Project Management for Research A.B. Badiru, 2012-12-06 Graduate research is a complicated process which many engineering and science students aspire to undertake The complexity of the process can lead to failures for even the most brilliant students Success with graduate level research

requires not only a high level of intellectual ability but also a high level of program management skills After many years of supervising several graduate students I have found that most of them have the same basic problems of planning and implementing their research programs Even the advanced graduate students need the same mentoring and management guidance that has little to do with actual classroom performance It is my conjecture that graduate students could make a better job of their research programs if a self paced guide were available to them The guide provided in this book covers topics ranging from how to select an appropriate research problem to how to schedule and execute research tasks The book takes a project management approach to planning and implementing graduate research in engineering science and manufacturing disciplines It is a self paced guide that will help graduate students and advisors answer most of the basic questions about how to do this and how to do that There is a need for such a guide book The book will alleviate frustration on the part of the student and the research advisor

Integrative Document & Content Management Len Asprey, Michael Middleton, 2003-01-01 Portals present unique strategic challenges in the academic environment Their conceptualization and design requires the input of campus constituents who seldom interact and whose interests are often opposite The implementation of a portal requires a coordination of applications and databases controlled by different campus units at a level that may never before have been attempted at the institution Building a portal is as much about constructing intra campus bridges as it is about user interfaces and content Designing Portals Opportunities and Challenges discusses the current status of portals in higher

education by providing insight into the role portals play in an institution's business and educational strategy by taking the reader through the processes of conceptualization design and implementation of the portals in different stages of development at major universities and by offering insight from three producers of portal software systems in use at institutions of higher learning and elsewhere

The Critical Practice of Film Elspeth Kydd, 2017-09-16 The Critical Practice of Film introduces film studies and production through the integration of criticism theory and practice Its approach is that of critical practice a process that explores the integration and intersection between the critical analysis of films and the practical aspects of filmmaking In other words this book is both an introduction to the ways in which we watch films as well as an introduction to how films are created The more you know about how films are made the more you can appreciate the artistry involved in a film Author Elspeth kydd combines explorations of basic technical and aesthetic principles with extended analyses drawn from both classic and contemporary Hollywood and other world cinemas including Battleship Potemkin 1927 Un Chien Andalou 1929 Stagecoach 1939 Mildred Pierce 1945 Notorious 1946 Letter from an Unknown Woman 1948 Gentlemen Prefer Blondes 1953 Breathless 1959 Memories of Underdevelopment 1968 Star Wars 1977 Raiders of the Lost Ark 1981 Distant Voices Still Lives 1988 The Matrix 1999 Amores Perros 2000 Gosford Park 2001 and The Lord of the Rings trilogy 2001-3 Also included is a range of exercises designed to stimulate critical and analytical thought and help to demystify the process of creative mediamaking Assignments range in scale from simple storyboarding and narrative development exercises that may be explored with minimal technology to more complex video projects that can be adapted to suit varying levels of technical skill The Critical Practice of Film provides an accessible introduction to the theory and practice of film studies integrating creative practice with critical and theoretical engagement to guide students towards an engaged form of creative expression and an active role as reviewer and critic Beautifully presented this ground breaking text offers all students an integrated understanding of film criticism and production Elspeth kydd is a Senior Lecturer in Film Studies and Video Production at the University of the West of England She has taught researched and published in film and television studies for nearly twenty years as well as being an active documentary videomaker This book developed from teaching integrated theory practice film courses at universities in the US and UK

The Essential College Professor Jeffrey L. Buller, 2009-11-19 The Essential College Professor is about the how and why of being a faculty member today Based on the author's series of highly successful faculty development workshops each chapter deals concisely with the most important information college professors need at their fingertips when confronted by a particular challenge or faced with an exciting opportunity Written both as a comprehensive guide to an academic career and as a ready reference to be consulted whenever needed The Essential College Professor emphasizes proven solutions over untested theories and stresses what faculty members have to know now in order to be successful in their careers Each chapter is concluded by a short exercise that faculty members can perform to help them for instance completely revise a course by restructuring the syllabus and

course materials bring new life to a research project by reframing it as a book proposal or grant application and so on
