John Miles Little, 2003 Does reading poetry make you a better clinician Can euthanasia be understood in terms of the meaning of a life What is the moral and existential significance of life threatening experiences Australian surgeon poet philosopher and humanist Miles Little addresses these and other fascinating questions in this collection of papers Miles Little is one of the most original and engaging voices in contemporary medical ethics and philosophy He ranges across the sciences and the humanities creating hybrid fields of inquiry ethnomics interrogating orthodoxies and engaging different fields of human knowledge and experience The papers in this collection were chosen by his readers who also engage here with Miles Little s work in a short commentary that follows each paper The range of the commentators reflects the breadth of Little s appeal and influence academics and clinicians philosophers and ethicists novelists public health practitioners and cancer survivors each reflects agrees or disagrees Like Little s work itself this Reader is an open and unfolding dialogue that

includes many different perspectives Commentators include Murray Bail Robin Downie Nancy Dubler Stan Goulston Jill Gordon Paul Komesaroff Steve Leeder Paul McNeill Gavin Mooney and Bernadette Tobin *Analyzing Qualitative Data* H. Russell Bernard, Amber Wutich, Gery W. Ryan, 2016-06-23 The fully updated Second Edition of *Analyzing Qualitative Data Systematic Approaches* by H Russell Bernard Amber Wutich and Gery W Ryan presents systematic methods for analyzing qualitative data with clear and easy to understand steps The first half is an overview of the basics from choosing a topic to collecting data and coding to finding themes while the second half covers different methods of analysis including grounded theory content analysis analytic induction semantic network analysis ethnographic decision modeling and more Real examples drawn from social science and health literature along with carefully crafted hands on exercises at the end of each chapter allow readers to master key techniques and apply them to their own disciplines *Ethics and Neuromarketing* Andrew R. Thomas, Nicolae Alexandru Pop, Ana Maria Iorga, Cristian Ducu, 2016-10-19 This book addresses the emerging field of neuromarketing which at its core aims to better understand the impact of marketing stimuli by observing and interpreting human emotions It includes contributions from leading researchers and practitioners venturing beyond the tactics and strategies of neuromarketing to consider the ethical implications of applying powerful tools for data collection The rationale behind neuromarketing is that human decision making is not primarily a conscious process Instead there is increasing evidence that the willingness to buy products and services is an emotional process where the brain uses short cuts to accelerate the decision making process At the intersection of economics neuroscience consumer behavior and cognitive psychology neuromarketing focuses on which emotions are relevant in human decision making and uses this knowledge to make marketing more effective The knowledge is applied in product design enhancing promotions and advertising pricing professional services and store design and improving the consumer experience as a whole The foundation for all of this activity is data gathering and analysis Like many new processes and innovations much of neuromarketing is operating far ahead of current governmental compliance and regulation and thus current practices are raising ethical issues For example facial recognition software used to monitor and detect a wide range of micro expressions has been tested at several airports under the guise of security and counterterrorism To what extent is it acceptable to screen the entire population using these powerful and intrusive techniques without getting passengers consent Citing numerous examples from the public and private sectors the editors and contributing authors argue that while the United States has catalyzed technological advancements European companies and governments are more progressive when it comes to defining ethical parameters and developing policies This book details many of those efforts and offers rational constructive approaches to laying an ethical foundation for neuromarketing efforts *Engaging with Ethics in International Criminological Research* Michael Adorjan, Rose Ricciardelli, 2016-06-10 Despite a voluminous literature detailing the procedures of research ethics boards and institutional ethical review processes there are few texts that explore the realpolitik of conducting criminal research in practice This book

explores the unique lived experiences of scholars engaging with ethics during their criminological research and focuses on the ethical dilemmas that researchers encounter both in the field and while writing up results for publication Who benefits from criminological research What are the roles and impacts of ethics review boards How do methodological and theoretical decisions factor in to questions of ethical conduct and research ethics governance This book is divided into four parts Part I Institutional arrangements and positionality explores the ongoing and expanding process of ethics protocol and procedures principles of confidentiality and the positionality of the researcher Part II Trust and research with vulnerable populations examines the complexity of work involving prisoners indigenous peoples and victims of extreme violence power dynamics between researchers and participants and the challenges of informed consent Part III Research on and with police reflects on the importance of transparent relations with police best practices and the consequences of undertaking research in authoritarian contexts Part IV Emerging areas scrutinizes the ethics of carceral tours and suggests possible alternatives and offers one of the first sociological and criminological examinations of dark net cryptomarkets Drawing upon the experiences of international experts this book aims to provoke further reflection on and discussion of ethics in practice This book is ideal for students undertaking courses on research methods in criminology as well as a key resource for criminology researchers around the world
