Répertoire de la Jurisprudence Arbitrale Internationale / Repertory of International Arbitral Jurisprudence Pierre Michel Eisemann, Vincent Coussirat-Coustère, 2024-12-02 *Repertory of International Arbitral Jurisprudence* Vincent Coussirat-Coustère, 1990-11-01 *Repertory of International Arbitral Jurisprudence* Vincent Coussirat-Coustère, Pierre Michel Eisemann, 1989 *Répertoire de la Jurisprudence Arbitrale Internationale-Repertory of International Arbitral Jurisprudence* Vincent Coussirat-Coustère, 1990-11-01 **Répertoire de la Jurisprudence Arbitrale Internationale:**

1946-1988 (2 v.) Vincent Coussirat-Coustère, Pierre Michel Eisemann, 1989 **International Arbitral Jurisdiction** C. Ranjan Felix Amerasinghe, 2011-02-14 Examining the jurisdiction of international arbitral tribunals International Arbitral Jurisdiction establishes general principles relating to such jurisdiction The study refers to the principles of consent and its limitations and also deals with such matters as interpretation of compromis and incidental jurisdiction Arbitration in Complex International Contracts Joachim Frick, 2001-10-24 The technical economic and social development of the last one hundred years has created a new type of long term contract which one may call Complex International Contract Typical examples include complex civil engineering and constructions contracts as well as joint venture shareholders project finance franchising cooperation and management agreements The dispute resolution mechanism which normally deals with such contracts is commercial arbitration which has been deeply affected in recent decades by attempts to improve its capabilities Most importantly there is the trend towards further denationalization of arbitration with respect to the applicable substantive law In this regard a new generation of conflict rules no longer imposes on the arbitrators a particular method to be applied for the purpose of determining the applicable rules of law Moreover arbitration more frequently took on the task of adapting Complex International Contracts to changed circumstances Also special rules have been developed for so called multi party arbitration and fast track arbitration facilitating efficient dispute resolution The author describes these trends both from a practical as well as a theoretical perspective evaluating not only the advantages but also the risks involved with the new developments in arbitration Relevant issues with respect to the drafting and renegotiation of such contracts are also

discussed **Intervention in the International Court of Justice** Shabtai Rosenne, 1993-05-24 Preface Jurisdiction of International Tribunals Chittharanjan Félix Amerasinghe, 2003 3 Who may refer International Courts for the Twenty-First Century Mark W. Janis, 2023-11-27 This book edited by Mark W Janis examines the evolution and future prospects of international courts as we advance into the twenty first century It reflects on past achievements of international tribunals throughout the twentieth century and explores how they can be refashioned to meet contemporary legal and political needs The collection of essays by various legal scholars covers a wide range of topics including classical universal institutions regional international courts and specialized international tribunals The book also aligns with the United Nations Decade of

International Law aiming to contribute to the progressive development of international adjudication It is intended for legal scholars practitioners and policy makers interested in international law and the development of global judicial processes

The Settlement of Disputes Involving International Organizations August Reinisch, 2025-07-31 Disputes involving international organizations arise on both the international level as well as the level of domestic law These range from headquarters issues between States and international organizations to disputes between members as well as non members and international organizations which are settled before such diverse mechanisms as WTO ITLOS or regional international economic organization adjudication or arbitration In addition negotiation mediation and fact finding as non adjudicatory means of dispute settlement may be resorted to The more frequently arising disputes with private parties may be settled before international courts administrative tribunals arbitral tribunals and even national courts although the role of the latter is usually more limited because of the jurisdictional immunity regularly enjoyed by international organizations Based on an empirical overview of dispute settlement policy issues like access to justice the limited jurisdiction of courts and tribunals due process and adequate mechanisms of dispute settlement are discussed and some recommendations are made The American Society of International Law's First Century Frederic L. Kirgis, Jr., 2006 From the historic launch of the organization by such luminaries as Elihu Root and Charles Evans Hughes to the recent era when international law is more and more in the public realm Kirgis's book traces the evolution of the organization and its relationship to events in the United States and around the world As he says in the preface In the end the reader will have to make his/her own judgment about how well the Society has run the course it set out for itself in 1906 I hope this book will provide a basis for that judgment And of course no judgment at this stage can be final The American Society of International Law will carry on into its second century with new and continuing programs that take into account what it has done in its first one hundred years It will continue to do its best to demonstrate not only what international law is or should be but also that in the words of former ASIL President Louis Henkin international law matters *The International Law of State Responsibility* Robert Kolb, 2017-04-28 This highly readable book examines the law of State responsibility presenting it as a fundamental aspect of public international law Covering the key aspects of the topic it combines a clear overview with use of specific case studies in order to provide a deeper understanding **Power in the International Investment Framework** Maria A. Gwynn, 2016-07-26 This book offers a unique analysis of bilateral investment treaties BITs By developing a new power focused paradigm for understanding the international investment framework the author illustrates why there was no paradoxical behaviour when developing countries agreed to the BIT regime and what has spurred their reaction against it now She also examines how attempts to regulate investment at a multilateral level have failed and why the rules of the framework are evolving Inspired by the work of Susan Strange Gwynn fills a significant lacuna in our understanding of these issues by demonstrating how power determines the actions of all those involved This holistic reinterpretation of international

