## **Seduction In Berlin:**

*Seduction in Berlin* William Kotzwinkle, 1985      **A Seduction in Berlin** Nicola Cameron, 2024-12-16 Three people Two homelands One irresistible desire The year is 1923 the Great War is over and Berlin is the manic playground of Europe's elite Against a glittering background of nightclubs champagne and hot jazz three people a sensual heiress with a taste for dominance a wounded playboy who craves the touch of his own kind and a desperate German army officer who uncovers hidden desires forge a decadent pact of pleasure But nights of uninhibited passion soon lead to a dangerous emotional connection one that will threaten their futures and their lives Note This book was previously published as *Behind the Iron Cross*

**Willing Seduction** Barbara Kosta, 2012 This fascinating cultural history of *The blue angel* provides a new interpretive framework with which to approach this classic Weimar film and suggests that discourses on mass and high culture are integral to the film's thematic and narrative structure These discourses surface in the relationship between the two main characters the cabaret entertainer Lola Lola Marlene Dietrich and the high school teacher Immanuel Rath one time Oscar winner Emil Jannings In addition to offering insight into some of the major debates that informed the Weimar Republic this book also demonstrates how similar issues continue to shape the contemporary cultural landscape of Germany where Dietrich serves as a cultural icon whose symbolic value has contributed significantly to nation building since German unification rear cover

**Tales of Berlin in American Literature up to the 21st Century** Joshua Parker, 2016-03-17 Of all European cities Americans today are perhaps most curious about Berlin whose position in the American imagination is an essential component of nineteenth century postwar and contemporary transatlantic imagology Over various periods Berlin has been a tenuous space for American claims to cultural heritage and to real geographic space in Europe symbolizing the ultimate evil and the power of redemption This volume offers a comprehensive examination of the city's image in American literature from 1840 to the present Tracing both a history of Berlin and of American culture through the ways the city has been narrated across three centuries by some 100 authors through 145 novels short stories plays and poems *Tales of Berlin* presents a composite landscape not only of the German capital but of shifting subtexts in American society which have contextualized its meaning for Americans in the past and continue to do so today

**Seduction and Power** Silke Knippschild, Marta Garcia Morcillo, 2013-08-15 This volume focuses on the reception of antiquity in the performing and visual arts from the Renaissance to the twenty first century It explores the tensions and relations of gender sexuality eroticism and power in reception Such universal themes dictated plots and characters of myth and drama but also served to portray historical figures events and places from Classical history Their changing reception and reinterpretation across time has created stereotypes models of virtue or immoral conduct that blend the original features from the ancient world with a diverse range of visual and performing arts of the modern era The volume deconstructs these traditions and shows how arts of different periods interlink to form and transmit these images to modern audiences and viewers Drawing on contributions

from across Europe and the United States a trademark of the book is the inclusive treatment of all the arts beyond the traditional limits of academic disciplines

**Artful Seduction** Karl Posso, 2017-12-02 The controversial works of Brazilian authors Silviano Santiago 1936 and Caio Fernando Abreu 1948-96 offer distinctive but complementary explorations of male homosexual subjectivities formulated through displacement exile and the abject Posso examines the innovative ways in which these writers stage manage Western poststructuralist thought to critique heterosexist exclusion in Brazil and in globalized popular and folk culture and he explains how they draw on diverse cultural productions and art works to extend a general undermining of oppositional logic and psychoanalytic theory

Resounding Pasts Drago Momcilovic, 2020-05-15 The field of memory studies has long been preoccupied with the manner in which events from the past are commemorated forgotten re-fashioned or worked through on both the individual and collective level Yet in an age when various modes of artistic and cultural commemoration have begun to overlap with and respond to one another the dynamics of cultural remembering and forgetting become bound up in an increasingly elaborate network of representations that operate both within and outside temporal cultural and national borders As publicly circulating texts that straddle the line between cultural artifact and artistic object both musical and literary works both individually and often in conjunction with one another help shape cultural memories and individual experiences of those events Troping their cultural milieux through specific aesthetic and social forms genres and modes of dissemination music and literature become part of a growing global panoply of raw materials upon which we might begin to pose questions regarding the way we remember the consequences of sharing and passing on those memories and the aesthetic and cultural pressures attendant upon the circulation and interpretation of texts that re-sound the past

Changing the Subject in English Class Marshall W. Alcorn, 2002 Alcorn English and humanities George Washington U argues that the gradual shift in the teaching of composition from a curriculum that looked at literature as an attempt to represent reality to one that stresses the subjectivity of the student in decoding texts has incorporated an insufficiently complex understanding of subjectivity The current cultural studies programs stress political ideas over expressive writing but Alcorn argues that political ideas will never be right unless there is attention to self expression Basing his work in the conceptual world of psychoanalytic theory he outlines a cultural studies practice that develops anti-ideological identity

