Research In Social Stratification And Mobility Research In Social Stratification And Mobility:

Research in Social Stratification and Mobility Kevin T Leicht, 2005-06-04 Research in Social Stratification and Mobility continues its tradition of publishing the best and most innovative research on the changing landscape of social inequality the world over This issue focuses on different dimensions of social closure and their relationship to social inequality processes including the changing role that education plays in sorting people into favorable and unfavorable labor market positions across a global diversity of cultural settings This issue also examines the fluid boundaries of race and ethnicity in contentious political settings relationships between attitudes and collective action and the role that technology and political context plays in promoting economic development and well being These topics and the research methodologies they represent display the vitality of social science research dealing with social stratification and the wide array of methods contexts and policies that directly affect the life chances of most of the world s peoples This issue also marks a continuation of the ties developed between RSSM and the Social Stratification and Mobility section of the International Sociological Association RC 28 This collaboration promises to promote and disseminate social inequality research throughout the world through an established network of distinguished international contributors and commentators

Research in Social Stratification and Mobility Robert Althauser, 1994-12 *Research in social stratification and mobility*, 1981 Research in Social Stratification and Mobility, **Research in Social Stratification and Mobility** Michael Wallace, Robert Althauser, 1989-12 Research in Social Stratification and Mobility Wallace, 1998-08 The 16th volume in a series on advances in stratification research Topics addressed include the changing international context of social stratification race immigration and life chances and the distinctiveness of independent business as a locus of social stratification Handbook of European Societies Stefan Immerfall, 2009 European integration is one of the most ambitious and socially far reaching developments in world politics and in world economics Against growing opposition and despite increasing social heterogeneity the European Union continues to expand and to acquire new competences But to what extent is the self proclaimed ever closer union among the peoples of Europe a social reality In which ways is the political European project anchored in social developments How does social change impinge upon political integration Societal trends in multi cultural multi ethnic multi lingual and socially diverse Europe have never been studied systematically Handbook of European Societies Social Transformations in the 21st Century sets to rectify this neglect of societal developments in Europe providing a groundwork for the sociology of European integration The book portrays social life and social relations in the enlarged Europe and gives a perspective on the European Union as an evolving social entity Handbook of European Societies is a pioneering source book analyzing the current social patterns on the continent It covers a representative selection of major topics of social concern and sociological relevance such as Collective Action Consumption Identity Power Structure Sexuality Stratification and Well being Each contribution probes key developments in a strictly comparative manner The Handbook

thus offers a detailed look into the intricacies of the national societies of Europe and into the prospect of an emerging European society The Editors have enlisted leading researchers to synthesize existing knowledge and to make use of many different data sources in a straight forward style The contributions stay away from jargon simple labeling and sweeping assertions Instead they provide solid and accessible information on a wide variety of social trends and processes within and across European societies

Research in Social Stratification and Mobility Kevin T. Leicht,2001 **First International Working Conference on Social Stratification and Social Mobility** International Sociological Association,1951

Research in Social Stratification and Mobility ,1981 **Research Handbook on Intergenerational Inequality** Elina Kilpi-Jakonen,Jo Blanden,Jani Erola,Lindsey Macmillan,2024-05-02 The Research Handbook on Intergenerational Inequality is motivated by a core question in social science to what extent does one s family background and childhood experience predict success in life Bringing together experts in their respective fields from across the globe this innovative Research Handbook provides a comprehensive multidisciplinary account of the rich research on intergenerational inequality focusing on its origins in sociology and economics This title contains one or more Open Access chapters **Research in Social Stratification and Mobility** ,1981 Social Stratification and Career Mobility Walter Müller,Karl Ulrich Mayer,2019-05-20 No detailed description available for Social Stratification and Career Mobility *Modern Japanese society / edited by Josef Kreiner, Ulrich Hohwald and Hans Dieter Olschleger.* Josef Kreiner,Ulrich Mèohwald,Hans Dieter Ölschleger,2004 Is Japanese society essentially different from other modern industrialized societies or not This survey work with contributions from the leading scholars in this complicated field presents a full overview of the most important aspects of Japanese society which may lead the reader to find an answer to these two often asked questions Japanese society defined as those institutions shaping the life of individuals and groups as well as being responsible for the dynamics of social development is shown to be as modern as any other industrialized society definitely distinct though are the ways in which institutions are defined and organised as a result of different social and historical roots of the process of modernization

Social Stratification and Mobility in the USSR. Murray Yanowitch,Wesley A. Fisher,1973 Compilation of social research writings on social stratification and social mobility in the USSR examines some current social theories in respect of social structure the working class occupational choice social mobility among the rural population etc and includes the research results of six separate surveys and empirical studies Bibliography pp 393 to 401 references and statistical tables

Advances in Sociology Research Leopold M. Stoneham,2004 Presents original research results on the leading edge of sociology Each chapter has been carefully selected in an attempt to present substantial advances across a broad spectrum

Research Handbook on the Sociology of Education Rolf Becker,2019 Presenting original contributions from the key experts in the field the Research Handbook on the Sociology of Education explores the major theoretical methodological empirical and political challenges and pressing social questions facing education in current times *Handbook of Research*

Methods and Applications in Social Capital Yaojun Li, 2015-08-28 Social capital is fundamentally concerned with resources in social relations This Handbook brings together leading scholars from around the world to address important questions on the determinants manifestations and consequences of social capital Vario

Social Inequality Across the Generations Jani Erola, Elina Kilpi-Jakonen, 2017-03-31 Social Inequality Across the Generations provides an innovative perspective on social stratification studies by advancing the theoretical and empirical case for the influence of resource compensation It examines whether resource compensation is a successful mechanism for social mobility contrasting it against competing types of resource accumulation such as multiplication This book is the first to cover extensively the role of compensation in intergenerational attainment a new and rapidly spreading concept in stratification research

Social Inequality Kathryn Neckerman, 2004-06-18 Inequality in income earnings and wealth has risen dramatically in the United States over the past three decades Most research into this issue has focused on the causes global trade new technology and economic policy rather than the consequences of inequality In *Social Inequality* a group of the nation's leading social scientists opens a wide ranging inquiry into the social implications of rising economic inequality Beginning with a critical evaluation of the existing research they assess whether the recent run up in economic inequality has been accompanied by rising inequality in social domains such as the quality of family and neighborhood life equal access to education and health care job satisfaction and political participation Marcia Meyers and colleagues find that many low income mothers cannot afford market based child care which contributes to inequality both at the present time by reducing maternal employment and family income and through the long term consequences of informal or low quality care on children's educational achievement At the other end of the educational spectrum Thomas Kane links the growing inequality in college attendance to rising tuition and cuts in financial aid Neil Fligstein and Taek Jin Shin show how both job security and job satisfaction have decreased for low wage workers compared with their higher paid counterparts Those who fall behind economically may also suffer diminished access to essential social resources like health care John Mullahy Stephanie Robert and Barbara Wolfe discuss why higher inequality may lead to poorer health wider inequality might mean increased stress related ailments for the poor and it might also be associated with public health care policies that favor the privileged On the political front Richard Freeman concludes that political participation has become more stratified as incomes have become more unequal Workers at the bottom of the income scale may simply be too hard pressed or too demoralized to care about political participation *Social Inequality* concludes with a comprehensive section on the methodological problems involved in disentangling the effects of inequality from other economic factors which will be of great benefit to future investigators While today's widening inequality may be a temporary episode the danger is that the current economic divisions may set in motion a self perpetuating cycle of social disadvantage The most comprehensive review of this quandary to date *Social Inequality* maps out a new agenda for research on inequality in America with important implications for public policy
