Republicanism in Northeast Asia Jun-Hyeok Kwak,Leigh Jenco,2014-11-13 As rapid economic development brings increasing uncertainty in East Asia interest in a new version of republicanism termed iscalled neo Roman republicanism is growing across the region Conceptualized as liberty as non domination this new form of republicanism has inspired not only Western but also East Asian political theorists However neo Roman republican ideas in Northeast Asian countries continue to face serious conceptual and political challenges which scholarly literature on both republicanism and on East Asian politics has largely failed to confront This book addresses these challenges by surveying the latest theoretical contributions to the studies of republicanism in Western countries and the latest interpretations of how republicanism including both communitarian republicanism and neo Roman republicanism has been appropriated in countries in East Asia In particular it deals with the key question of whether liberty as non domination can work in non Western contexts where the fundamental tenets of liberal democracy such as moral individualism and value pluralism do not predominate Across three sections the chapters first provide a conceptual overview of republicanism as a global political theory they then consider how republicanism has historically been received resisted and translated into East Asia and

Finally they examine how historically informed possibilities fit with the emergent needs of contemporary Northeast Asian societies Overall the contributors show that republicanism is an always ongoing project whose terms must be interpreted and translated into the various communities they inform Normative considerations about whether or how republicanism applies in East Asia cannot be divorced from historical and empirical approaches which consider the various ways in which republican ideals reflect the realities of life there Dealing with the issue of republicanism from a new comparative perspective this book will have broad appeal to students and scholars of Asian studies comparative political theory political philosophy sociology and history

Romanticism, Republicanism, and the Swiss Myth Patrick Vincent, 2022-12-22 The first detailed treatment of Switzerland in British literature and culture from Joseph Addison to John Ruskin this book analyzes the aesthetic and political uses of what is commonly called the Swiss myth in the parallel development of Romanticism and liberalism The myth merged the country's legends going back to the Middle Ages with the Enlightenment image of a happy free nation of alpine shepherds Its unique combination of conservative progressive and radical associations enabled writers before the French Revolution to call for democratic reforms whereas those coming after could refigure it as a conservative alternative to French liberty Integrating intellectual history with literary studies and addressing a wide range of Romantic period texts and authors among them Byron the Shelleys Hemans Scott Coleridge and above all Wordsworth the book argues that the myth contributed to the liberal idea of the people as a sublime yet sleeping sovereign

Domination and Global Political Justice Barbara Buckinx, Jonathan Trejo-Mathys, Timothy Waligore, 2015-02-11 Domination consists in subjection to the will of others and manifests itself both as a personal relation and a structural phenomenon serving as the context for relations of power Domination has again become a central political concern through the revival of the republican tradition of political thought not to be confused with the US political party However normative debates about domination have mostly remained limited to the context of domestic politics Also the republican debate has not taken into account alternative ways of conceptualizing domination Critical theorists liberals feminists critical race theorists and postcolonial writers have discussed domination in different ways focusing on such problems as imperialism racism and the subjection of indigenous peoples This volume extends debates about domination to the global level and considers how other streams in political theory and nearby disciplines enrich expand upon and critique the republican tradition's contributions to the debate This volume brings together for the first time mostly original pieces on domination and global political justice by some of this generation's most prominent scholars including Philip Pettit James Bohman Rainer Forst Amy Allen John McCormick Thomas McCarthy Charles Mills Duncan Ivison John Maynor Terry Macdonald Stefan Gosepath and Hauke Brunkhorst

Deliberative Freedom Christian F. Rostboll, 2008-06-13 In *Deliberative Freedom* Christian F Rostboll accepts the common belief that democracy and freedom are intimately related but he sees this relationship in a new and challenging way Rostboll argues that deliberative democracy is normatively committed to multiple dimensions of freedom and that this in turn makes it a distinct model of

democracy He presents a new version of deliberative democracy that rejects the prevailing synthesis of Habermasian critical theory and Rawlsian political liberalism and contends that this synthesis obscures and neglects important concerns in terms of freedom and emancipation In addition Rostb ll explores how the many dimensions of freedom supply a new and fruitful way to address issues such as paternalism elitism rationalism and neutrality *The Social and Political Philosophy of Mary Wollstonecraft* Sandrine Bergès, Alan Coffee, 2016-11-10 Interest in the contribution made by women to the history of philosophy is burgeoning Intense research is underway to recover their works which have been lost or overlooked At the forefront of this revival is Mary Wollstonecraft While she has long been studied by feminists and later discovered by political scientists philosophers themselves have only recently begun to recognise the value of her work for their discipline This volume brings together new essays from leading scholars which explore Wollstonecraft s range as a moral and political philosopher of note both taking a historical perspective and applying her thinking to current academic debates Subjects include Wollstonecraft s ideas on love and respect friendship and marriage motherhood property in the person and virtue and the emotions as well as the application her thought has for current thinking on relational autonomy and animal and children s rights A major theme within the book places her within the republican tradition of political theory and analyses the contribution she makes to its conceptual resources **Theorizing European Integration** Dimitris N.

Chryssochoou, 2008-10-02 Fully revised and updated throughout *Theorizing European Integration* 2nd edition provides a comprehensive introduction to the theoretical study of European integration Combining perspectives from international relations comparative politics and social and political theory Dimitris N Chryssochoou offers a complete overview of the many competing approaches that have sought to capture and explain the evolving political nature of the European Union EU and its qualitative transition from a union of states to a polity in its own right Contemporary issues themes and theories addressed include the different uses and current state of EU theorizing statecentric accounts of integration and their critics new normative challenges to the study of the EU the political dynamics of European treaty reform new forms of democracy citizenship and governance the limits and possibilities of EU constitutionalism interdisciplinary understandings of EU polityhood the introduction of a theory of organized synarchy the transformations of state sovereignty in late modern Europe

Republicanism Cécile Laborde, 2008-10-09 The first comprehensive analysis of the philosophical issues raised by the hijab controversy in France this book also conducts a dialogue between contemporary Anglo American and French political theory and defends a progressive republican solution to so called multicultural conflicts in contemporary societies It critically assesses the official republican philosophy of la cit which purported to justify the 2004 ban on religious signs in schools La cit is shown to encompass a comprehensive theory of republican citizenship centered on three ideals equality secular neutrality of the public sphere liberty individual autonomy and emancipation and fraternity civic loyalty to the community of citizens Challenging official interpretations of la cit the book then puts forward a critical republicanism which does not support the hijab ban yet upholds a revised interpretation of three central republican commitments secularism non domination and civic solidarity Thus it articulates a version of secularism which squarely addresses the problem of status quo bias the fact that Western societies are historically not neutral towards all religions It also defends a vision of female emancipation which rejects the coercive paternalism inherent in the regulation of religious dress yet does not leave individuals unaided in the face of religious and secular patriarchal and ethnocentric domination Finally the book outlines a theory of immigrant integration which places the burden of civic integration on basic socio political institutions rather than on citizens themselves Critical republicanism proposes an entirely new approach to the management of religious and cultural pluralism centred on the pursuit of the progressive ideal of non domination in existing non ideal societies Oxford Political Theory presents the best new work in contemporary political theory It is intended to be broad in scope including original contributions to political philosophy and also work in applied political theory The series will contain works of outstanding quality with no restriction as to approach or subject matter Series Editors Will Kymlicka David Miller and Alan Ryan
