Reconsidering the Institutions of Canadian Federalism J. Peter Meekison, Hamish Telford, Harvey Lazar, 2004 Beginning with an examination of the role of traditional institutions such as Parliament Cabinet the Supreme Court and political parties Canada State of the Federation 2002 affirms the long held belief that these bodies do not provide effective forums for interregional bargaining creating a void that has been filled at least in part by executive federalism Contributors conclude that the performance of traditional institutions taken as a whole has deteriorated over the last several decades placing more pressure on the processes of executive federalism *Canada and the Global Economy* John N. H. Britton, 1996 An analysis of geographic trends in the Canadian economy studying patterns of development consumption shifts in employment and the locational behavior of industries The 24 essays written by Canadian economic geographers explore themes in regards to the openness of the Canadian economy its simple economic geography in regional variation of resources and urban development its rapid advances in technology and the role of government in national and international markets Canadian card order number C96 900023 5 Annotation copyright by Book News Inc Portland OR **Can Canada Survive?** David M. Hayne, 1997-12-15 Canada is facing a critical period in its history The Royal Society of Canada believed it had the responsibility to instigate both deep reflection and debate within the vast and diverse intellectual network it represents throughout Canada In November 1996 the Fellows of all three Academies of the Society gathered to discuss perspectives on Canada s future **Neural Networks** Ranjodh Singh Dhaliwal, Théo LePage-Richer, Lucy Suchman, 2024-04-09 A critical examination of the figure of the neural network as it mediates neuroscientific and computational discourses and technical practices Neural Networks proposes to reconstruct situated practices social histories mediating techniques and ontological assumptions that inform the computational project of the same name If so called machine learning comprises a statistical approach to pattern extraction then neural networks can be defined as a biologically inspired model that relies on probabilistically weighted neuron like units to identify such patterns Far from signaling the ultimate convergence of human and machine intelligence however neural networks highlight the technologization of neurophysiology that characterizes virtually all strands of neuroscientific and AI research of the past century Taking this traffic as its starting point this volume explores how cognition came to be constructed as essentially computational in nature to the point of underwriting a technologized view of human biology psychology and sociability and how countermovements provide resources for thinking otherwise From UI to EI Georges Campeau, 2005 Established in 1940 in response to the Great Depression the original goal of Canada s system of unemployment insurance was to ensure the protection of income to the unemployed Joblessness was viewed as a social problem and the jobless as its unfortunate victims If governments could not create the right conditions for full employment they were obligated to compensate people who could not find work While unemployment insurance expanded over several decades to the benefit of the rights of the unemployed the mid 1970s saw the first stirrings of a

counterattack as the federal government's Keynesian strategy came under siege Neo liberals denounced unemployment insurance and other aspects of the welfare state as inflationary and unproductive Employment was increasingly thought to be a personal responsibility and the handling of the unemployed was to reflect a free market approach This regressive movement culminated in the 1990s counter reforms heralding a major policy shift The number of unemployed with access to benefits was halved during that time From UI to EI examines the history of Canada's unemployment insurance system and the rights it grants to the unemployed The development of the system its legislation and related jurisprudence are viewed through a historical perspective that accounts for the social political and economic context Campeau critically examines the system with emphasis upon its more recent transformations This book will interest professors and students of law political science and social work and anyone concerned about the right of the unemployed to adequate protection *Literary History of Canada* William H. New, Carl Berger, Alan Cairns, Frances G. Halpenny, Henry Kreisel, Douglas Lochhead, Philip Stratford, Clara Thomas, 1990-12-15 This new volume of the *Literary History of Canada* covers the continuing development of English Canadian writing from 1972 to 1984 As with the three earlier volumes this book is an invaluable guide to recent developments in English Canadian literature and a resource for both the general reader and the specialist researcher The contributors to this volume are Laurie Ricou David Jackel Linda Hutcheon Philip Stratford Barry Cameron Balachandra Rajan Robert Fothergill Brian Parker Cynthia Zimmerman Frances Frazer Edith Fowke Bruce G. Trigger Alan C. Cairns Douglas Williams Carl Berger Shirley Neuman Raymond S. Corteen and Frances G. Phillips, 1993 The Canadian Senate in Bicameral Perspective David E. Smith, 2017-06-22 The Canadian Senate in Bicameral Perspective is the first scholarly study of the Senate in over a quarter century and the first analysis of the upper house as one chamber of a bicameral legislature David E. Smith's aim in this work is to demonstrate the interrelationship of the two chambers and the constraints this relationship poses for Senate reform He analyses past literature on the Senate and current proposals for reform such as a Triple E Senate and compares Canada's upper chamber with those of Australia the United States Germany and the United Kingdom noting a revival of interest in Canada and abroad in upper chambers and

