## **Security In North Africa Internal And External Challenges:**

**Security in North Africa: Internal and External Challenges** Ian O. Lesser, RAND CORP SANTA MONICA CA., 1993  
The emotional reaction across North Africa during the Gulf War and the deepening turmoil in Algeria as the country grapples with an assertive Islamic movement have awakened Western interest in the prospects for stability along the southern shore of the Mediterranean. The alarming demographic imbalance between north and south and the resulting flow of migrants to an increasingly inhospitable Europe is now a feature of the European security debate. To these concerns must be added the risk of nuclear and ballistic missile proliferation emanating from Libya and Algeria. Among foreign and security policy elites and publics in southern Europe, France and to a growing degree in Europe as a whole, it has become fashionable to refer to a new arc of crisis in the south. Previous RAND reports have charted this new aspect of the European security environment and the significance for U.S. policy. The North African dimension of the evolving security situation in the Mediterranean was not systematically explored in these reports except as it was reflected in the views of southern Europeans. This report attempts to fill this gap focusing on regional developments as seen from the south. The report discusses the prospects for stability in Morocco, Algeria, and Tunisia, identifies regional flash points, and assesses the implications for U.S. policy.

**Economic and Political change in Tunisia** E. Murphy, 1999-03-08 This book examines the processes of economic and political reform in Tunisia, placing the current policies of Zine el Abidine Ben Ali within their historical context. The book develops a theoretical understanding of the relationship between economic liberalisation and political change in the Arab world, developing the concept of the disarticulation of the corporatist state and concluding that despite efforts at democratization, an authoritarian political system is a more likely successor in the era of economic transformation.

*All for One: Terrorism, NATO and the United States* Tom Lansford, 2018-02-06 This title was first published in 2002. This detailed examination of the role of the Transatlantic Alliance in support of the America-led military and intelligence operations against the Taliban and the Al Qaida network since the terrorist attacks on the United States provides the first in-depth analysis of NATO's historic first invocation of Article V of the Washington Treaty. Including a substantial overview of NATO's place in the broad security framework of the Western Atlantic powers and both the shared history and ideals that form its common basis, the book specifically analyzes the political machinations behind the decision to invoke Article V and the impact of political differences among the Alliance partners. The book also looks at efforts to prevent future incidents by expanding the security framework of the Alliance. An essential reference source for military and foreign policy academics, courses, and practitioners, this text offers the reader an unprecedented insight into NATO's response to this most significant event.

*Terrorist Threats in North Africa from a NATO Perspective* J. Tomolya, L.D. White, 2015-11-06 According to the editors of this book, North Africa has become a hotbed of terrorist activity in recent years, as demonstrated by several events in the region. Representing as it does a potential threat to NATO's southern flank, this area can no longer be ignored, they say. This book presents the proceedings of the NATO Centre of

Excellence Defence Against Terrorism COE DAT Advanced Research Workshop entitled The Terrorist Threat in North Africa from a NATO Perspective held in Ankara Turkey in the November 2013 Subjects covered include the changing nature of North African terrorism the rise of Al Qaeda in North Africa financing terrorism in North Africa the legal framework of military operations against terrorism in North Africa and the relationship between international terrorism and terrorism in North Africa among others Also included in the book is the keynote address given by Prof Yonah Alexander of the Inter University Center for Terrorism Studies and entitled Terrorism in North Africa and the Sahel Threats and Responses The book provides insights to further the understanding of terrorism in North Africa and will be of interest to all those involved in the development of counterterrorism policies to combat this threat

*A Sense Of Siege* Graham Fuller,2018-02-12 The clash of civilizations has become a common phrase in discussions of U S Middle East relations This book explores the nature of the friction between the Muslim world and Western states looking at legitimate perceptions and grievances on both sides involving historical political economic cultural psychological and strategic elements Arguing that Islam versus the West does not represent the arena of the next global ideological struggle the authors examine specific issues of a bilateral nature that require careful handling to prevent the consolidation of states into opposing blocs They discuss Islam s efforts to politically enhance the real power of Muslim states and to equalize relations with the West in the strategic arena the enlarged role of Islam in the internal politics of Muslim countries and the urgency of political economic and social change to break away from traditional authoritarian orders A central theme of the book is that political Islam threatens the established order in most Muslim countries far more than it threatens the West and that violent confrontation can best be circumvented by integrating Islamist forces into the political process

