Seeing through Nature:

Seeing Ourselves in Nature Jessica Fong, 2025-08-19 Discover the profound and joyous stories of Black and Brown nature educators In *Seeing Ourselves in Nature* author Jessica Fong asks how educators in the United States who are Black Indigenous or other people of color can create space for predominantly BIPOC children and families to reconnect to nature Recognizing the scarcity of stories from people of color in the predominately white literature surrounding nature education in the United States Fong sought out thirteen other BIPOC educators to share their rich and profound experiences with young children in nature Sharing these stories is a first step in the long road to making nature education equitable for all children In section one educators work toward liberation and justice by actively pushing against the pushdown of academics on children of color In section two community and cultural connections based in nature come to the forefront as educators share the importance of seeing Black and Brown faces in natural spaces both in real life and in the images found in books In section three prose and poetry stories from Black women become radical by virtue of their simplicity as they connect the students and families they serve by centering their experiences with nature In section four children harness their powerful curiosity and intrinsic motivation when interacting with nature

Seeing through Texts Francis X. Clooney, SJ, 1996-07-03 *Seeing through Texts* invites us into the world of south Indian Hinduism through a study of 100 songs of the Tiruv ymoli the great masterpiece of the ninth century Hindu saint Sa k pan These unique songs dedicated to the Hindu god Vi u K a lead us through poetic and imaginative philosophical and moral reflections on the nature of the self and the world ancient myths and temple worship and the mystical moods of longing desire and love in which one seeks loses and finds again the God who loves us first The book is also a study of the interpretation of the Tiruv ymoli in the traditional Hindu rivai ava commentaries of the twelfth fourteenth centuries as well as a comparative theological study which explores the implication of the songs and their commentaries for readers from outside the rivai ava tradition

Seeing God Everywhere: Essays On Nature Barry McDonald, 2010-08-01 How do people sense God s presence in created things *Seeing God Everywhere* is an anthology of essays on nature and the sacred which address that question Written by an impressive list of spiritual leaders and thinkers these essays explore the question from many different perspectives Reading these essays enriches our inner lives and enlivens our contemplative imaginations Surely this is the deepest ecology possible As a special bonus at the end of each essay is a short poem on nature and the sacred taken from various traditions

Animals as Seen Through God'S Eyes Dwila R. Funk, 2014-06-30 Have you ever wondered what happens to your beloved pet when he or she dies Will you ever be able to see him or her again in heaven Or have you been plagued by the disturbing thought that animals are only here on earth for our enjoyment in this life but when they die that is it for them and they are gone forever This haunted me for decades until I finally got up enough courage to seek out the truth for myself I went to the word of God to conduct my own research This book is the result of my quest to find the truth about how God really sees animals and His plan for them I was astounded by

the wealth of information that God shares in the Holy Bible regarding animals The answers are there hidden in His word All anyone needs to do is look **Seeing Through the Veil** Suzanne Conklin Akbari,2004-01-01 During the later Middle Ages new optical theories were introduced that located the power of sight not in the seeing subject but in the passive object of vision This shift had a powerful impact not only on medieval science but also on theories of knowledge and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion In *Seeing through the Veil* Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision After a survey on the genre of allegory and an overview of medieval optical theories Akbari delves into more detailed studies of several medieval literary works including the *Roman de la Rose* Dante's *Vita Nuova* *Convivio* and *Commedia* and Chaucer's dream visions and *Canterbury Tales* The final chapter *Division and Darkness* centres on the legacy of allegory in the fifteenth century Offering a new interdisciplinary synthetic approach to late medieval intellectual history and to major works within the medieval literary canon *Seeing through the Veil* will be an essential resource to the study of medieval literature and culture as well as philosophy history of art and history of science

