Renewable Natural Resources A Management Handbook For The 1980s

Thomas A. Morehouse

Renewable Natural Resources A Management Handbook For The 1980s:

Renewable Natural Resources Dennis Little, Robert E. Dils, John John Gray, 2019-07-11 Enormous in scope this book presents in comprehensive and logical form the sum of our national knowledge about renewable energy resources. It deals with these resources in terms of opportunities and dangers in terms of current availability and possible expansion in terms of how natural resources relate to human resources and needs and in terms of their replacement potential for nonrenewable resources such as fossil fuels. It also puts domestic resources and needs into the context of international needs, supplies, and policies, emphasizing the issues facing an interdependent world and the urgent requirements perceived by countries less endowed than the United States. This is a handbook for the concerned citizen as well as for resource managers and policymakers at local, regional, and national levels. The analyses it contains underscore the fact that there are no easy answers; everything is part of an interlocking system and every decision will affect multiple aspects of our daily lives and indeed our very existence. The authors emphasize the crucial importance of early planning, balanced management, and timely decisions while suggesting that something more is required: a new ideology and a new educational approach.

Renewable Natural Resources Dennis L. Little, 1982-02-01 **Future Survey Annual 1983** Michael Marien, 1984-01-01 Environmental Planning And Management John H Baldwin, 2019-06-04 A comprehensive overview and discussion of all major aspects of environmental planning and management. Professor Baldwin's textbook highlights the causes and interrelationships of environmental problems, emphasizing the important economic and ecological functions of the land as the stage for all human activities and the source and sink for all.

Alaskan Resources Development Thomas A. Morehouse, 2019-03-04 Many U.S. citizens and policymakers look to Alaska as a resource storehouse for the remaining years of the 1980s and beyond. This book examines the federal and state policies, economic and political constraints, and social consequences of Alaskan resources development during two decades.

Library of Congress Catalogs Library of Congress, 1983 **Water And Agriculture In The Western U.S.** Gary Weatherford, 2020-01-23 One of the major questions facing the western U.S. is whether irrigation water can be conserved and reallocated to help meet increasing nonagricultural water demands. This book, based on interdisciplinary research in several states, identifies and analyzes the legal, political, economic, and social issues involved in a conserve and transfer strategy. After providing an overview and policy framework for considering the role of conservation in water management, the authors use case studies to illustrate, for example, why water conservation is not a neutral policy or principle, demonstrating how other legitimate values can be adversely affected by a single purpose pursuit of conservation, the various options available for conservation, how reallocation occurs in market transactions, and the legal restrictions on the sale of conserved surplus water. Although formal market mechanisms are found to be rudimentary or lacking in most areas of the West, the authors contend that more proficient markets will evolve to measure the economic value of agricultural water. They conclude that a conserve and transfer strategy is selectively workable through the use of incentives but that a number

of tradeoffs social concerns and institutional constraints which have not been adequately recognized to date will have to be dealt with by policymakers if the strategy is to have wider application *Bibliographic Guide to Business and Economics* New York Public Library. Research Libraries,1991 *Living With Energy Shortfall* Jon Van Til,2019-04-16 This book is about the ways Americans may live in the years ahead and the forms their cities suburbs towns and rural areas may take in the light of changing patterns of energy supply and societal affluence It is written for the ultimate energy policy maker the private citizen **The 1980 National Outdoor Recreation Trends Symposium** ,1980 **Energy Futures, Human Values, And Lifestyles** Richard C Carlson,2019-04-11 The contours of our energy future are most clearly presented as hard and painful choices We can for instance maintain perhaps even greatly improve our current living standards but at tremendous cost to our environment and to our physical and human resources Alternatively we can opt for a more humane society and in many ways a richer life with Economic Benefits Of Improved Water Quality Douglas Greenley,2020-01-16 Until recently there has been general agreement that improvement and preservation of water quality though costly provided economic and social benefits that outweighed the expense Now however some observers are beginning to question whether the costs of the 1972 Water Pollution Control Act may actually exceed those benefits This book provides answers to some of the questions that have been raised The authors give measures of several important nonmarket benefits of improved water quality in Colorado s South Platte River Basin and empirically test and confirm the Weisbrod and Krutilla proposals that the general public may be willing to pay for preservation of environmental amenities and that option value and other preservation values must be added to recreation use values to give an accurate picture of the social benefits of environmental preservation and restoration Their findings include the fact that even those who do not expect to use the river basin for recreation are willing to pay for the maintenance of a natural ecosystem and to bequest clean water to future generations The authors also arrive at average amounts households are willing to pay for improved water quality to enhance enjoyment of water based recreation activities They suggest that without such information it is highly unlikely that sufficient resources will be allocated for the preservation of unique environments and for the improvement of those being degraded *Energy Information Guide: General and alternative energy sources* R. David Weber,1982 Wilderness Fire Management Planning Guide William C. Fischer,1984 Outlines a procedure for fire management planning for parks wilderness areas and other wild natural or essentially undeveloped areas Discusses background and philosophy of wilderness fire management planning concepts planning elements and planning methods Publications of the Rocky Mountain Forest and Range Experiment Station 1980-1989 ,1992 **International Environmental Policy** Lynton Keith Caldwell,Paul Stanley Weiland,1996 In this newly revised and expanded edition of the award winning International Environmental Policy Lynton Keith Caldwell updates his comprehensive survey of the global international movement for protection of the environment Serving as a history of international cooperation on environmental issues this book focuses primarily on the development of international

agreements and institutional arrangements both governmental and nongovernmental along with the impact of science technology trade and communication on environmental policy With implications for multinational commerce population policy agriculture energy issues biological and cultural diversity transnational equity ideology and education this book takes a broad view of the policy outcomes of what may be the most important social movement of the 20th century and addresses the events and politics that have significantly affected the movement over the last twenty years and will continue to affect it into the next century

A Bibliography of Cooperative Extension Service Literature on Wildlife, Fish, and Forest Resources,1982 **Resources in Education** ,1984 Department of the Interior and Related Agencies Appropriations for Fiscal Year 1980: Advisory Council on Historic Preservation United States. Congress. Senate. Committee on Appropriations. Subcommittee on the Department of the Interior and Related Agencies,1980 **Department of the Interior and Related Agencies Appropriations for Fiscal Year 1980** United States. Congress. Senate. Committee on Appropriations. Subcommittee on the Department of the Interior and Related Agencies,1980
