Report Of The United Nations High Commis:

The 1951 Convention Relating to the Status of Refugees and its 1967 Protocol ,2024-01-10 The Convention Relating to the Status of Refugees adopted on 28 July 1951 in Geneva continues to provide the most comprehensive codification of the rights of refugees yet attempted Consolidating previous international instruments relating to refugees the 1951 Convention with its 1967 Protocol marks a cornerstone in the development of international refugee law At present there are 149 States Parties to one or both of these instruments expressing a worldwide consensus on the definition of the term refugee and the fundamental rights to be granted to refugees These facts demonstrate and underline the extraordinary significance of these instruments as the indispensable legal basis of international refugee law This Commentary provides for a systematic and comprehensive analysis of the 1951 Convention and the 1967 Protocol on an article by article basis exposing the interrelationship between the different articles and discussing the latest developments in international refugee law In addition several thematic contributions analyse questions of international refugee law which are of general significance such as regional developments the interrelationship between refugee law and general human rights law as well as the relationship between refugee law and the law of the sea *The Rise and Decline of a Global Security Actor* Anne Hammerstad,2014-02 The Rise and Decline of a Global Security Actor investigates the rise of the UNHCR as a global security actor and follows the refugee agency through some of the past two decades major conflict induced humanitarian emergencies including Afghanistan Bosnia Iraq Kosovo and Zaire Congo **The Department of State Bulletin** ,1972

Masses in Flight Roberta Cohen,Francis M. Deng,2012-01-27 Since the end of the Cold War increasing numbers of people have been forced to leave their homes as a result of armed conflict internal strife and systematic violations of human rights Whereas refugees crossing national borders benefit from an established system of international protection and assistance those who are displaced internally suffer from an absence of legal or institutional bases for their protection and assistance from the international community This book analyzes the causes and consequences of displacement including its devastating impact both within and beyond the borders of affected countries It sets forth strategies for preventing displacement a special legal framework tailored to the needs of the displaced more effective institutional arrangements at the national regional and international levels and increased capacities to address the protection human rights and reintegration and development needs of the displaced *Oppenheim's International Law: United Nations* Rosalyn Higgins,Philippa Webb,Dapo Akande,Sandesh Sivakumaran,James Sloan,2018-12-13 The United Nations whose specialized agencies were the subject of an Appendix to the 1958 edition of Oppenheim s International Law Peace has expanded beyond all recognition since its founding in 1945 This volume represents a study that is entirely new but prepared in the way that has become so familiar over succeeding editions of Oppenheim An authoritative and comprehensive study of the United Nations legal practice this volume covers the formal structures of the UN as it has expanded over the years and all that this complex organization does All

substantive issues are addressed in separate sections including among others the responsibilities of the UN financing immunities human rights preventing armed conflicts and peacekeeping and judicial matters In examining the evolving structures and ever expanding work of the United Nations this volume follows the long held tradition of Oppenheim by presenting facts uncoloured by personal opinion in a succinct text that also offers in the footnotes a wealth of information and ideas to be explored It is book that while making all necessary reference to the Charter the Statute of the International Court of Justice and other legal instruments tells of the realities of the legal issues as they arise in the day to day practice of the United Nations Missions to the UN Ministries of Foreign Affairs practitioners of international law academics and students will all find this book to be vital in their understanding of the workings of the legal practice of the UN Research for this publication was made possible by The Balzan Prize which was awarded to Rosalyn Higgins in 2007 by the International Balzan Foundation

The Oxford Handbook of the Responsibility to Protect Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade

Grievous Religious Persecution Werner Nicolaas Nel, 2020-12-29 Nel focuses on grievous religious persecution as one manifestation of crimes against humanity In spite of shocking reports in recent years about mass scale atrocities the issue of religious persecution so far has received comparatively limited attention in academic literature By meticulously putting together the various elements that jointly define religious persecution Nel s dissertation fills a frequently felt gap Moreover he reminds us that humanity cannot remain silent about manifestations of grievous religious persecution which after all are crimes against humanity as a whole International criminal law must be applied to overcome the gloating triumph of perpetrators over their victims From the foreword by Prof Dr Heiner Bielefeldt former U N Special Rapporteur on freedom of religion or belief

The United Nations and Human Rights Frédéric Mégret, Philip Alston, 2020-04-02 The very concept of human rights implies governmental accountability To ensure that governments are indeed held accountable for their treatment of citizens and others the United Nations has established a wide range of mechanisms to monitor compliance and to seek to prevent as well as respond to violations The panoply of implementation measures that the UN has taken since 1945 has resulted in a diverse and complex set of institutional arrangements the effectiveness of which varies widely Indeed there is much doubt as to the effectiveness

of much of the UN's human rights efforts but also about what direction it should take. Inevitable instances of politicization and the hostile or at best ambivalent attitude of most governments has at times endangered the fragile progress made on the more technical fronts. At the same time technical efforts cannot dispense with the complex politics of actualizing the promise of human rights at and through the UN. In addition to significant actual and potential problems of duplication, overlapping and inconsistent approaches, there are major problems of underfunding and insufficient expertise. The complexity of these arrangements and the difficulty in evaluating their impact makes a comprehensive guide of the type provided here all the more indispensable. These essays critically examine the functions, procedures and performance of each of the major UN organs dealing with human rights, including the Security Council and the International Court of Justice, as well as the more specialized bodies monitoring the implementation of human rights treaties. Significant attention is devoted to the considerable efforts at reforming the UN's human rights machinery, as illustrated most notably by the creation of the Human Rights Council to replace the Commission on Human Rights. The book also looks at the relationship between the various bodies and the potential for major reforms and restructuring.

Non-State Actors at the United Nations Jan Lüder, 2022-08-05 This book explores the role and relevance of non-state actors (NSAs) in the international system by analyzing the ways these actors gain influence in the United Nations. UN Offering a systematic theoretical and empirical account of how NSAs contest and potentially change state sovereignty through the UN, the author considers the successes and failures of national liberation movements and indigenous peoples and examines how and under what conditions such a challenge is possible. This book will be of great interest to scholars and graduate students in the fields of international law, politics, history, human rights and governance. It will be especially useful to those with an interest in the proliferation of non-state actors in the international system and the role and relevance of Intergovernmental Organizations.

Regime Accommodation in International Law Heejin Kim, 2016-07-18 In *Regime Accommodation in International Law: Human Rights in International Economic Law and Policy*, Heejin Kim analyses the ways in which international human rights and economic law interact and conflict across a range of complex issues. These sub-branches of international law are not entirely autonomous as the author shows; they have been developed in a close relation to each other. International law, imperfect as it is, provides means to resolve the antinomies arising from conflicting rights and obligations under these sub-fields. Against the difficulties of addressing non-economic concerns, including human rights in the practice of WTO and foreign investment regime, Kim examines how decision makers at different stages of international economic policy making can accommodate, invoke or reflect human rights in a better way.
