See how They Grow Sue Martin, Jennifer Eileen Berke, 2007 *See How They Grow* Infants and Toddlers is a book that offers an overview of the growth and development of infants and toddlers from the neonate stage through the age of three. There is special emphasis on the phenomenological approach. This approach requires that the caregiver adopts a perspective that leads to a more human and responsive understanding of each child. This approach is combined with the scientific methodology allowing the caregiver to achieve a level of improved competence becoming reflective practitioners. There is careful consideration of cultural differences in the book due to the ever present and increasing diversity of the US population. This allows the caregiver to be fully aware of how culture beliefs and traditions can influence the ultimate development of a child. The early chapters describe the philosophy of the book and explain various methods of observation. They also provide a baseline of information on growth and development. Further chapters focus on development in 3 month spans leading to the full examination of how children grow and change rapidly in all domains: physical, emotional, social, cognitive, and language. Developmental variations and alerts are considered at each level including health and safety issues as well as potential signs of abuse and neglect. The book includes multiple learning tools including key terms and words of wisdom as well as an online companion. The reader will benefit fully from this thoughtful reference based in the acknowledgment that all children are competent and powerful learners. The Ethics of Parenthood Norvin Richards, 2010-07-06 In *The Ethics of Parenthood* Norvin Richards explores the moral relationship between parents and children from slightly before the cradle to slightly before the grave. Richards maintains that biological parents do ordinarily have a right to raise their children not as a property right but as an instance of our general right to continue whatever we have begun. The contention is that creating a child is a first act of parenthood hence it ordinarily carries a right to continue as parent to that child. Implications are drawn for a wide range of cases including those of Baby Jessica and Baby Richard, prenatal abandonment, babies switched at birth and sent home with the wrong parents and families separated by war or natural disaster. A second contention is that children have a claim of their own to have their autonomy respected and that this claim is stronger the better the grounds for believing that what the child's actions express is a self of the child's own. A final set of chapters concern parents and their grown children. Views are offered about what duties parents have at this stage of life about what is required in order to treat grown children as adults and about what obligations grown children have to their parents. In the final chapter Richards discusses the

contention that parents sometimes have an obligation to die rather than permit their children to make the sacrifices needed to keep them alive arguing that a leading view about this undervalues both love and autonomy *See how They Grow* ,1980

Bornstein, Michael E. Lamb, 2015-07-24 Developmental Science An Advanced Textbook is the most complete and cutting edge introduction to the field available today Since its initial publication the key purpose of the text has been to furnish inclusive developmental perspectives on all substantive areas in psychology neuroscience perception cognition language emotion and social interaction This edition is no exception as it continues to underscore the dynamic and exciting status of contemporary developmental science In this Seventh Edition

Marc H Bornstein and Michael E Lamb once again invite international experts to prepare original comprehensive and topical treatments of the major areas of developmental science which are masterfully woven into a single coherent volume Some chapters in this edition are new and those carried forward from the sixth edition have been extensively revised This volume represents faithfully the current status of scholarly efforts in all aspects of developmental science Ideal for advanced undergraduate and introductory graduate courses the text is accompanied by a website with supplementary material for students and instructors including chapter outlines topics to think about before reading glossaries and suggested readings

Parenting George W. Holden, 2019-12-19 The Third Edition of George W Holden s *Parenting A Dynamic Perspective* provides a highly accessible and intellectually rich review of what is currently known about parenting Written from a psychological perspective but with applications to other disciplines the text discusses a wide range of contemporary issues such as fertility problems daycare marital conflict divorce gay parents and family violence Additionally Holden includes studies from developing and non Western countries as well as recent statistics on such topics as U S and world birthrate birth problems adolescent pregnancy child injury divorce and remarriage child maltreatment and certain social policy issues

The Parent Partnership Toolkit for Early Years , Parenting Beliefs, Behaviors, and Parent-Child Relations Kenneth H. Rubin, Ock Boon Chung, 2013-09-05 The purpose of this book is to present a rather simple argument Parents thoughts about childrearing and the ways in which they interact with children to achieve particular parenting or developmental goals are culturally determined Within any culture children are shaped by the physical and social settings within which they live culturally regulated customs and childrearing practices and culturally based belief systems The psychological meaning attributed to any given social behavior is in large part a function of the ecological niche within which it is produced Clearly it is the case that there are some cultural universals All parents want their children to be healthy and to feel secure However healthy and unhealthy at least in the psychological sense of the term can have different meanings from culture to culture

Children, Human Rights and Temporary Labour Migration Rasika Jayasuriya, 2021-06-22 This book focuses on the neglected yet critical issue of how the global migration of millions of parents as low waged migrant workers impacts the rights of their children under international human rights law The work provides a systematic analysis and critique of how the restrictive features of policies governing temporary labour migration interfere with provisions of the Convention on the Rights of the Child that protect the child parent relationship and parental role in children s lives Combining social and legal research it identifies both potential harms to children s well being caused by prolonged child parent separation and State duties to protect this relationship which is deliberately disrupted by temporary labour migration policies The book boldly argues that States benefitting from the labour of migrant workers share responsibility under international human rights law to mitigate harms to the children of these workers including by supporting effective measures to maintain transnational child parent relationships It identifies measures to incorporate children s best interests into temporary labour migration policies

offering ways to reduce interferences with children's family rights. This book fills a gap that emerges at the intersection of child rights studies, migration research, and existing literature on the purported nexus between labour migration and international development. It will be a valuable resource for academics, researchers, and policymakers working in these areas. Parents and Grandparents as Teachers Paris S. Strom, Robert D. Strom, 2025-05-30. A guide for families in teaching infants through age 8, this insightful book showcases how both parents and grandparents can support greater family success and how creative collaboration can produce benefits for each generation. Having developed the nation's first curriculum for grandparents and field-tested the intervention program with support from the American Association of Retired Persons, the authors explore topics like trust in infancy, family conversations, and child language praise and encouragement alone time, peer influence, resilience, and cultural diversity. To bring family members closer together and support child development, each chapter includes principles for application, ten key concepts, and questions for reflection. Readers can benefit from the Generational Perspectives Activities presented at the end of each chapter and available online that recommend topics for family conversations and self-evaluation for parents and grandparents. This book will be invaluable for parent and grandparent readers and may also be of interest to students majoring in family studies and developmental psychology and those preparing to become early childhood or elementary school teachers.
