**"Seeteufel" Felix Graf Luckner** Norbert von Frankenstein, 1997      **Hitler's Hangman** Robert Gerwarth, 2011-11-15 A chilling biography of the head of Nazi Germany's terror apparatus a key player in the Third Reich whose full story has never before been told Reinhard Heydrich is widely recognized as one of the great iconic villains of the twentieth century an appalling figure even within the context of the Nazi leadership Chief of the Nazi Criminal Police the SS Security Service and the Gestapo ruthless overlord of Nazi occupied Bohemia and Moravia and leading planner of the Final Solution Heydrich played a central role in Hitler's Germany He shouldered a major share of responsibility for some of the worst Nazi atrocities and up to his assassination in Prague in 1942 he was widely seen as one of the most dangerous men in Nazi Germany Yet Heydrich has received remarkably modest attention in the extensive literature of the Third Reich Robert Gerwarth weaves together little known stories of Heydrich's private life with his deeds as head of the Nazi Reich Security Main Office Fully exploring Heydrich's progression from a privileged middle class youth to a rapacious mass murderer Gerwarth sheds new light on the complexity of Heydrich's adult character his motivations the incremental steps that led to unimaginable atrocities and the consequences of his murderous efforts toward re-creating the entire ethnic makeup of Europe This admirable biography makes plausible what actually happened and makes human what we might prefer to dismiss as monstrous Timothy Snyder Wall Street Journal A probing biography Gerwarth's fine study shows in chilling detail how genocide emerged from the practicalities of implementing a demented belief system Publishers Weekly A thoroughly documented scholarly and eminently readable account of this mass murderer The New Republic      **Die Tempelherren einst und heute** Nicolaus C. **The Ice Age** Jürgen Ehlers,2022-08-19 Nothing new from the Ice Age Far from it Barely ten years have passed since the first edition of this book was published but in that time researchers around the world have developed new methods and published their findings in scientific journals Consequently ideas about the course of the Ice Age have changed dramatically The sequence of the individual ice advances the direction of ice movement and the direction of meltwater drainage are only partially known but they can be reconstructed This book offers in depth information about the state of the investigations Ice ages are the periods of the earth's history in which at least one polar region is glaciated or covered by sea ice Thus we are currently living in an Ice Age The present Ice Age is also the period in which humans started to intervene in the shaping of the earth The results are obvious Aerial and satellite images can be used to trace the melting of glaciers but also the decay of the Arctic permafrost and the clearing of the Brazilian rainforest This book is a translation of the original German 2nd edition Das Eiszeitalter by Juergen Ehlers published by Springer Verlag GmbH Germany part of Springer Nature in 2020 The translation was done with the help of artificial intelligence machine translation by DeepL.com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation Springer Nature works continuously to further the development of tools for the production of books and promotes technologies to support the authors
