Szczelkun , 2025-06-07 A collection of Wikipedia articles edited reformatted and with additions In chronological order References and sections on non literary activity are sometimes omitted hopefully not to the point of misrepresenting the author which might include feminist or political activism To my surprise the biographical material on Wikipedia was sometimes mesmerising although it was uneven Where there were gaps I have tried to fill them from other sources Refer back to the wikipedia articles for more context and references in some cases and if you have a verified source of information please update the Wikipedia article Wikipedia is published under a creative commons licence So this compilation also carries a creative commons licence Introduction Looking through Sarah Richardson s Writing on the Line 1996 I was struck by how many of the working class women writers were from North America and how many more were poets Howard Slater had made a list of British working class male novelists and I selected British woman writers from Writing on the Line and found that most of them now have Wikipedia pages I first made a list of links Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact fiction poetry plays screenwriting and journalism I decided on an arbitrary cut off point of writers born before 1962 When I first made the list I was thinking how few working class women novelists had been published in this period But then the lists of books by each author started to stack up and there s plenty to read and much that I missed even really hearing about Of course it focuses on the most successful others who produced a community published autobiography or self published novel did not get a Wikipedia page and they should really be included every life counts Others only published an autobiography perhaps in the last years of life but were extraordinary writers and people We could also discuss the genre snobbery in literary circles that puts crime young peoples literature romantic and fantasy fiction and perhaps historical based narratives in a lower category than the novel **The British National Bibliography** Arthur James Wells, 2004

Surviving the Ultimate Workplace Bully - My Story William Johnson, 2021-06-16 When I had been bullied in school for being gay I could not have imagined that years later I would be bullied the workplace but I was and not just for being gay Many books have been written about kids being bullied in school but very few books have been written about people being bullied in the workplace I had to ask myself why that was The answer was simple because most folks who are bullied in the

workplace whether they be male or female are most times terrified to come forward and report to higher management that someone or more than one someone whether they be male or female is bullying them Why are victims of bullies in the workplace terrified to report it to upper management or HR Because as you will see in my book most times when a person is being bullied in the workplace it is being done by someone in upper management and as I have found out HR will stand by the bully in upper management And yes bullies in the workplace can be male or female as I sadly found out for myself

Subversive Peacemakers Clive Barrett, 2014-10-30 The outbreak of the First World War saw an upsurge of patriotism The Church generally saw the war as justified and many clergy encouraged the men in their congregations to join the army There was however already a strong strand of anti war sentiment opposed to the dominant theology of the Establishment This was partly based on traditional Christian pacifism but included other religious social and political influences Campaigners and conscientious objectors voiced a growing concern about the huge human cost of a conflict seemingly endlessly bogged down in the mud of the Flanders poppy fields Subversive Peacemakers recounts the stories of a strong and increasingly organised opposition to war from peace groups to poets from preachers to politicians from women to working men all of whom struggled to secure peace in a militarised and fragmenting society Clive Barrett demonstrates that the Church of England provided an unlikely setting for much of this war resistance Barrett masterfully narrates the story of the peace movement bringing together stories of war resistance until now lost disregarded or undervalued The people involved as well as the dramatic events of the conflict themselves are seen in a new light
