Hart,2012-12-06 Introduction The Fourth Symposium on Sediment Water Interactions was held in Melbourne Australia February 16 20th 1987 The previous three symposia were held in Amsterdam Kingston Ontario and Geneva In keeping with the approach established in Geneva contributions addressed sediment water interactions related to both fresh and salt water conditions More than 160 papers were given in Melbourne including more than 20 poster presentations and collected Abstracts are available from Dr B T Hart A total of 51 papers subsequently have been published as proceedings of the Melbourne Symposium 45 of these appear in this issue of *Hydrobiologia* A further six appeared earlier as a selection of papers in *J Environ Geol and Water Science* 1988 issue 1 these six papers appear in abstract form only in the present publication Although concerned with the global environment the International Association for Sediment Water Science attempts to ensure that there is a genuine opportunity for participants to focus on regional issues throughout the world and in particular to provide a local forum for their presentation The Melbourne meeting was particularly successful in achieving this objective and Australasia was well represented by about 36 percent of the contributors About 27 percent were from Europe 17 percent from North America 7 percent from China and Japan 7 percent from Southeast Asia and India and about 6 percent came from other areas In all 25 countries were represented *Sediment/Water Interactions* B.T. Hart,P.G. Sly,2012-12-06 The papers appearing in this volume reflect the current attention in sediment water science to five main topics of investigation Sediment dynamics in estuaries coastal waters lakes reservoirs and rivers Sediment associated biological processes Contaminant accumulation distribution and geochemistry Fluxes from sediments and Element cycling Contributors address sediment water interactions related to both fresh and salt water conditions **Proceedings of the 5th International Symposium on Water**