bicameralism Drawing on parliamentary debates and committee reports as well as a range of broad secondary sources The Canadian Senate in Bicameral Perspective examine the Canadian Senate within the international context shedding light on its role as a political institution and arguing for a renewed investigation into its future

**The State, Business, and Industrial Change in Canada** Michael M. Atkinson, William D. Coleman, 1989-12-15 The late twentieth century has seen profound changes in the character of the international economic order According to the authors of this study Canada has failed to come to terms with those changes Our industrial policy is diffuse ad hoc and sectoral Michael Atkinson and William Coleman argue that in order to analyse Canada's industrial policy effectively particular attention must be given to industry organization state structures and systems of interest intermediation at the sectoral level To make such an analysis they introduce the concept of policy network and apply it to three types of industrial sectors the research intensive sectors of telecommunications manufacturing and pharmaceuticals the rapidly changing sectors of petrochemicals and meat processing and the contracting and troubled sectors of textiles clothing and dairy processing Through the lens of these sectors Coleman and Atkinson shed considerable light on the intersection of political considerations and policy development and offer a new base on which to move forward in planning for economic growth

**The Art of the State** Thomas J. Courchene, Donald J. Savoie, Institute for Research on Public Policy, 2003 The Art of the State brings together political scientists and economists to look at governing and governance in an increasingly globalized world It explores ways in which democratic governance can survive in a globalized environment and suggests how to combat disillusionment

**Government of Canada Publications, Quarterly Catalogue**, 1986

**Legislatures** David Campbell Docherty, 2005 Legislatures and the men and women who serve in them form the very heart of Canadian democracy After all with the very rare exception of nationwide referendums Canadians speak collectively only when voting for the people who will be representing their interests in Ottawa The same is true provincially But how democratic are legislative assemblies in Canada After we elect our representatives are we comfortable that we are being properly and democratically represented Apparently not respect for legislatures and legislators in Canada has steadily declined and this perception is only aggravated by the current political climate Legislatures provides a democratic audit of Canada's provincial and national representative assemblies It argues that the problem existing in these bodies is not a lack of talent so much as a lack of institutional freedom Specifically the problem is largely one of resources and rules The move to a more multi party system nationally and the increasing tendency to downsize provincial assemblies has placed additional hurdles in the path to good governance Docherty uses the series criteria of responsiveness inclusiveness and participation to evaluate critically the performance of legislatures in Canada and makes recommendations for legislative reform in Canada A crucial and timely overview of legislatures this book will appeal to students and scholars of Canadian politics as well as politicians and policymakers and anyone interested in the current state

of Canadian democracy      United States/Canada Economic Relations United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Economic Stabilization, 1987      **The State in Transition** Michael Behiels, François Rocher, 2022-08-10 Canadian federalism as a particular form of political organization for a complex society with multiple economic political geographic cultural and national divides faces important challenges The political realignment that brought the Conservative Party to power in the last quinquennium has set in motion a significant transformation of the Canadian state and its federal system of governance The contributors in this collection focus on three recurrent themes the issues arising from the management of ethno cultural diversity the existence of internal nations in Canada the First Nations and the Quebec nation in Quebec the presence of linguistic minorities French and English and the questions of identity linked to citizenship in a federal context that allows for the presence of multiple loyalties and the specific challenges raised by globalization and the extension of economic integration particularly between the United States and Canada This collection of studies on the role of the state reveals that our understanding of the evolution of the Canadian state and of the ensuing impact on federalism and federal provincial relations is not as complete as it should be
