 Studies provides a comprehensive introduction to the academic field of curriculum studies for the scholar student teacher
 and administrator The study of curriculum beginning in the early 20th century served primarily the areas of school
 administration and teaching and was seen as a method to design and develop programs of study The field subsequently
 expanded to draw upon disciplines from the arts humanities and social sciences and to examine larger educational forces and
 their effects upon the individual society and conceptions of knowledge Curriculum studies has now emerged to embrace an
 expansive and contested conception of academic scholarship while focusing upon a diverse and complex dynamic among
 educational experiences practices settings actions and theories in relation to personal and institutional needs and interests
 The Encyclopedia of Curriculum Studies serves to inform and to introduce terms events documents biographies and concepts