investment focuses in particular on Latin America but has wider implications for the negotiation of new treaties including such controversial provisions as the Transatlantic Trade and Investment Partnership It will appeal to lawyers economists political scientists and scholars of Latin America **Good Faith in International Law** Robert Kolb, 2017-07-13 There is a great degree of controversy on the proper complexion and role of general principles of law in the international legal order Opinions range from total rejection of some types of principles to the most enthusiastic endorsement of principles as the necessary oil for the many complex wheels of the legal order In this book one of the leading public lawyers of his generation explores the concept of good faith and its role in international law Rather than offer a detailed comprehensive examination Kolb aims to map the true points of gravity of the principle of good faith in the international legal order In so doing he illustrates how the various legal institutions who operate in the sphere of public international law allow the principle of good faith to unfold The World Court Shabtai Rosenne, 2023-12-21 This series aims to provide authoritative guidance on all aspects of the law of international organizations This area of law has over the years developed into a separate field of study within the discipline of public international law While it covers the law of individual organizations such as the United Nations the World Trade Organization the International Criminal Court and the European Union it also includes thematic institutional law topics such as membership decision making legal personality and responsibility of international organizations In these and other areas international organizations face similar questions and share a number of common characteristics The series aims to include works written by practitioners as well as academics *International Law Reports* E. Lauterpacht, C. J. Greenwood, A. G. Oppenheimer, 1997-12-04 A unique and essential work of reference for the international lawyer

International Organizations Before National Courts August Reinisch, 2000-04-13 A radical empirical investigation of how national courts react to disputes involving international organizations Through comprehensive analysis of the attitudes and techniques of national courts and underlying political motives Professor Reinisch first describes various legal approaches that result in adjudication or non adjudication of disputes concerning international organizations Secondly he discusses policy issues pro and contra the adjudication of such disputes His study then scrutinizes the rationale for immunizing international organizations from domestic litigations especially the functional need for immunity and substantially debates the implications of a human rights based right of access to court on immunizing international organizations against national jurisdictions Finally he identifies contemporary trends seeking to ascertain whether a more flexible principle exempting certain types of disputes from domestic adjudication might substitute for the traditional immunity concept which would simultaneously guarantee the functioning and independence of international organizations without impairing private parties access to a fair dispute settlement procedure **Collection of Procedural Decisions in ICC Arbitration (1993-1996)** Dominique Hascher, 1997-10-22 The Collection of Procedural Decisions in ICC Arbitration 1993 1996 contains the procedural decisions rendered by ICC arbitrators published in a single volume for the first time In addition to providing procedural

decisions in their original language this book includes commentaries on the decisions key words in both English and French and explanatory notes of interest in English Two useful indexes guide the reader to points of specific interest The analytical index provided in both English and French is based on terminology used in decisions and case notes while the table of cross referenced cases provides citations to the Journal du Droit International A bibliography and tables containing the judicial and arbitral authorities cited provide useful reference information The collection also includes the ICC and UNCITRAL Arbitration Rules as well as the IBA Rules on Evidence providing the reader with the full range of materials regarding the conduct of international arbitration This collection is an indispensable reference work for anyone seeking to be informed about the conduct of international arbitration Invaluable for all international arbitration practitioners this book offers the reader solutions to pitfalls in arbitration proceedings by the most talented international arbitrators
