institutes of international law and a well trained academic community which have contributed to the successful implementation of much of international law But as the relevant chapters in this volume show the German case is not without its own complexities As a result an exchange of ideas and experiences pertaining to the implementation of international obligations can prove fruitful for both countries Moreover such an exchange could also serve as a useful point of departure for other countries in Southern Africa that face similar challenges in relation to implementation The current book explores suitable techniques of implementation of international law by comparing South Africa with Germany After a general overview of the status of international law within Germany and South Africa respectively it focuses on the implementation of international instruments pertaining to key sub areas of international law in the two countries These include the United Nations Charter peace and security the international law of the sea international economic law international environmental law international human rights law international criminal law regional integration and the status of international judicial decisions before domestic courts

A Treatise on the Law Relating to Rates and Traffic on Railways and Canals

Alexander Kaye Butterworth,1889 *The Solicitors' Journal and Weekly Reporter* ,1907 Revisiting the Law of Occupation Hanne Cuyckens,2017-10-23 In Revisiting the Law of Occupation Hanne Cuyckens assesses the crucial challenges faced by the law of occupation Through examples such as the occupation of the Palestinian Territories and the 2003 occupation of Iraq the author convincingly demonstrates that although the law of occupation may no longer be perceived as adequate to address contemporary forms of occupation a formal modification of the law is neither desirable nor feasible The author identifies means by which the potential dichotomy between the law and the facts can be addressed without formal modification of the former 1 flexible interpretation of the law itself 2 the role of International Human Rights law as gap filler and 3 the role of the UNSC as a modulator of the law
