efforts to control its borders framing pivotal moments within a long standing but often overlooked debate over the rights of non citizens Anderson provides valuable insights into contemporary liberal democratic control by demonstrating that today s more restrictive approach reflects traditions deeply embedded within liberal democracies *Criminalization, Representation, Regulation* Deborah Brock, Amanda Glasbeek, Carmela Murdocca, 2014-09-30 What is a crime and how do we construct it The answers to these questions are complex and entangled in a web of power relations that require us to think differently about processes of criminalization and regulation This book draws on Foucault s concept of governmentality as a lens to analyze and critique how crime is understood reproduced and challenged It explores the dynamic interplay between practices of representation processes of criminalization and the ways that these circulate to both reflect and constitute crime and justice **Incarceration and Generation, Volume I** Silvia Gomes, Maria João Leote de Carvalho, Vera

The Contested Politics of Mobility Vicki Squire, 2010-11-19 Irregular migration has emerged as an issue of intensive political debate and governmental practice over recent years Critically intervening in debates around the governing of irregular migration The Contested Politics of Mobility explores the politics of mobility through what is defined as an analytic of irregularity It brings together authors who address issues of mobility and irregularity from a range of distinct perspectives to focus on the politics of control as well as the politics of migration The volume develops an account of irregularity as a produced ambivalent and contested socio political condition showing how this is activated through wide ranging borderzones that pull between migration and control Covering cases from across contemporary North America and Europe and examining a range of control mechanisms such as biometrics deportation and workplace raiding the volume refuses the term illegal to describe movements of people across borders In so doing it highlights the complexity of relations between different regions and between a politics of migration and a politics control and makes a timely intervention in the intersecting fields of critical citizenship migration and security studies This book will be of interest to students and scholars of politics international relations sociology migration and law Law and Religious Pluralism in Canada Richard J. Moon, 2009-05-01 Law and

Religious Pluralism in Canada seeks to elucidate the complex and often uneasy relationship between law and religion in democracies committed both to equal citizenship and religious pluralism. Leading socio legal scholars consider the role of religious values in public decision making, government support for religious practices and the restriction and accommodation by government of minority religious practices. They examine such current issues as the legal recognition of sharia arbitration, the re definition of civil marriage and the accommodation of religious practice in the public sphere. *The Routledge Handbook on Crime and International Migration* Sharon Pickering, Julie Ham, 2017-07-14. The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration, crime and victimization that have informed a wide criminological scholarship, often driven by some of the original lines of inquiry of the Chicago School. Historically, migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity, often in highly problematic ways. However, in the contemporary period, this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants. The Routledge Handbook on Crime and International Migration is also concerned with the theoretical, empirical and policy knots found in the relationship between regular and irregular migration, offending and victimization, the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders. The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control, constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats. Offering a strong international focus and comprehensive coverage of a wide range of border, criminal justice and migration related issues, this book is an important contribution to criminology and migration studies and will be essential reading for academics, students and practitioners interested in this field. **Immigrant and Migrant Workers Organizing in Canada and the United States** Jorge Frozzini, Alexandra Law, 2017-11-08. Across Canada and the United States, immigrant workers face important obstacles at work and in the broader society, whether their immigration status is temporary, permanent or nonexistent. Hyper precarious workers of all status groups and their allies in unions and worker centers are organizing to improve their conditions. In this book, Jorge Frozzini and Alexandra Law, two longtime volunteers with a Canadian worker center, draw on their own experience in depth interviews and academic work from the fields of law, communication studies and social movement theory to produce a tactically focused, theoretically informed introduction to immigrant worker organizing in a neoliberal era. Frozzini and Law describe the phenomenon of employment precarity in the context of U.S. and Canadian labor history, explaining how union certification and collective bargaining function under the law. Without directing activists toward any single best strategy, they cover tactical and ethical questions raised when organizers offer casework as a recruitment and research tool. the Immigrant Workers Centre Montreal Globalisation and Migration Ronaldo Munck, 2013-09-13 This book critically examines the new issues and new politics regarding migration in the era of globalisation from a majority world perspective It examines the current shifts in the global political economy and the effects it has for example in relation to rural displacement When and how does this lead to national and or transnational migration We need to examine the ways in which migration is cut across and impacts on the generation of racism and xenophobia in the west The issue of remittances by migrants to the developing nations needs careful study as does the controversial issue of brain drain versus brain gain through migration The growing importance of trafficking for forced labour has now been taken up by various international bodies but is it the new normality or simply an unfortunate side effect of globalisation to be overcome through legislation Migration is becoming increasingly gendered in its composition and flows but also in the receiving countries where men and women do very different jobs We can predict the increasing racialization and gendering of migration but how will the state and society respond to these shifts This book was published as a special issue of Third World Quarterly Attitudinal Decision Making in the Supreme Court of Canada C. L. Ostberg, Matthew E. Wetstein, 2011-11-01 This book provides a comprehensive exploration of ideological patterns of judicial behaviour in the Supreme Court of Canada Relying on an expansive database of Canadian Supreme Court rulings between 1984 and 2003 the authors present the most systematic discussion of the attitudinal model of decision making ever conducted outside the setting of the US Supreme Court The groundbreaking discussion of the viability of this model as a unifying theory of judicial behaviour in high courts around the world will be essential reading for a wide range of legal scholars and court watchers *Ways of Belonging* Francesca Meloni, 2023-10-13 *Ways of Belonging* examines the experiences of undocumented young people who are excluded from K 12 education in Canada Through rich ethnographic descriptions this book vividly shows how ambivalence and invisibility shape both the lives of young people and institutional attitudes toward them *Constitutional Politics in Canada after the Charter* Patrick James, 2011-01-01 The Charter of Rights and Freedoms was introduced in 1982 Since then Canada has experienced more than twenty five years of constitutional politics and countless debates about whether the Canadian federation is integrating or disintegrating There has however been no systematic attempt to identify general theories about Canada's constitutional evolution Patrick James corrects this oversight by using systemism a concept drawn from the philosophy of science to identify and assess five theories that fall into the liberal or communitarian paradigms These theories are examined in the context of major issues such as the role of the courts or the status of Aboriginal peoples and debates among advocates and critics of each theory are used to work toward a greater understanding of constitutional wrangling in Canada By adding clarity to familiar debates this succinct assessment of major writings on constitutional politics sharpens our vision of the past and the future of the Canadian federation **Research Handbook on the Law and Politics of Migration** Catherine Dauvergne, 2021-04-30 As the law and politics of migration become increasingly intertwined this thought provoking Research

