Written by one of the country's leading authorities on alternative and complementary cancer treatments **Choices in Healing** is designed for the cancer patient or health professional who seeks a comprehensive overview of the available choices both in treatments and in living with cancer. **Choices in Healing** offers valuable information and guidance for the whole life cycle of cancer from the initial shock of diagnosis to decisions about choosing a physician and conventional therapies, selecting complementary therapies, coping with treatment and the art of living fully with the possibility of recurrence. There are detailed explanations and evaluations of a wide range of complementary therapy programs including spiritual and psychological approaches, nutritional therapies, physical therapies, pharmacological therapies and traditional medicines from around the world. There are sections on prayer and other forms of spiritual healing, psychotherapy, support groups, visual imagery and hypnosis, massage, therapeutic touch, yoga and Qi Gong, macrobiotic diet and other cancer diets, acupuncture and Chinese herbal medicines and numerous other unconventional therapies used by American cancer patients. With an unusual combination of compassion and objectivity, Michael Lerner describes his conclusions following more than a decade of study of unconventional cancer treatments in North America, Europe, India and Japan. He also draws extensively on his work with hundreds of cancer patients who have participated in the Commonwealth Cancer Help Programs, the residential support program depicted by Bill Moyers in his 1993 PBS documentary **Healing and the Mind**.

Cure Your Self of Cancer Carol Patterson, 2010-11-12 **Cure Your Self of Cancer** from desperation to a healthy body, mind and spirit. Having cancer is depressing. Information comes to you from many directions and your mind races to keep pace. When you need sleep and rest the most, you cannot sleep as the visions of the worst and the unknown dance around in your head. Cancer does not have to be the end of your life. On the other hand, it is a time to reach down within your inner being and find out what it is that made you deathly ill. Only you know why you got cancer. You might be saying right now, "I don't know why." What we now know is that deep inside your subconscious lies the secret to your ultimate wellness. The pages of this book have been set up to show you a logical progression of how you can change your lifestyle in order to cure yourself of cancer. There are sections on nutrition and how you will need to make changes in your daily diet in order to be healthy again. Other sections of the book will guide you through a thought-changing process to unlock the deep buried emotional reasons for your illness. To attain happiness and health, you must be willing to be totally honest with yourself and get down to what it is that has made you seriously ill.