**Power and Space** John Allen, 2024-08-05 Power and Space sets out the inherently spatial nature of power today and seeks to change the conversation around how power exercises us in the contemporary moment The essays brought together in this book are a response to the fact that conventional descriptions of power and its ordered geographies no longer chime with our lived experience Spatiality matters to the workings of power nowadays and this book sheds light on what it is that we face when power is exercised through more subtle spatially nuanced arrangements It is divided into three parts each representing a different kind of engagement with power's relationship to space from the spatial shifts in the way power is exercised through to its assemblage like

entanglements and in turn its progressive topological character Throughout the book a wide range of social political and economic examples are drawn upon to illustrate a more provisional sense of power ranging for instance from the seductive logic of privatized public spaces to the attempt by a data analytics company to manipulate political behaviour through to the offshore spaces invented by rising financial elites to challenge the established banking order Illustrating the new found abilities of the powerful to make their presence felt this book provides an accessible account of the practical workings of power in the present day It will be invaluable to students and academics in human geography and urban studies as well as politics sociology and cultural studies

trajectory and certainly not the only one ripe for analysis from the postmodern memorials of the 1980s to the increasingly monumental and authoritative memorials and memorial museums being constructed today. Developing a distinct interdisciplinary approach, the book offers a critical analysis of the relationship between the memorials, the visitor experience they are intended to offer, and the understanding of history and our relation to it, which underpins their philosophical, ethical, and political stance. Questioning the notion that contemporary memorials are ambiguous, non-ideological, and non-nationalistic, the book argues that they are engaged in rearticulating nationalism in line with the contradictory demands of the current conjuncture. As well as critically analysing the political function of national memorials, the book is equally concerned with interrogating the aesthetic means they employ, with a specific focus on the way in which they mobilise the power of the sublime to generate particular affective responses. The book argues that contemporary national memorials reflect one of the most significant convergences between postmodern thought and neoliberal ideology, both project a permanent present, urging us to recreate ourselves in the light of existing conditions, for there is no alternative. **The**

**Afterlives of Weimar Berlin** Jill Suzanne Smith, 2024. Explores the recent proliferation of literary and filmic representations of Weimar Berlin in German culture, probing the connections between historical and contemporary texts, their contexts, and their creators, often German Jews and women. More than a century after its founding, there can be little doubt that Weimar is back. The recent proliferation of references to and portrayals of the Weimar Republic, Germany's first democracy, born out of the aftermath of the First World War and characterized by economic and political crisis, is not surprising given our crisis-filled present. That said, the Weimar era has been a consistent focus of scholarly work in both the German-speaking and the Anglo-American academic worlds since the 1970s, and yet depictions of this period in German literature and visual culture were few and far between until the beginning of the 21st century. This book traces this renewed fascination with Weimar, specifically its capital Berlin, in contemporary German language culture, providing both wide-angle and close-up views. While discussions of the time period in mainstream media and historiography tend to focus on Weimar as a warning against the dangers of economic and political instability, the novels and visual works produced by contemporary German writers and filmmakers in the last 15 years revive and reshape the cultural legacy of Weimar Berlin. *The Afterlives of Weimar Berlin* explores the creative interplay between contemporary and historical texts, their contexts, and their creators, tracing a cultural legacy that has the work of German Jews and women as its foundation.

*Present Pasts* Andreas Huyssen, 2003. This book analyzes the relation of public memory to history, forgetting, and selective memory in three late twentieth-century cities that have confronted major social or political traumas: Berlin, Buenos Aires, and New York. Cultural Politics and Political Culture in Postmodern Europe, 1997-01-01. The present volume assembles essays from a broad cultural and professional spectrum around the question of European cultural identity. The heterogeneity of the contributors, their differing points of departure, and methods attest to a tension in intellectual communities which today is more intense than ever. Europe's

identity crisis is not merely an empirical matter. It reflects a far deeper and far older discursive crisis. The mandate of Europe's traditional intellectual institutions to preserve and police their own cultural heritage has proved incapable of evolving in a manner sufficient to account for the mutation in its object: European culture. It is not merely that Europe's identity, like any identity in the flux of history, has changed. Rather, the notion of identity, the very basis of any questions of who we are, where we are going, and the appropriate political forms and social institutions for further existence, all rely on a logic of identity which has at best become extremely problematic. It is this problematization which provides the common thread unifying the following essays. Each contributor, in his/her own way and with respect to his/her own research object, confronts the adequacy of the concept of cultural identity. The hidden presuppositions of this concept are indeed remarkable, and the logic of cultural identity prescribes that they remain undisclosed.
