Rent Control And The War Against The Poor

United States. Congress

Rent Control And The War Against The Poor:

The Left's War Against the Poor John Pepple, 2015-02-09 Leftists have been waging a war against the poor since the 1960s During that decade the left began turning its attention to other causes and in doing so began a war against the poor This war is not an intentional war but it is a war nevertheless It manifests itself in a number of ways by environmentalists who never think about the impact that their policies have on the poor by well meaning people who destroyed the public schools and by people who support criminals over their victims who are almost always poor people Why did this war happen It happened because the left despite its focus on the poor has almost always been controlled by the rich When the left adopted new issues several decades ago these rich people refused to listen to those among the poor who protested But while the left's war against the poor goes back only a few decades the fact that the left has been controlled by the rich ever since the left began means that the left has never really been wholly committed to helping the poor Instead the analyses and policies formulated by rich leftists have helped rich leftists who get to keep their wealth and to control the government more than the poor This book argues that a leftism by and for the poor will be strikingly different from leftism as it now exists While Rich Peoples Leftism blames capitalism for exploiting the workers and wants a redistribution of wealth Poor Peoples Leftism wants job creation The more jobs there are for the poor the less they are exploited It is job creation more than anything else that will help the poor escape from poverty **Rent Control and the War Against the Poor** R. W. Grant, 1989

The Austro-Libertarian Point of View Alan G. Futerman, Walter E. Block, 2021-11-01 This book covers several areas of economic theory and political philosophy from the perspective of Austrian Economics and libertarianism As such it deals with Epistemology and Methodology Microeconomics Macroeconomics Labor Economics International Economics Political Philosophy Law and Public Policy all from the Austro libertarian perspective Hence this book offers an integrated view of libertarianism and Austrian economics in the light of recent debates in the areas of economic science and political philosophy Moreover it builds from the foundations of the Austrian approach epistemology and methodology while the latter material deals with its application to the individual from the microeconomic perspective which in turn allows an exploration of subjects in macroeconomics Additionally this work applies Austro libertarianism to law politics and public policy Thus it offers a unified view of the entire approach in a logical progression allowing the readers to judge this perspective in full Futerman and Block say that their book is not a manual which I suppose it is not But it is a collection of highly pertinent essays from which you can understand what is mistaken in the orthodoxy of economics law and politics The central term of art in Austrian economics is that phrase human action It is the exercise of human will not the blind bumping of one molecule against another or one organism against another as in the physical sciences Futerman and Block distinguish Austrian economics as a scientific enterprise based on liberty of the will from libertarianism as an advocacy based on policies implied by such liberty Although Austrian economics is positive and libertarianism is normative they write this book shows how both

are related how each can support the other Indeed they do Deirdre N McCloskey PhD UIC Distinguished Professor of Economics and of History Emerita Professor of English Emerita Professor of Communication Emerita University of Illinois at Chicago

Philosophy of Law Walter E. Block, Roy Whitehead, 2019-11-14 Looking at discrimination education environment health and crime this volume analyses United States Supreme Court rulings on several legal issues and proposed libertarian solutions to each problem Setting their own liberal theory of law each chapter discusses the law at hand what it should be and what it would be if their political economic philosophy were the justification of the legal practice Covering issues such as sexual harassment religion markets in human organs drug prohibition and abortion this book is a timely contribution to classical liberal debate on law and economics

Cities and Private Planning David Emanuel Andersson, Stefano Moroni, 2014-09-26 Through comprehensive case studies of privately planned cities and neighbourhood in Asia Europe and North America this book characterizes the theoretical basis and empirical manifestations of private urban planning In this innovative volume Andersson

The Economics of Poverty Martin Ravallion, 2016 An overview of the economic development of and policies intended to combat poverty around the world Provided by publisher

Extension of Rent Control, Hearings Before ..., 81-2 on S 3181, S 3464, And S.3492 ..., April 24, 25, 26, 27 And 28, 1950. 500::2 Fold Outs United States. Congress. Senate. Committee on Banking and Currency, 1950

The Oxford Handbook of the Social Science of Poverty David Brady, Linda M. Burton, 2016-03-23 Despite remarkable economic advances in many societies during the latter half of the twentieth century poverty remains a global issue of enduring concern Poverty is present in some form in every society in the world and has serious implications for everything from health and well being to identity and behavior Nevertheless the study of poverty has remained disconnected across disciplines The Oxford Handbook of the Social Science of Poverty builds a common scholarly ground in the study of poverty by bringing together an international interdisciplinary group of scholars to provide their perspectives on the issue Contributors engage in discussions about the leading theories and conceptual debates regarding poverty the most salient topics in poverty research and the far reaching consequences of poverty on the individual and societal level The volume incorporates many methodological perspectives including survey research ethnography and mixed methods approaches while the chapters extend beyond the United States to provide a truly global portrait of poverty A thorough examination of contemporary poverty this Handbook is a valuable tool for non profit practitioners policy makers social workers and students and scholars in the fields of public policy sociology political science international development anthropology and economics

Shelter Poverty Michael Stone, 2010-08-12 the most original and profoundly disturbing work on the critical issue of housing affordability Chester Hartman President Poverty and Race Research Action Council In Shelter

Poverty Michael E Stone presents the definitive discussion of housing and social justice in the United States Challenging the conventional definition of housing affordability Stone offers original and powerful insights about the nature causes and consequences of the affordability problem and presents creative and detailed proposals for solving a problem that afflicts one third of this nation Setting the housing crisis into broad political economic and historical contexts Stone asks What is shelter poverty Why does it exist and persist and How can it be overcome Describing shelter poverty as the denial of a universal human need Stone offers a quantitative scale by which to measure it and reflects on the social and economic implications of housing affordability in this country He argues for the right to housing and presents a program for transforming a large proportion of the housing in this country from an expensive commodity into an affordable social entitlement Employing new concepts of housing ownership tenure and finance he favors social ownership in which market concepts have a useful but subordinate role in the identification of housing preferences and allocation Stone concludes that political action around shelter poverty will further the goal of achieving a truly just and democratic society that is also equitably and responsibly productive and prosperous

Extension of Rent Control United States. Congress. Senate. Committee on Banking and Currency,1948 **Extension of Rent Control** United States. Congress. Senate. Committee on Banking and Currency. Subcommittee on Housing and Rents,1948 Housing Betterment #Apr. 1921#-1927 ,1925 Housing Betterment ,1927

Living the Revolution Jennifer Guglielmo,2010-05-03 Italians were the largest group of immigrants to the United States at the turn of the twentieth century and hundreds of thousands led and participated in some of the period s most volatile labor strikes Jennifer Guglielmo brings to life the Italian working class women of New York and New Jersey who helped shape the vibrant radical political culture that expanded into the emerging industrial union movement Tracing two generations of women who worked in the needle and textile trades she explores the ways immigrant women and their American born daughters drew on Italian traditions of protest to form new urban female networks of everyday resistance and political activism She also shows how their commitment to revolutionary and transnational social movements diminished as they became white working class Americans

The Aims of Argument Timothy W. Crusius,Carolyn E. Channell,1994 This brief version of The Aims of Argument Third Edition contains all the material in Part I of the longer version as well as the two appendixes Only the readings in Part II are excluded giving each instructor the flexibility to choose whatever readings he or she wants For key features of the text and a detailed table of contents please see the preceding entry **Extension of Rent Control, 1950** United States. Congress. House. Banking and Currency Committee,1950
