Inventing the "American Way" : The Politics of Consensus from the New Deal to the Civil Rights Movement Wendy L. Wall Assistant Professor of History Queen's University, 2007-12-19

In the wake of World War II Americans developed an unusually deep and all encompassing national unity as postwar affluence and the Cold War combined to naturally produce a remarkable level of agreement about the nation's core values Or so the story has long been told Inventing the American Way challenges this vision of inevitable consensus Americans as Wendy Wall argues in this innovative book were united not so much by identical beliefs as by a shared conviction that a distinctive American Way existed and that the affirmation of such common ground was essential to the future of the nation Moreover the roots of consensus politics lie not in the Cold War era but in the turbulent decade that preceded U S entry into World War II The social and economic chaos of the Depression years alarmed a diverse array of groups as did the rise of two alien ideologies fascism and communism In this context Americans of divergent backgrounds and beliefs seized on the notion of a unifying American Way and sought to convince their fellow citizens of its merits Wall traces the competing efforts of business groups politicians leftist intellectuals interfaith proponents civil rights activists and many others over nearly three decades to shape public understandings of the American Way Along the way she explores the politics behind cultural productions ranging from The Adventures of Superman to the Freedom Train that circled the nation in the late 1940s She highlights the intense debate that erupted over the term democracy after World War II and identifies the origins of phrases such as free enterprise and the Judeo Christian tradition that remain central to American political life By uncovering the culture wars of the mid twentieth century this book sheds new light on a period that proved pivotal for American national identity and that remains the unspoken backdrop for debates over multiculturalism national unity and public values today

Security and Privacy in the Digital Era Claudine Guerrier, 2016-08-16

The state that must eradicate all feelings of insecurity even potential ones has been caught in a spiral of exception suspicion and oppression that may lead to a complete disappearance of liberties Mireille Delmas Marty Liberté et sécurité dans un monde dangereux 2010

Freedom or Security Michael Freeman,2003-05-30 Several democratic countries have used emergency powers to restrict or suspend individual liberties in order to fight terrorism more effectively Emergency powers are controversial in their potential to undermine democracy and civil liberties Freeman challenges popular arguments of both the supporters of emergency powers who focus on their expected effectiveness and the critics who focus on the dangers In reality the recent experiences of four different democratic states that have invoked emergency powers show that a positive outcome is just as likely as negative outcome As the United States fights its war against terrorism it should heed the lessons learned by other democracies in similar struggles particularly Great Britain's relationship with Northern Ireland in the 70s and 80s Uruguay's response to the Tupamaros in the late 60s and early 70s Canada's dealings with the FLQ in 1970 and Peru's conflict with the Shining Path movement in the 80s and early 90s

Political Economy of Power Sharing in Developing Countries Akietuwopiribie Opuene Hart,2025-08-07 Political Economy of Power Sharing in Developing Countries is an in depth examination of factors that trigger the clamor for power sharing zoning and rotation in mostly developing countries These provocations include geographical ethnic and religious identity factors that can influence the political process in varying degrees from country to country The impact goes a long way in determining the stability and instability of the political process in various countries The reasons for these differences and the impacts are a combination of the endogenous variables in the first instance which

are the primary prompters Other elements which are the exogenous factors are secondary prompters When these converge they produce a peculiar impact in a given society based on the characteristic variables and the resulting outcome The new paradigm shifts in the agitation in developing countries is demonstrated by an elitist instrument of marginalization and self aggrandizement The masses are hoodwinked sensitized and manipulated through primal sentiment to support the elites in acquiring political power which in turn enables the acquisition of economic power Keeping the Republic: Power and Citizenship in American Politics, 5th Brief Edition Christine Barbour, Gerald C.
