Wells,2017-03-16 The fashionable and vulgar are after all but the expression of man s gregarious instinct Every poor mortal is torn by the conflicting dreads of being common place and of being eccentric He and more particularly she is continually imitating and avoiding imitation trying to be singular and yet like other people In the exquisitely fashionable and in the entirely vulgar the sheep like longing is triumphant and the revolting individual has disappeared The former is a mechanical vehicle upon which the new correct thing rides forth to extort the astonishment of men the latter a lifeless bier bearing its corrupt and unrecognisable remains away to final oblivion amidst universal execration It is curious to notice George that there has of late been a fashion in originality *The Works of H. Wells,2007-05-31 Herbert George Wells was perhaps best known as the author of such classic works of science fiction as The Time Machine and War of

the Worlds But it was in his short stories written when he was a young man embarking on a literary career that he first explored the enormous potential of the scientific discoveries of the day He described his stories as a miscellany of inventions yet his enthusiasm for science was tempered by an awareness of its horrifying destructive powers and the threat it could pose to the human race A consummate storyteller he made fantastic creatures and machines entirely believable and by placing ordinary men and women in extraordinary situations he explored with humor what it means to be alive in a century of rapid scientific progress      *English Literature of the 19th & 20th Centuries* Maggs Bros,1927
