## Reoad Of Ages 1st Edition:

**American Road** Pete Davies, 2014-01-14 A fascinating account of the greatest road trip in American history On July 7 1919 an extraordinary cavalcade of sixty nine military motor vehicles set off from the White House on an epic journey Their goal was California and ahead of them lay 3 250 miles of dirt mud rock and sand Sixty two days later they arrived in San Francisco having averaged just five miles an hour Known as the First Transcontinental Motor Train this trip was an adventure a circus a public relations coup and a war game all rolled into one As road conditions worsened it also became a daily battle of sweat and labor of guts and determination American Road is the story of this incredible journey Pete Davies takes us from east to west bringing to life the men on the trip their trials with uncooperative equipment and weather and the punishing landscape they encountered Ironically one of the participants was a young soldier named Dwight Eisenhower who four decades later as President launched the building of the interstate highway system Davies also provides a colorful history of transcontinental car travel in this country including the first cross country trips and the building of the Lincoln Highway This richly detailed book offers a slice of Americana a piece of history unknown to many and a celebration of our love affair with the road

The American Road Katherine M. Johnson, 2021-06-23 In *The American Road* Katherine M Johnson develops a bold new theory for how the American highway system has taken on such outsized scale and complexity by emphasizing the emergence of a powerful administrative apparatus in the American federal system Established in 1914 expressly to intervene in the congressional debates of the era the American highway bureaucracy consisted of forty eight state highway officials acting in and through their self organized association the American Association of State Highway Officials Johnson's central argument is that this new institution occupied a similar position relative to the American state as political parties and courts did The capacity to organize across a complex constitutional order enabled it to control the purpose and allocation of federal highway aid for the better part of the twentieth century Johnson investigates this new conception of the American highway bureaucracy showing specifically where and how that extraconstitutional authority emerged expanded and manifested itself in the legislative history physical dimensions and geographical reach of the emerging highway system *The American Road* reveals that all of the major highway legislation approved by Congress from 1916 to 1941 was collectively developed and advanced by state and federal highway bureaucrats drawing on the new authority conferred by the system of federal grants in aid which required state legislatures to provide a state matching grant and local governments to relinquish control over decisions of location and design The capacity to advance their policy aims through both the advice of experts and the will of the states not only secured the new highway program against renewed opposition in Congress in the 1920s but also won the strong support of the motor vehicle industry and set the stage for even more impressive policy gains of the 1930s when highways became the largest category of federal emergency public works That collective authority however required a high threshold of consensus to secure and maintain producing not just a narrow one size fits all approach to technical issues but

also a striking incapacity to respond to changing conditions Johnson completes her compelling narrative by identifying the source of the interstate highway plan first proposed in 1939 and finally funded in 1956 in the internal dynamics of and external threats to that extraconstitutional authority

**North American Railroad Bridges** Brian Solomon,2008 **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1904 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1949 Includes Part 1A Books and Part 1B Pamphlets Serials and Contributions to Periodicals American Journey: On the Road with Henry Ford, Thomas Edison, and John Burroughs Wes Davis,2023-06-06 Jaunty Davis excels in making his characters come alive on the page Christoph Irmscher Wall Street Journal The epic road trips and surprising friendship of John Burroughs nineteenth century naturalist and Henry Ford and Thomas Edison inventors of the modern age In 1913 an unlikely friendship blossomed between Henry Ford and famed naturalist John Burroughs When their mutual interest in Ralph Waldo Emerson led them to set out in one of Ford s Model Ts to explore the Transcendentalist s New England the trip would prove

to be the first of many excursions that would take Ford and Burroughs together with an enthusiastic Thomas Edison across America. Their road trips increasingly ambitious in scope transported members of the group to the 1915 Panama Pacific International Exposition in San Francisco, the Adirondacks of New York and the Green Mountains of Vermont, finally paving the way for a grand 1918 expedition through southern Appalachia. In many ways, their timing could not have been worse. With war raging in Europe and an influenza pandemic that had already claimed thousands of lives abroad beginning to plague the United States, it was an inopportune moment for travel. Nevertheless, each of the men who embarked on the 1918 journey would subsequently point to it as the most memorable vacation of their lives. These travels profoundly influenced the way Ford, Edison and Burroughs viewed the world, nudging their work in new directions through a transformative decade in American history. In *American Journey*, Wes Davis re-creates these landmark adventures through which one of the great naturalists of the nineteenth century helped the men who invented the modern age reconnect with the natural world and reimagine the world they were creating.