Handbook addresses the challenge of analysing their growing relationship Discussing the evolving theoretical approaches to migration it explores the growing attention given to the legal frameworks for migration and the expansion of regulation as migration moves to the centre of the political global agenda The Research Handbook demonstrates that the overlap between law and politics puts the rule of law at risk in matters of migration *Parallel Encounters* Gillian Roberts, David Stirrup, 2014-03-24 The essays collected in *iParallel Encounters* The field of border studies has hitherto neglected the Canada US border as a site of cultural interest tending to examine only its role in transnational policy economic cycles and legal and political frameworks Border studies has long been rooted in the US Mexico divide shifting the locus of that discussion north to the 49th parallel the contributors ask what added complications a site specific analysis of culture at the Canada US border can bring to the conversation In so doing this collection responds to the demands of Hemispheric American Studies to broaden considerations of the significance of American culture to the Americas as a whole bringing Canadian Studies into dialogue with the dominantly US centric critical theory in questions of citizenship globalization Indigenous mobilization hemispheric exchange and transnationalism *Handbook on the Governance and Politics of Migration* Emma Carmel, Katharina Lenner, Regine Paul, 2021-04-30 This innovative Handbook sets out a conceptual and analytical framework for the critical appraisal of migration governance Global and interdisciplinary in scope the chapters are organised across six key themes conceptual debates categorisations of migration governance regimes processes spaces of migration governance and mobilisations around it Liberating Temporariness? Leah F. Vosko, Valerie Preston, Robert Latham, 2014-06-01 *Liberating Temporariness* explores the complex ways in which temporariness is being institutionalized as a condition of life for a growing number of people worldwide The collection emphasizes contemporary developments but also provides historical context on nation state membership as the fundamental means for accessing rights in an era of expanding temporariness in recognition of why pathways to permanence remain so compelling Through empirical and theoretical analysis contributors explore various dimensions of temporariness especially as it relates to the legal status of migrants and refugees to the spread of precarious employment and to limitations on social rights While the focus is on Canada a number of chapters investigate and contrast developments in Canada with those in Europe as well as Australia and the United States Together these essays reveal changing and enduring temporariness at local regional national transnational and global levels and in different domains such as health care language programs and security The question at the heart of this collection is whether temporariness can be liberated from current constraints While not denying the desirability of permanence for migrants and labourers *Liberating Temporariness* presents alternative possibilities of security and liberation Laws and Societies in the Canadian Prairie West, 1670-1940 Louis A. Knafla, Jonathan Swainger, 2011-11-01 *Laws and Societies in the Canadian Prairie West 1670 1940* examines the legal history of the north west frontier from the earliest years of European Native contact in the seventeenth century to the mid 1900s Challenging myths about a peaceful west and prairie

exceptionalism the book explores the substance of prairie legal history and the degree to which the region's mentality is rooted in the historical experience of distinctive prairie peoples. The chapters written by a cross section of established and emerging scholars working in the allied fields of law, legal history, sociology and criminology focus on what is distinctive in prairie legal culture. By approaching the issue from a variety of perspectives—those of colonial administrators, fur company employees, Native peoples, women, men, entrepreneurs, judges, magistrates and the police, among others—the authors find evidence of a conscious effort to apply broad, non-regional experiences to seemingly familiar local issues. The ways in which prairie peoples perceived themselves and their relationships to a wider world were directly framed by notions of law and legal remedy shaped by the course and themes of prairie history. Legal history is not just about black letter law. It is also deeply concerned with the ways in which people affect and are affected by the law in their daily lives. By examining how central and important the law has been to individuals, communities and societies in the Canadian Prairies, this book makes an original contribution.

Neoliberalism and Everyday Life Susan Braedley, Meg Luxton, 2010-03-19

Illuminating the ways in which neoliberal policies such as the deregulation of economies and the transfer of governmental responsibilities to the private sector have been implemented on a global scale, the contributors show how neoliberalism has seeped into our social and political fabric and affected our daily lives. Drawing attention to the most visible elements of neoliberalism in business, government and personal life, reveal the ways in which policies designed to ensure market expansion also inevitably expand social inequalities of gender, race, class and ability. Using a variety of methods, contributors discuss a range of topics including globalization, privatization, health care and the welfare state. An intelligent and informative collection that explains and challenges neoliberal policies.

Neoliberalism and Everyday Life is an important assessment of a political system that makes profit easier and people's lives more difficult.
