Kevin Synnott, 2001 The purpose of this study was to examine the effect of clarifying students misperceptions regarding their peers consumption of alcohol and feelings of comfort in drinking situations Quantitative and qualitative approaches were used to determine if providing students with information would impact on their perceptions A posttest only control group experimental design was employed to investigate the efficacy of clarifying students misperceptions The experimental group was provided with information gleaned from the literature regarding students misperceptions Participants were administered a questionnaire developed for this study to determine a their drinking habits i e frequency and quantity b how comfortable they feel in drinking situations c their perceptions regarding their peers drinking habits and d their perceptions regarding how comfortable their peers feel in drinking situations The findings included a students overestimated the alcohol consumed by their peers b students inaccurately believed that their peers are more comfortable in drinking situations than they are themselves and c information appears to have clarified female students misperceptions associated with feelings of comfort in drinking situations A theory grounded in reality Corbin **Recent Department of Education Publications in ERIC** United States. Department of Education, 1995 **Substance Abuse on Campus** P. Clayton Rivers, Elsie R. Shore, 1997-11-25 Substance abuse is one of higher education s worst problems not only in terms of financial but also human cost Drawing upon current theory and research this handbook arrives at practical solutions to these problems While there are divergent models of research and practice in substance abuse which have led to competing models of intervention treatment and prevention this book seeks to reconcile those differences It allows the reader to understand substance abuse from theoretical research perspectives and guides the reader from conceptualization to programming to intervention with the substance abusing student The book is divided into three parts The first deals with ways of conceptualizing substance abuse and the models which have been the basis for developing intervention strategies

Theories of how substance abuse problems develop are discussed and some suggestions are given as to how these theories may guide prevention intervention and treatment The second part focuses on how one should establish policies and programming on campus and how these programming and policy decisions can help in prevention strategies The final part outlines how one can assess intervene and provide treatment for a substance abuser Included here is a chapter on self help groups and how they may be used in support of treatment and aftercare [Monthly Catalog of United States Government Publications](#), 1994 *Violence on Campus* Allan Michael Hoffman, John H. Schuh, Robert H. Fenske, 1998 This unique book addresses violence on campus and its impact on America's colleges and universities from a practical management perspective Each chapter builds on a theoretical base to provide guidance strategies and a multidisciplinary approach to successfully dealing with this growing issue Nearly 400 pages *Violence on Campus* is a unique blend of in depth research and actual case studies of programs that have been employed to reduce on campus violent crime If you're like most people you're being asked to handle more than ever before But chances are you're being asked to do it with the same or even fewer resources *Violence on Campus Defining the Problems Strategies for Action* is a vital tool to help you do your job better
