Popular Photography, 1990-10 **Popular Photography**, 1996-10 Advanced Korean Ross King, Jaehoon Yeon,

Ph.D., Chungsook Kim, 2015-04-07 Advanced Korean offers a complete systematic and streamlined third year course in Korean. It is ideal for university students and adult learners with plentiful reading texts and written exercises all in Korean. Concise Korean grammar notes in English, extensive glossaries and an answer key make this book suitable for those studying alone as well as for classroom use. There are 20 comprehensive lessons each with a reading text in which new language is introduced in context followed by vocabulary, grammar points and exercises. Lessons 5, 10, 15 and 20 are short reviews of the key structural patterns introduced. The focus is on written Korean but the reading texts are not academic; they are breezy, chatty and amusing with illustrations. The textbook comes with a downloadable supplement entitled *Sino Korean Companion*. It is for those learners wishing to commence the study of Chinese characters as they are used in the Korean language. The 20 lessons build on the content of the lessons in the main textbook to introduce 500 Chinese characters in their Sino Korean readings. The emphasis is on giving students the tools they need to decipher unfamiliar Chinese characters on their own and also on Sino Korean vocabulary acquisition. Each lesson introduces approximately 25-30 new Chinese characters along with related vocabulary items and builds on previous characters and vocabulary introduced, demonstrating the cumulative effect on one's vocabulary of paying systematic attention to Sino Korean.

Popular Photography, 1990-10 **Working with Bereaved Children and Young People** Brenda Mallon, 2010-11-15 *Working with Bereaved Children and Young People* offers a fresh insight into working practices with children and young people who are experiencing the death of a family member, friend, school peer or in their social network. Bridging the gap between theory and practice, the book's practical skills focus is informed by the latest research findings on children and young people's experience of grief. The wide-ranging content includes a comprehensive review of theoretical approaches to bereavement, the impact of different types of grief on children, working with children who have been bereaved in traumatic circumstances such as through criminal behavior, skills development. The list of resources, case studies and exercises encourage critical engagement with the counselling theory and promote reflexive practice. Trainees in counselling, psychotherapy and social work as well as teachers and mental health workers will find this an invaluable resource for working with this vulnerable client group.
