which is to be considered from a sociological perspective The logical starting point is to map out the chosen subject modern accountancy before saying something about the particular disciplinary perspective sociology from which it is to be viewed The volume is split into two parts the sociology of accountancy and Sociology for accounting How Can We Solve Our Social Problems? James A.

Crone,2015-10-29 Many of today s social problems poverty crime racism sexism drug abuse unequal access to quality health care or education threats to the environment over population can seem intractable James A Crone s How Can We Solve Our Social Problems Third Edition is designed to give students studying these types of social problems a sense of hope Unlike the standard survey texts that focus heavily on the causes and consequences of problems this book is devoted to analyzing possible solutions It maintains a sense of sociological objectivity throughout and without moralizing describes what could be done in America and on a global scale through government policies private sector initiatives and the collective actions of citizens to address even our most pervasive social problems Human Behavior and the Social Environment, Micro Level

Katherine Van Wormer,2017-03-10 Unique to Human Behavior and the Social Environment Micro Level is the focus on trauma and resilience in its exploration of human behavior across the life span Illustrations are drawn from the arts as well as recent brain research from recent biological research **All Silver and No Brass** Henry Glassie,1983 A beautifully written exploration of a vanishing holiday ritual that can be traced back to the dramas of the sixteenth century and beyond Philadelphia Inquirer **Breakdown and Change of Private Interest Governments** Claudius Wagemann,2014-06-23

Examines how Private Interest Governments have changed as a form of public sector economic regulation **The Human Difference** Alan Wolfe,2023-04-28 Are we losing touch with our humanity Yes contends Alan Wolfe in this provocative critique of modern American intellectual life From ecology sociobiology and artificial intelligence to post modernism and the social sciences Wolfe examines the antihumanism underlying many contemporary academic trends Animal rights theorists and ecological extremists too often downplay human capacities Computers are smarter than we are and will soon replace us as the laws of evolution continue to unfold Even the humanities held in sway by imported theories that are explicitly antihumanistic in intention have little place for human beings Against this backdrop Wolfe calls for a return to a moral and humanistic social science one in which the qualities that distinguish us as a species are given full play Tracing the development of modern social theory Wolfe explores the human centered critical thinking of eighteenth and nineteenth century scholars now eclipsed by post modern and scientistic theorizing In the work of Durkheim Marx Weber and Mead human beings are placed on the center stage shaping and interpreting the world around them Sociology in particular emerged as a distinct science because the species it presumed to understand was distinct as well Recent intellectual trends in contrast allow little room for the human difference Sociobiology underlines the importance of genetics and mathematically governed evolutionary rules while downplaying the unique cognitive abilities of humans Artificial intelligence heralds the potential superiority of computers to the human mind Post modern theorizing focuses on the interpretation of texts in self referential modes rejecting humanism in any form And mainstream social science using positivist paradigms of human behavior based on the natural sciences develops narrow and arid models of social life Wolfe eloquently makes a case for a new commitment to humanistic social science based on a realistic and creative engagement with modern society A

reconstituted social science acknowledging our ability to interpret the world will thrive on a recognition of human difference Nurturing a precious humanism social science can celebrate and further refine our unique capacity to create morality and meaning for ourselves This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1993 Are we losing touch with our humanity Yes contends Alan Wolfe in this provocative critique of modern American intellectual life From ecology sociobiology and artificial intelligence to post modernism and the social sciences Wolfe examines the anti

State Lotteries Kasey Henricks, David G. Embrick, 2016-08-12

Fifty years ago familiar images of the lottery would have been strange as no state lottery existed then Few researchers have uncovered the obscure role lotteries play in the changing composition of American taxation Even less is known about what role race plays in this process More than simply taxing those on the social margins the emergence of state lotteries in contemporary American history represents something much more fundamental about state fiscal policy This book not only uncovers the underlying racial factors that contextualize lottery proliferation in the U S but also reveals the racial consequences that lotteries have in terms of redistributing tax liability