*The European Neighbourhood Policy in a Comparative Perspective* Sieglinde Gstohl,2016-07-22 The European Neighbourhood Policy ENP has evolved into one of the European Union s major foreign policy instruments and received considerable attention However other EU neighbourhood policies and their relevance for the ENP also require examination The Arab uprisings civil wars in Libya and Syria the continuing Israeli Palestinian conflict the crisis in Ukraine and Russia s annexation of the Crimean peninsula have all brought the institutional design and tools of the ENP into question and a comparative perspective is crucial to understand EU neighbourhood policies in a wider sense This timely book puts the ENP into context by exploring the major challenges and key lessons of the EU s other policy frameworks with neighbouring countries Mapping the EU s bi lateral and multilateral neighbourhood relations in comparison to the ENP and investigating the major challenges faced it provides a comprehensive up to date view of the EU s relations with its neighbours Focusing on current affairs and future challenges the comparison with the ENP and the lessons to be drawn generate novel insights into the EU s closest external relations This book will be of key interest to students and scholars studying European Politics policies and comparative politics

**Energy Security Cooperation in Northeast Asia** Bo Kong,Jae Ku,2015-04-24 Drawing on cutting edge research from leading scholars this book investigates state preferences for regime creation and assesses state capacity for executing these preferences in Northeast Asia s energy domain defined as the geographical area comprising the following countries Russia Mongolia China Japan South Korea and North Korea It examines questions pertaining to how states perceive the need and necessity for establishing a regime when it comes to the issue of energy and how much commitment they make to the effort in Northeast Asia The book analyses the factors that shape each country s fundamental energy interests in the region how these interests impact their attitudes toward engaging the region on energy security and the way they carry out their regional engagement Based on countries interests in promoting institutionalized regional energy cooperation and their capacity for forging that cooperation the collection assesses each state s role in contributing to an energy regime in Northeast Asia It then concludes with a critique on the decade plus quest for energy security cooperation in Northeast Asia and suggests ways forward for facilitating regional energy security cooperation This book will be of great interest to scholars and students of environmental policy energy policy security studies Asian studies and international relations

*Military Strategy of Great Powers* Håkan Edström,Jacob Westberg,2021-09-20 This book explores the military strategies of the five system determining great powers during the twenty first century The book s point of departure is that analyses of countries defence strategies should acknowledge that states come in various shapes and sizes and that their strategic choices are affected by their perceptions of their position in the international system and by power asymmetries between more and less resourceful states This creates a diversity in strategies that is often overlooked in theoretically oriented analyses The book examines how five major powers the United States China the United Kingdom France and Russia have adjusted their strategies to improve or maintain their relative position and to manage power asymmetries during the twenty first century It also develops and applies an analytical framework for exploring and categorising the strategies pursued by the five major powers which combines elements of structural realism with research on power transition theory and status competition The concluding chapter addresses questions related to stability and change in the present international system This book will be of interest to students of strategic studies foreign policy and International Relations

*China in the Mediterranean* Emilie Tran,Yahia Zoubir,2024-07-19 This scholarly book provides a timely examination of China s growing influence in the Mediterranean

region It offers a comparative and theoretical perspective underpinned by an up to date empirical analysis The book uses role theory as the theoretical framework throughout exploring the escalating tensions in the Mediterranean where a complex triangular relationship seems to have emerged largely due to China s expanding presence on both the Southern and Northern shores Beijing s sustained engagement and increasing influence have significantly affected the perceptions of France the region s former colonial power and Spain as well as global competitors such as Russia Turkey Israel and the Gulf states From a security standpoint China s engagement in the Mediterranean has also raised concerns in the United States Within this multifaceted context the chapters in this volume scrutinize how the evolving interactions between China and the Mediterranean states elucidate the progression of Sino Southern Mediterranean relations and Sino Northern Mediterranean relations Moreover the current conflict in Gaza has heightened interest in China s role in the Mediterranean and the broader Middle East This volume is undoubtedly a valuable resource for academics policymakers and students at both undergraduate and graduate levels with an interest in strategic studies politics diplomacy and international relations The chapters in this book were initially published as a special issue of Mediterranean Politics      **Defense of the West** Stanley R.

Sloan, 2016-10-14 This book delivers a clear and balanced interpretive history of transatlantic security relations from the late 1940s to the present day The author writes in the authoritative and highly readable style that has made his work required reading for policy makers as well as academic experts on and students of International Relations on both sides of the Atlantic The lively text is also highly accessible for the citizen who wants to develop an understanding of how the United States and Europe came to their current complex security relationship The analysis suggests that the democratic principles and shared interests on which NATO and the European Union are based serve as the foundation for the West a term that originated in the Cold War conflict between western democracies and the Soviet Union but which continues to have meaning today in light of new challenges to Western security