Charles Kors,2016-06-20 This book shows how absolute naturalism deciphering nature without reference to God emerged from the inheritance dynamics and debates of orthodox culture **Our Preposterous Use of Literature** Tracy Scott McMillin,2000 He examines the ways in which Emerson's texts have been read in the United States the myriad methods by which those texts have been pillaged picked over and repackaged in a word consumed by biographers political apologists self help proponents entrepreneurs and academicians alike **Theory and Power** Rolf Gruner,1977-01-01 **Mathematics in Nature** John Adam,2011-10-02 From rainbows river meanders and shadows to spider webs honeycombs and the markings on animal coats the visible world is full of patterns that can be described mathematically Examining such readily observable phenomena this book introduces readers to the beauty of nature as revealed by mathematics and the beauty of mathematics as revealed in nature Generously illustrated written in an informal style and replete with examples from everyday life Mathematics in Nature is an excellent and undaunting introduction to the ideas and methods of mathematical modeling It illustrates how mathematics can be used to formulate and solve puzzles observed in nature and to interpret the solutions In the process it teaches such topics as the art of estimation and the effects of scale particularly what happens as things get bigger Readers will develop an understanding of the symbiosis that exists between basic scientific principles and their mathematical expressions as well as a deeper appreciation for such natural phenomena as cloud formations halos and glories tree heights and leaf patterns butterfly and moth wings and even puddles and mud cracks Developed out of a university course this book makes an ideal supplemental text for courses in applied mathematics and mathematical modeling It will also appeal to mathematics educators and enthusiasts at all levels and is designed so that it can be dipped into at leisure *The Arnoldian* ,1984 The Style of Hawthorne's Gaze John Dolis,2014-07-14 An exploration of Nathaniel Hawthorne's narrative technique and unique vision of the world The Style of Hawthorne's Gaze is an unusual and insightful work that employs a combination of critical strategies drawn from art history philosophy psychoanalysis and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne's narrative technique and his unique vision of the world Dolis studies Hawthorne's anti technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting motion aspectivity fragmentation and imagination as they relate to his descriptive techniques Dolis sets the world of Hawthorne's work over and against the aesthetic and philosophical development of the world understood as a view from its inception in the camera obscura and perspective in general to its 19th century articulation in photography In light of this general technology of the image and drawing upon a wide range of contemporary critical theories Dolis begins his study of Hawthorne at the level of description where the world of the work first arises in the reader's consciousness Dolis shows how the work of Heidegger Merleau Ponty Freud Lacan and Derrida can provide fresh insights into the sophisticated style of Hawthorne's perception of and system for representing reality The Principles of Nature (digitally re-edited) Andrew Jackson Davis,2014-05-19 This rare book has been digitally re edited from a facsimile reprint of the original Much care and

attention has been spent bringing the book back to its original glory The scanning process always introduces errors but as far as we know we have managed to find the majority and fix them in this edition If you are an Andrew Jackson Davis fan or you are new to the author then this is his masterpiece This work was produced whilst he was under hypnosis and the gems therein comes direct from the Fountain of Knowledge Davis was a young uneducated man at the time of producing this book and its contents and style are far beyond anything he could have produced He was a remarkable man as you will find out from the Introduction

Groundless Paths Karl Brunnholzl, 2012-08-14 The Abhisamayalamkara summarizes all the topics in the vast body of the prajāpāramitā sūtras Resembling a zip file it comes to life only through its Indian and Tibetan commentaries Together these texts not only discuss the hidden meaning of the prajāpāramitā sūtras the paths and bhūmis of śrāvakas pratyekabuddhas and bodhisattvas but also serve as contemplative manuals for the explicit topic of these sūtras emptiness and how it is to be understood on the progressive levels of realization of bodhisattvas Thus these texts describe what happens in the mind of a bodhisattva who meditates on emptiness making it a living experience from the beginner's stage up through buddhahood Groundless Paths contains the first in depth study of the Abhisamayalamkara the text studied most extensively in higher Tibetan Buddhist education and its commentaries from the perspective of the Nyingma School of Tibetan Buddhism This study consists mainly of translations of Maitreya's famous text and two commentaries on it by Patrul Rinpoche These are supplemented by three short texts on the paths and bhūmis by the same author as well as extensive excerpts from commentaries by six other Nyingma masters including Mipham Rinpoche Thus this book helps close a long standing gap in the modern scholarship on the prajāpāramitā sūtras and the literature on paths and bhūmis in mahāyāna Buddhism Arya Maitreya's Ornament of Clear Realization with its Indian and Tibetan commentaries presents the complex dynamics of the path to liberation as a succession of realizations of the empty nature of all phenomena This presentation is a powerful antidote to whatever two dimensional views we might hold about spiritual experience and the journey to enlightenment

Seeing into Screens Tessa Dwyer, Claire Perkins, Sean Redmond, Jodi Sita, 2018-01-25 Seeing into Screens Eye Tracking and the Moving Image is the first dedicated anthology that explores vision and perception as it materializes as viewers watch screen content While nearly all moving image research either imagines how its audience responds to the screen or focuses upon external responses this collection utilizes the data produced from eye tracking technology to assess seeing and knowing gazing and perceiving The editors divide their collection into the following four sections eye tracking performance which addresses the ways viewers respond to screen genre actor and star auteur and cinematography eye tracking aesthetics which explores the way viewers gaze upon colour light movement and space eye tracking inscription which examines the way the viewer responds to subtitles translation and written information found in the screen world and eye tracking augmentation which examines the role of simulation mediation and technological intervention in the way viewers engage with screen content At a time when the nature of viewing the screen is extending and diversifying

across different platforms and exhibitions Seeing into Screens is a timely exploration of how viewers watch the screen

Wagering on Transcendence Phyllis Carey, 1997 Wagering on Transcendence explores the question of ultimate meaning in literature Through essays Mount Mary College professors from various disciplines analyze several pieces of literature from a variety of genres and authors to show how each depicts the human struggle to find meaning The essays analyze concrete examples of spiritual journeys the ways in which nature can be an avenue of transcendence the transforming effect that the search for meaning can have on the individual how transcendence can be experienced through community the roles of language and story in the quest for transcendence and the wager itself how our bets about the existence of the Divine determine how we live our lives
