Security Strategy And The Logic Of Chinese Foreign Policy:

Security, Strategy, and the Logic of Chinese Foreign Policy Jonathan D. Pollack, 1981 The Spirit of Chinese Foreign Policy Chih-yu Shih, 1990-06-18 This psychological interpretation of Chinese diplomatic history considers both the universal psychocultural processes and the uniqueness of China as a nation It also attempts to establish some interaction between social science and Sinology and examines behaviour by Chinese statesmen *The Making of Chinese Foreign and Security Policy in the Era of Reform* David M. Lampton, 2001 This is the most comprehensive in depth account of how Chinese foreign and security policy is made and implemented during the reform era It includes the contributions of more than a dozen scholars who undertook field research in the People's Republic of China South Korea and Taiwan **The Sino-Vietnamese Approach to Managing Boundary Disputes** Ramses Amer, 2002 **Chinese National Security Decisionmaking Under Stress** Andrew Scobell, 2005 If there is one constant in expert analyses of the history of modern China it is the characterization of a country perpetually in the throes of crises While China at the mid point of the Twenty first Century's first decade is arguably the most secure and stable it has been in more than a century crises continue to emerge with apparent frequency Consequently the study of China's behavior in conditions of tension and stress is of considerable importance to policy makers and analysts around the world China's Just World Zhiyu Shi, 1993 Looking at China's foreign policy this book focuses on the Confucian based need of Chinese leaders to present themselves as the supreme moral rectifiers of the world order **Shaping China's Future In World Affairs** Robert G Sutter, 2019-06-26 This book considers Chinese foreign policy and China's future role in world affairs in the context of the country's recent past Robert Sutter shows that although it appears to be in U S interests for post Mao leaders to continue moving toward international norms a post Deng leadership backed by growing economic and military power and reflecting profound changes in China's economy and society could move in markedly different directions Most foreign powers appear willing to accommodate China avoiding actions that could prompt a sharp shift in Chinese foreign policy but Sutter argues that current U S policy intrudes on so many issues that are particularly sensitive for Beijing and for China's future that it represents perhaps the most critical variable determining how China will position itself in world affairs Concluding that there is no guarantee the United States will use this influence wisely Sutter examines the uncertainty and unpredictability of U S foreign policy in the post Cold War environment that work against the creation of an effective U S policy toward China **Beautiful Imperialist** David Shambaugh, 2021-03-09 From President Nixon's historic visit to China in 1972 to the aftermath of the Tiananmen tragedy this book examines the changing perceptions of the United States articulated by China's America Watchers whose occupation is to interpret the beautiful imperialist for China's elite and public While other studies have looked at the behavioral history of U S China relations this is the first to probe the perceptual dimension **Problems of Communism**, 1981 **The Fate of Nations** Michael Mandelbaum, 1988-09-30 New interpretations of historic episodes in

international relations result from a fresh analysis of national security policies and the demands and constraints imposed upon their development by the international system

China's Maritime Security Strategy Edward Sing Yue Chan, 2021-09-09 This book examines the evolution of China's maritime security strategy and questions what has made China shift from a constrained to a more assertive strategy Historically China has not been an active player in maritime security but in recent years Beijing has begun to pursue policies and measures to safeguard its maritime rights and interests in the Indo Pacific region This growing influence in the region has become a concern for other countries about what kind of sea power China is developing This book seeks to address this concern by providing an overview of the development of China's maritime security strategy from the era of Deng Xiaoping to Xi Jinping It suggests that while the involvement of maritime actors and the development of naval capability have provided the depth to the strategy the national strategic guidelines from each generation of Chinese leadership have determined the overall direction of the maritime security strategy After 40 years of development China has established a set of priorities for its maritime agenda territorial integrity is at the top followed by development and then regional and international maritime cooperation These findings help us to understand China's

New Frontiers in China's Foreign Relations Allen Carlson, Ren Xiao, 2011-10-14 This book stands as a rebuke to any who would attempt to forward simplistic interpretations of China's rise In place of parsimonious arguments or an endorsement of any singular set of images whether pacific or confrontational it repeatedly calls attention to the remarkable complexity of China's emerging international profile More specifically the leading Chinese and American scholars working in the fields of Chinese foreign policy international political economy and national security who contributed to this volume argue that while China appears to be entering a new era in its relationship with the outside world such a development encompasses disparate even contradictory policies and as a result there is a great deal of fluidity within China's place in world politics
